The Board has 17 members appointed to four-year terms by the Governor with the advice and consent of the Senate. The Board's headquarters is in Sacramento, headed by a chancellor, appointed by the Board.

The objectives of the Board are:

1. To give direction, coordination, planning, and leadership to California's Community Colleges.
2. To promote quality education in community colleges.
3. To improve district and campus programs through informational and technical services on a statewide basis, while recognizing the community oriented aspect of California's network of 107 community colleges.
4. To seek adequate financial support while ensuring the most prudent use of public funds.

### SUMMARY OF PROGRAM REQUIREMENTS

	1988-89*	1989-90*	1990-91*
10 Community College Apportionments.....	\$2,154,053	\$2,303,153	\$2,469,920
20 Special Services and Operations.....	214,502	235,134	240,079

Personnel years .....	176.5	243.0	234.6

<sup>1</sup> Some of the amounts included as General Fund are for the purposes of meeting the minimum funding guarantee for educational programs pursuant to Section 8 of Article XVI of the California Constitution. Specific appropriations are identified in the RECONCILIATION WITH APPROPRIATIONS and are also summarized in the Budget Summary Schedule 9A, Proposition 98 General Fund Guarantee.

### MAJOR BUDGET ADJUSTMENTS

The 1990-91 budget proposes a General Fund expenditure level of \$1,688.2 million, representing a \$124.3 million increase (7.9 percent) from the 1989-90 budget. Total expenditures are proposed to increase to \$2,682.4 million, an increase of \$181.8 million (7.3 percent) over 1989-90. The following details the most significant changes:

Program	Description	1990-91 Dollars*
10	Apportionment Funding (This amount funds the statutory requirements for COLA (5.2%), equalization and growth (2.15%) plus a base ADA increase carried forward from 1989-90. ....)	\$161,641
10	ADA growth over statutory limits.....	5,000
20	ADA growth for Matriculation Program.....	771
20	Faculty and Staff Diversity Program.....	1,000
20	Economic Development Program.....	1,129
20	Selected Discretionary COLAs (5.2%).....	5,456
20	ADA growth for Disabled Students Programs and Services (DSPS).....	666
40	Proposition 98 Reserve to fund any deficiencies and other educational purposes .....	10,000

### 10 COMMUNITY COLLEGE APPORTIONMENTS

#### Apportionments of State Aid

#### Program Objectives Statement

This program provides funds which supplement local resources in financing the general education programs for the 107 community colleges.

10.10 Apportionments .....				\$2,155,153	\$2,303,153	\$2,469,920
10.20 Emergency loans and repayments .....				-1,100	-	-

## 10.10 Apportionments

## Program Element Statement

This program includes the preparation of reports and the collection of a wide range of data from California Community Colleges for certification of the apportionments to be paid to each district. The largest apportionment of State funds is based on units of Average Daily Attendance (ADA) of students in each community college district. A unit of ADA in community colleges represents 525 hours of classroom or related instruction. Major State funding of community colleges is achieved through the transfer of funds from the General Fund to Section B of the State School Fund.

The Community College current apportionment funding formula was established in Chapter 565, Statutes of 1983 (SB 851) and extended through July 1, 1991 with the enactment of Chapter 973, Statutes of 1988 (AB 1725). The other significant statutory provisions relating to community college finance were established in Chapter 1, Second Extraordinary Session, Statutes of 1984 (AB 1xx), which imposed a modest student enrollment fee in the Community Colleges and appropriated funds for student financial aid to offset the impact of the fee for needy students. These provisions expired on January 1, 1988 and were extended, with minor modifications to January 1, 1992, by Chapter 113, Statutes of 1987 (AB 2336). AB 2336 imposed a fee of \$5 per unit up to a maximum of \$50 per semester and provides for student financial aid to cover the fee for needy students.

Chapter 82, Statutes of 1989 (SB 98) provided \$51.5 million to the community colleges to meet the funding guarantee in Proposition 98 for 1988-89. \$45 million was allocated for one-time funding of community college priorities. In addition, SB 98 allocated an additional \$6.5 million for Fiscal Year 1989-90 for 1988-89 unfunded ADA.

The revenues available to the districts for apportionment include the amount in the 1989 Budget Act, Chapter 83, Statutes of 1989 (AB 198) and SB 98. AB 198 allocated \$84 million to the community colleges for the 1989-90 Fiscal Year. This included \$70 million for Phase I of Program Improvement as specified in AB 1725 and a \$14 million augmentation for the Matriculation program.

The revenues available to the districts for apportionment in 1990-91 also include an estimated \$127.1 million in lottery revenue.

## Budget Adjustments

In 1990-91, the following budget adjustments are proposed:

- Full funding of the statutory provisions of SB 851. This includes a 5.2% statutory COLA (\$115.4 million), equalization (\$10.9 million), and 2.15% ADA growth (\$35.3 million).
- \$204,000 to fund a 3.0% discretionary COLA for apprenticeship programs.
- \$5 million to fund ADA growth above statutory attendance limits. Also included in the budget is \$5 million to continue funding for ADA growth in basic skills courses above statutory attendance limits.
- \$631,000 to increase reimbursements to districts for lease payments to the State Public Works Board. Such payments provide the financing for the districts' debt service on revenue bonds for capital outlay projects.

## 10.20 Emergency Loans and Repayments

## Program Element Statement

Chapter 184, Statutes of 1985 (AB 539), appropriated \$4.8 million for emergency loans for three community college districts, Chaffey (\$2 million), Peralta (\$2 million), and Lassen (\$0.8 million). Chapter 73, Statutes of 1986 (AB 2672), reappropriated \$4.4 million from Chapter 184, and added an additional \$100,000 for emergency loans for Peralta (\$3.3 million) and Lassen (\$1.2 million) Community College Districts. These loans are to be repaid 3 years after the loan is made with interest at the Pooled Money Investment Fund rate.

## 20.10 Student Services

## Program Element Statement

This element serves the needs of the economically, educationally, or physically disadvantaged students who require assistance to participate more fully in, and benefit from, a college education. This assistance includes financial aid, and mobility and educational aids for the disabled among other services. This element also provides specialized student services to the general student body.

It is the intent and purpose of the Community College Extended Opportunity Programs and Services (EOPS) to implement programs directed to identifying those students affected by language, social and economic handicaps, to increase the number of eligible EOPS students served, and to assist those students to achieve their educational objectives and goals, including, but not limited to, obtaining job skills, occupational certificates, or associate degrees, and transferring to four-year institutions. EOPS funds are used for a variety of purposes including outreach, counseling, transfer assistance and financial aid assistance.

AB 3103, Chapter 1029, Statutes of 1982 established the Cooperative Agencies Resources for Education (CARE) program beginning in 1982-83. Through the joint participation of the Chancellor's Office, the Employment Development Department, the Department of Social Services, county welfare departments and community college districts, the CARE program coordinates and targets the services of these agencies for welfare recipients who wish to become self-supporting through the acquisition of a job-related education.

This element administers the Chancellor's Office Tax Offset Program (COTOP), which works with the Franchise Tax Board to offset State income tax refunds against defaulted student loans. A service fee is deducted from the proceeds remitted to the districts. This element also administers the Board Financial Aid Program (BFAP), established by Chapter 1118/87, which provides financial aid to students who cannot afford the mandatory fee also imposed by that statute.

AB 77 (Lanterman, 1978) established Handicapped Students Programs and Services (HSPS), now Disabled Students Programs and Services (DSP&S), a categorical program providing State funds to community colleges to cover the direct excess costs of providing special facilities and services. Colleges must certify that all other local funding available has been completely utilized prior to accessing these funds.

Matriculation is a program of student assessment, counseling, placement and follow-up established by Chapter 1467, Statutes of 1986 (AB 3), and implemented by a statewide plan adopted by the Board of Governors in January, 1987. The goal of matriculation is to help students clarify their educational goals, enroll in courses and programs appropriate for their goals and academic skill level, and complete their educational program.

In addition, this element includes the Transfer Center pilot project, in which centers at up to 20 colleges have been established to assist, encourage and facilitate the transfer of community college students to 4-year institutions. This program was initiated in 1985-86 and is funded on a pilot basis. It is an intersegmental program, and funds are also provided in the budgets of the University of California and California State University.

## Budget Adjustments

In 1990-91, the following budget adjustments are proposed:

\$5,252,000 for discretionary COLAs (5.2%) for the following:	
Disabled Students Programs and Services (DSPS)	\$1,563,000
Matriculation	1,865,000
Extended Opportunity Programs and Services (EOPS)	1,631,000
Puente Project	9,000
CARE	80,000
Transfer Centers	104,000

• \$771,000 to fund ADA growth in the Matriculation Program.

• \$150,000 for allocation to "Recording for the Blind" for increased services to community college students, in accordance with Chapter 1311, Statutes of 1989 (AB 766).

• Conversion of 1.8 PYs from limited-term to permanent for statewide coordination of local matriculation implementation.

• Conversion of 0.9 PYs from contract to permanent civil service for a federal liaison to represent the California Community Colleges in Washington, D.C.

\* Dollars in thousands, excluding salary range.

## 20.20 Faculty and Staff Services

## Program Element Statement

The goals of this element include achieving a high standard of education through establishment of minimum qualifications for faculty, through support of the statewide Academic Senate and through support of district affirmative action employment programs.

Prior to June 30, 1990, administrators and teachers in California Community Colleges are required to obtain teaching credentials. Until then, the credentials office administers this program which involves the review and processing of applications, as well as the revocation and reinstatement of credentials as prescribed by law. On July 1, 1990, the credential requirement is replaced by a structure of minimum qualifications, pursuant to Chapter 973, Statutes of 1988 (AB 1725). The credentials program will continue to function, with General Fund support exclusively, through September, 1990 to process applications on hand and to conduct an orderly phase-out.

The minimum qualifications staff are responsible for working with the Academic Senate in developing the structure of minimum qualifications; in clarifying hiring criteria and developing a list of qualifying disciplines; and reviewing, with field input, the continued appropriateness of such minimum qualifications.

\* Dollars in thousands, excluding salary range.

## 6870 BOARD OF GOVERNORS OF THE CALIFORNIA COMMUNITY COLLEGES—Continued

The Academic Senate provides for faculty input to local and state policy-making, focusing primarily on the preservation of academic freedom and the maintenance of the integrity of the instructional program. It is partially state funded and partially funded by local community college districts.

The Planning and Special Projects Unit is responsible for intersegmental relations and integrated long-range planning. The Office of Faculty and Staff Diversity has been established to expedite efforts to provide technical assistance to districts for the development and implementation of affirmative action programs. This office provides major assistance in the area of faculty and staff recruitment and is responsible for monitoring and evaluating the effectiveness of affirmative action efforts in districts statewide. It provides central administrative assistance by way of funding, technical resources and technical assistance.

Staff Development is a function authorized by AB 1725. The object of the program is to provide fiscal and technical support to community college staff development programs. This function is carried-out through a review of district staff development plans, coordination of such plans, and by timely allocation of "faculty and staff diversity" funding. The use of these funds by local districts are annually monitored through review of program expenditure data.

**Budget Adjustments**

In 1990-91, the following budget adjustments are proposed:

- \$145,000 and 2.8 PYs to allow the Credentials Program to finish tasks associated with credentials applications received prior to the program's sunset on June 30, 1990.
- \$1 million for faculty and staff diversity to expand programs to achieve proportional representation of underrepresented groups among faculty and staff.
- Conversion of 1.4 PYs from limited-term to permanent for faculty and staff development.

**20.30 Educational Program Services****Program Element Statement**

Educational Program Services encompasses the review, approval, establishment and evaluation of courses, and supports innovative curricula and methods of instruction.

The Academic Affairs Component oversees instructional policy developments and serves as the Chancellor's liaison to the Academic Senate and the Council of Chief Instructional Officers.

The Academic Standards and Evaluation Component has direct responsibility for educational course and program planning and approval, conducts compliance with minimum instructional standards and develops educational policy guidelines and standards concerning a wide range of instructional issues. It also maintains the statewide course classification system.

The Transfer Education and Articulation Component conducts all intersegmental instructional matters with specific focus on course and program articulation with high schools and 4-year colleges.

The Employment Training Component administers the Employer-Based Training (EBT) program, the Vocational Instructor and Career Counselor Inservice Training Program and the community colleges' involvements in the Job Training Partnership Act (JTPA). It provides liaison services between community colleges and the private sector and assists the colleges in developing training and educational programs for business and industry.

The Instructional Improvement and Innovation Component provides grants and loans to community colleges engaged in projects of innovative and nontraditional methods of instruction as authorized by Chapter 714, Statutes of 1977.

The Staff Development Program provides funding for local faculty and staff development programs.

The activity of the Vocational Education Projects and Allocations Components is conducted in accordance with an interagency agreement with the State Department of Education, recipient of Federal Vocational Education Act funds. The objectives are to plan, coordinate and service occupational and technical programs in the colleges and to administer allocations of federal funds to districts on an entitlement basis.

The Economic Development Component includes local assistance grants for Economic Development Programs including Employer-Based Training awards.

**Budget Adjustments**

For 1990-91, the following budget adjustments are proposed:

- \$50,000 is provided for planning grants for districts to develop programs to issue Teacher Assistant Associate of Arts degrees, pursuant to Chapter 1345, Statutes of 1989 (SB 156).
- \$1.1 million to support the Economic Development Program for the purpose of coordinating with the Department of Commerce and local employers to develop on-the-job training and employment programs.

\* Dollars in thousands, excluding salary range.

## 20.40 Physical Plant Planning, Operations and Development

## Program Element Statement

To ensure that adequate space is provided for the instruction and administrative activities of the community colleges, staff of this element assist in providing for the necessary construction and maintenance of facilities.

## Budget Adjustments

In 1990-91, the following budget adjustments are proposed:

- \$23 million bond funds to maintain the current level of support for instructional equipment and library materials.
- \$5 million bond funds to continue funding for top priority asbestos abatement projects.

## 6870 BOARD OF GOVERNORS OF THE CALIFORNIA COMMUNITY COLLEGES—Continued

## 20.50 Management Information System (MIS)

## Program Element Statement

Management Information System (MIS) will collect data on courses, students, student services, staff, and college finance and facilities. MIS will assist the Governor, the Legislature and the Chancellor's office in dealing with policy and fiscal issues affecting community colleges. MIS will report data on transfer rates to four-year institutions, the success of remedial education programs, completion rates in vocational education courses, and the effectiveness of matriculation, financial aid and other student services programs.

## 30 ADMINISTRATION

## Program Objectives Statement

The Administrative unit carries out the decisions of the Board of Governors, represents the interest of all California Community Colleges and informs State and local government as well as the public about status and goals of statewide planning.

The Board of Governors establishes policy direction for the Chancellor and his staff, the 71 Community College districts and the 107 colleges they maintain. The Board's headquarters is in Sacramento, but its meetings are held in locations throughout the State.

The Chancellor's Office is responsible for carrying out all laws which establish the responsibilities for the Chancellor, and for carrying out the policy of the Board of Governors. These functions are supported by a legislative and public affairs unit, a legal unit, a policy analysis and research unit as well as the budgeting, accounting, personnel, affirmative action and business services units.

## Budget Adjustments

In 1990-91, the following budget adjustment is proposed:

- \$375,000 for development of a planning and accountability program required by Chapter 973, Statutes of 1988 (AB 1725).

## 40 PROPOSITION 98—RESERVE/EXPENDITURES

## Program Objectives Statement

In the 1990-91 fiscal year, funds are appropriated for community college contingencies or emergencies. These funds are included as expenditures and counted toward Proposition 98 spending requirements. In the event the funds are not needed for contingencies or emergencies, funds shall be expended for other educational purposes.

## Budget Adjustments

- In 1990-91, a total of \$10 million is appropriated as a reserve and for other educational purposes.

## 40 CAPITAL OUTLAY

There are 107 community colleges organized into 71 districts serving the entire State of California from Eureka and Weed in the north to Chula Vista and Imperial in the south, from San Francisco in the west to Lake Tahoe and Blythe in the east. Classes are also offered at close to 3,000 different off-campus locations.

In prior years, funding for state support of the Community College Capital Outlay Program came from voted bond issues between 1965-66 and 1974-75, and the Capital Outlay Fund for Public Higher Education (COFPHF) between 1975-76 and 1986-87. Matching shares, as required by the Community College Construction Act of 1967 were raised by the districts through permissive taxes and local voted bonds or tax overrides. Proposition 13, approved by the electorate June 6, 1978, reduced the ability of a district to raise its matching share of a project, and funds to continue projects already begun have come from reserves or special legislation. District funds for capital outlay generally are limited. Projects budgeted for 1990-91 are proposed to be funded from the Higher Education Capital Outlay Bond Fund of 1990.

In recognition of the need to provide a varying percentage (up to 100%) of state funding of a community college capital outlay project, the Legislature enacted the Community College Construction Act of 1980, which was amended by Chapter 1347, Statutes of 1985. This amended Act requires the Board of Governors of the California Community Colleges to develop criteria for determining respective state and district shares of a project. If the district funds available are insufficient to provide a matching share for the cost of a project, or one or more of its phases, state funds may be requested to provide the balance required.

In the California Community Colleges system, Weekly Student Contact Hours (WSCH) is the common budget measurement comparable to Full Time Equivalent (FTE) in other higher education systems and is used to determine current and projected facilities needs.

## PROGRAM ELEMENTS

## Major Projects

## 40.02 Allan Hancock Community College District

## ALLAN HANCOCK COLLEGE

40.02.101 Humanities Building.....	\$2,514 <sup>Cs</sup>	\$122 <sup>Eu</sup>	-
40.02.104 Consumer Education Center .....	-	1,223 <sup>CEu</sup>	-
40.02.106 Secondary Effects of Renovations .....	110 <sup>Wu</sup>	1,627 <sup>Cs</sup>	\$662 <sup>Ev</sup>
This project will provide renovation of 36,451 ASF in nine buildings to bring the structures into compliance with the Field Act.			
40.02.108 Performing Arts Addition .....	8 <sup>WCu</sup>	854 <sup>WCEu</sup>	-
40.02.109 Site Development, Phase II .....	24 <sup>PWCEu</sup>	-	1,805 <sup>WCv</sup>
This project will provide street realignments to satisfy the City of Santa Maria.			

## 40.03 Antelope Valley Community College District

## ANTELOPE VALLEY COLLEGE

40.03.101 Remodel to Create Classroom, Offices and Relocate Nursing.....	-	850 <sup>WCu</sup>	205 <sup>Ev</sup>
This project will remodel 13,482 ASF of classroom and laboratory space to recreate smaller classrooms, relocate nursing and provide faculty offices.			
40.03.102 Administration Building Remodel .....	-	-	1,810 <sup>WCv</sup>
This project will renovate 21,976 ASF for office functions of AB 1725.			
40.03.103 Library Building .....	-	-	5,004 <sup>WCs</sup>
This project will construct 35,535 ASF for library, renovate 9,990 ASF for instruction and student services, and build electric service for the added load.			

\* Dollars in thousands, excluding salary range.

40.07.104	Learning Resource Center Remodel/Expansion .....	—	—	307 W v
This project will provide working drawings for 25,449 ASF renovation and construct 18,650 ASF for library and learning resources.				
<b>40.08 Chaffey Community College District</b>				
CHAFFEY COLLEGE				
40.08.101	Learning Resource Center Remodel/Expansion .....	—	—	165 W v
This project will provide working drawings for 11,177 ASF for library and learning assistance facilities.				
<b>40.09 Citrus Community College District</b>				
CITRUS COLLEGE				
40.09.101	Physical Science Code Corrections .....	—	625 WCE u	—
40.09.102	Diesel Tech Addition .....	—	817 WCE u	—
40.09.103	Recording Arts Addition .....	—	37 W u	1,043 CE v
Remodels 3,836 ASF for 1,793 WSCH in a regional performing arts facility.				
40.09.104	Relocate Disabled Programs .....	—	604 WCE u	—
40.09.105	Aquatic Center .....	—	83 W u	1,474 CE v
This project will provide a graduated bottom pool for water safety training and 2,700 ASF of support facilities.				
40.09.106	Child Care/Development Addition .....	—	72 W u	1,323 CE v
This project will provide 2,703 ASF for infant care for compliance with orders of the Department of Social Services.				
40.09.107	Mass Media Center Remodel .....	—	—	103 W v
This project will renovate 1,180 ASF and construct 5,280 ASF to convert a theater complex for instruction.				
<b>40.10 Desert Community College District</b>				
COLLEGE OF THE DESERT				
40.10.101	Removal of Architectural Barriers to Handicapped .....	—	123 WC u	—
40.10.102	Campus Water System .....	6 WC u	295 WC u	—
40.10.103	Child Care/Development Facility .....	—	609 CE u	—
COPPER MOUNTAIN CENTER				
40.10.202	Vocational Education Building .....	150 E u	27 E u	—
40.10.203	Learning Resource Center .....	—	—	152 W v
This project will provide working drawings for 9,940 ASF in library and learning resources facilities.				
40.10.204	Student Services Center .....	—	—	100 W v
This project will provide working drawings for 6,614 ASF in student services offices and food service.				
<b>40.11 Coast Community College District</b>				
GOLDEN WEST COLLEGE				
40.11.201	Removal of Architectural Barriers to Handicapped .....	196 WCE t	—	—
40.11.202	Architectural Barrier Removal .....	—	—	569 C v
This project will construct four elevators to remove architectural barriers to the physically handicapped.				
40.11.203	Math/Science Building Reconstruction .....	—	—	1,450 WCE v
This project will rebuild and equip 8,572 ASF of a subsided building.				
ORANGE COAST COLLEGE				
40.11.303	Biology Modification .....	464 WC s	198 E u	—
40.11.304	Architectural Barrier Removal .....	—	—	246 WC v
This project will remove all known campus architectural barriers to the physically handicapped.				
40.11.305	Vocational Technology Building .....	—	—	991 W v
This project will provide working drawings for 59,018 ASF of technical education facilities.				

\* Dollars in thousands, excluding salary range.

STATE BUILDING PROGRAM EXPENDITURES		Actual 1988-89*	Estimated 1989-90*	Proposed 1990-91*
<b>40.12 Compton Community College District</b>				
COMPTON COLLEGE				
40.12.101	Remodel Electronics Laboratory .....	-	\$367 <sup>WCE u</sup>	-
<b>40.13 Contra Costa Community College District</b>				
DIABLO VALLEY COLLEGE				
40.13.206	Skills Center Addition.....	-	142 <sup>W u</sup>	\$2,324 <sup>C v</sup>
This project will provide 13,204 ASF through construction and conversion for basic skills instruction.				
40.13.207	Music Addition .....	\$153 <sup>W u</sup>	2,733 <sup>CE u</sup>	-
40.13.208	Library Lighting .....	-	275 <sup>WCu</sup>	-
<b>40.14 El Camino Community College District</b>				
EL CAMINO COLLEGE				
40.14.101	Removal of Architectural Barriers to Physically Handicapped.....	259 <sup>W u</sup>	2,761 <sup>C u</sup>	-
40.14.103	Library Addition.....	-	457 <sup>W u</sup>	6,349 <sup>C s</sup>
This project provides 24,890 ASF of library-learning resource facility and support areas for an additional 5,142 day graded students.				
40.14.104	Child Care/Development Facility.....	-	54 <sup>W u</sup>	1,374 <sup>CE v</sup>
This project will provide working drawings and construction of the first 5,511 ASF for child care/development at 1,946 WSCH.				
<b>40.73 Feather River Community College District</b>				
FEATHER RIVER COLLEGE				
40.73.101	Science Module .....	-	-	128 <sup>W v</sup>
This project will provide working drawings for 4,000 ASF for science laboratories and offices.				
<b>40.15 Foothill-DeAnza Community College District</b>				
DE ANZA COLLEGE				
40.15.101	Computer/Electronics/Telecom Building.....	466 <sup>W u</sup>	10,846 <sup>C s</sup>	4,046 <sup>E v</sup>
This project provides a 36,451 ASF computer tech facility on campus to close 23,744 ASF off campus.				
40.15.102	Secondary Effects.....	-	-	1,156 <sup>WC v</sup>
This project will renovate 16,090 ASF for instruction.				
Foothill College				
40.15.201	Removal of Architectural Barriers to Physically Handicapped.....	-	197 <sup>WC u</sup>	-
40.15.202	Library Remodel/Addition .....	-	-	3,396 <sup>WC v</sup>
This project will renovate 9,532 ASF and construct 7,611 ASF for library and learning resources facilities.				
<b>40.16 Fremont-Newark Community College District</b>				
OHLONE COLLEGE				
40.16.102	Removal of Architectural Barriers to the Physically Handicapped ..	47 <sup>WC t</sup>	-	-
40.16.103	Performing Arts Facility .....	-	-	726 <sup>W v</sup>
This project provides for 43,425 ASF regional performing arts facility and removes 6,066 ASF from campus.				
<b>40.18 Glendale Community College District</b>				
GLENDALE COLLEGE				
40.18.102	Faculty Offices, Students Services and Classrooms.....	381 <sup>E u</sup>	316 <sup>E u</sup>	-
40.18.104	Child Development Center.....	855 <sup>WCEt</sup>	27 <sup>Ek</sup>	-
40.18.105	Renovation of Classroom/Laboratories/Administration Building....	-	2,413 <sup>CE u</sup>	-
This project equips the renovation of the classroom/laboratories/administration building, consisting of 3,555 ASF.				
40.18.108	Remodel to Create Classrooms.....	132 <sup>W u</sup>	1,985 <sup>C s</sup>	82 <sup>E v</sup>
This project provides for renovation of 9,958 ASF to achieve effective use of available facilities.				
40.18.109	Addition to Aviation/Arts building.....	-	283 <sup>WCE u</sup>	-
40.18.110	Building T Remodel/Addition .....	-	166 <sup>W u</sup>	3,042 <sup>C v</sup>
This project will provide 9,402 ASF of remodeling and additions to an existing building.				
40.18.111	Training Center, Phase I.....	-	151 <sup>W u</sup>	3,034 <sup>CE v</sup>
This project will provide 15,595 ASF for adult training center.				
40.18.112	Architectural Barrier Removal .....	-	-	226 <sup>WC v</sup>
This project will replace all door hardware which is inoperable by the physically handicapped.				
40.18.113	Fire Access Road.....	-	-	1,368 <sup>WC v</sup>
This project will provide 1,500 feet of emergency access road and fire break.				
<b>40.19 Grossmont-Cuyamaca Community College District</b>				
DISTRICTWIDE				
40.19.001	Architectural Barrier Removal .....	-	-	181 <sup>WC v</sup>
This project will abate the district's known architectural barriers to the physically handicapped.				

\* Dollars in thousands, excluding salary range.

## 6870 BOARD OF GOVERNORS OF THE CALIFORNIA COMMUNITY COLLEGES—Continued

STATE BUILDING PROGRAM EXPENDITURES		Actual 1988-89*	Estimated 1989-90*	Proposed 1990-91*
<b>CUYAMACA COLLEGE</b>

This project will provide 26,760 ASF for an instructional center.				
<b>40.28 Marin Community College District</b>				
<b>INDIAN VALLEY COLLEGE</b>				
40.28.101	Retrofit for Welding/Machine Shop .....	\$16 <sup>PWCEu</sup>	545 <sup>WCs</sup>	44 <sup>Ev</sup>
This project will remodel 7,793 ASF to relocate the welding/machine shop from the Marin campus. As a secondary effect, the vacated space will be remodeled to a dance studio.				
<b>MARIN COMMUNITY COLLEGE</b>				
40.28.201	Retrofit for Landscape Management .....	—	275 <sup>WCu</sup>	—
40.28.202	Remodel for Student Services .....	—	1,135 <sup>WCu</sup>	—
40.28.203	Retrofit for Disabled Programs .....	—	154 <sup>WCu</sup>	—
<b>40.29 Mendocino-Lake Community College District</b>				
<b>MENDOCINO COLLEGE</b>				
40.29.110	Child Care Facility .....	129 <sup>WCt</sup> 93 <sup>Eu</sup>	17 <sup>Eu</sup> —	— —
40.29.111	Outdoor Physical Education Facility .....	183 <sup>WCt</sup>	2,423 <sup>Cs</sup>	264 <sup>Ev</sup>
Construct outdoor physical education facility.				
40.29.112	Indoor Physical Education Facility, Phase I .....	1,180 <sup>Cu</sup>	2,533 <sup>CEu</sup>	—
40.29.114	Gymnasium .....	86 <sup>WCu</sup>	2,336 <sup>WCEu</sup>	—
Provides equipment for 15,300 ASF gymnasium activity area.				
40.29.116	Fine Arts Building .....	—	—	421 <sup>Wv</sup>
This project will provide working drawings for 23,426 ASF fine and performing arts facility on the new college campus.				
<b>40.30 Merced Community College District</b>				
<b>MERCED COLLEGE</b>				
40.30.101	Architectural Barrier Removal .....	—	—	137 <sup>WCv</sup>
This project will abate all known architectural barriers to the physically handicapped on the campus.				
<b>40.31 Mira Costa Community College District</b>				
<b>MIRA COSTA COLLEGE</b>				
40.31.101	Building L and E conversion .....	—	1,346 <sup>WCEu</sup>	—
<b>SAN DIEGUITO CENTER</b>				
40.31.204	Initial Complement of Library Books .....	268 <sup>Es</sup>	—	—
40.31.205	Permanent Building, Phase I .....	770 <sup>Es</sup>	—	—
<b>SAN ELIJO CENTER</b>				
40.31.206	Phase II, Buildings .....	—	—	2,235 <sup>CEv</sup>
This project will construct and equip a 10,510 ASF off-campus center.				
<b>40.33 Mt. San Antonio Community College District</b>				
<b>MT. SAN ANTONIO COLLEGE</b>				
40.33.101	Emergency Access .....	—	910 <sup>WCu</sup>	—
40.33.104	Child Care/Development Addition .....	—	31 <sup>Wu</sup>	776 <sup>CEv</sup>
This project will provide 2,392 ASF for infant-toddler addition.				
40.33.105	Student Services Center .....	—	—	426 <sup>Wv</sup>
This project will provide working drawings for 36,168 ASF for a student services facility.				
<b>40.34 Mt. San Jacinto Community College District</b>				
<b>MT. SAN JACINTO COLLEGE</b>				
40.34.101	Business/Technology Building .....	—	—	200 <sup>Wv</sup>
This project will provide working drawings for 13,907 ASF for lecture, teaching laboratories and staff offices.				
40.34.102	Dance Laboratory Conversion .....	—	—	352 <sup>WCEv</sup>
This project will convert the gymnasium mezzanine to a 2,630 ASF dance studio and elevator.				
<b>WEST CENTER</b>				
40.34.201	Off-Site Development .....	1,985 <sup>Cu</sup>	—	—
40.34.202	On-Site Development .....	990 <sup>Wu</sup>	1,327 <sup>WCu</sup>	—
40.34.203	Permanent Facilities, Phase I .....	320 <sup>Wu</sup>	5,014 <sup>Cs</sup>	1,447 <sup>Ev</sup>
Provides construction for the first 30,080 ASF building component of a new college facility.				

\* Dollars in thousands, excluding salary range.

## 6880 COUNCIL FOR PRIVATE POSTSECONDARY AND VOCATIONAL EDUCATION

Effective January 1, 1991, the Council for Private Postsecondary and Vocational Education is responsible for the oversight and approval of private colleges, universities and vocational educational institutions, and for developing state policies for private postsecondary education in California. The Council will review and approve all private degree granting and vocational institutions operating in California, and represent this sector of education in all state level planning and policy discussions about postsecondary and vocational education. The Council will also be responsible for the administration of veteran educational benefit programs and the Student Tuition Recovery Fund.

The Council for Private Postsecondary and Vocational Education is established, effective July 1, 1990, by Chapter 1307, Statutes of 1989 (SB 190), Education Code Section 94304. From July 1, 1990 until January 1, 1991, the Council will organize and elect a chairperson, identify its ongoing needs and resources, develop goals and policies, and take other steps needed to become fully operational. During this period, the Private Postsecondary Education Division in the State Department of Education will continue to remain responsible for oversight of private postsecondary institutions, administration of veteran educational benefit programs and the Student Tuition Recovery Fund. During this first six month period, the Council will have certain administrative support needs which will be provided through the Department of Education. On January 1, 1991, responsibility for the oversight and administration of private postsecondary institutions, as well as the State staff and funding resources, will transfer from the Department of Education to the Council.

SB 190, and companion legislation, Chapter 1239, Statutes of 1989 (AB 1402) and Chapter 1324, Statutes of 1989 (AB 1993), also established new minimum standards for private postsecondary institutions and allowed for an increase in the fees charged to private institutions for authorization, approval, and licensure.

## 10 OVERSIGHT AND APPROVAL

## Program Objectives Statement

The Oversight and Approval Program ensures that privately supported institutions conferring diplomas, degrees and certificates meet the standards established by the State of California. The Oversight and Approval Program reviews the institutions, issues approvals, and investigates complaints.

## Authority

U.S. Code, Title 38, Section 1774; Education Code, Division 10, Part 59, Chapter 3.

## 20 ADMINISTRATION

## Program Objectives Statement

The Administration Program, through the office of the Executive Director and the fifteen-member council, provides the leadership, policy direction and administrative services required to support the operations of the Council. Activities include administration, personnel, budget and business management services.

## Authority

U.S. Code, Title 38, Section 1774; Education Code, Division 10, Part 59, Chapter 3.

**7980 STUDENT AID COMMISSION**

The Student Aid Commission is composed of 15 members, 11 of whom are appointed by the Governor and confirmed by the Senate, 2 members appointed by the Senate Rules Committee and 2 members appointed by the Speaker of the Assembly. Terms are for four years except for two student members whose terms are for two years.

The primary purpose of the California Student Aid Commission is to insure the effective and efficient administration of federal and state authorized financial aid programs including grant, work study and loan programs for students attending California postsecondary educational institutions. The Commission has a responsibility to provide leadership on financial aid issues and make public policy recommendations concerning financial aid programs. To meet these responsibilities, the Commission compiles information on student financial aid issues, evaluates the effectiveness of its programs, conducts research assessing California's financial aid needs, engages in long-range planning as a foundation for program improvement, and disseminates information to parents, students and California educational institutions.

## 15 FINANCIAL AID GRANTS PROGRAM

## Program Objective Statement

This program provides grants, work-study aid, and other specialized financial aid programs to help undergraduate and graduate students pay educational expenses. Awards are coordinated with other available award sources including federal Pell Grants. Federal Incentive Grant funds are included in this program. The financial aid grant programs are described below.

1. Cal Grant A provides tuition and fee funding for financially and academically eligible students to attend the California college or University of their choice.

2. Cal Grant B provides funds to low-income disadvantaged students seeking a postsecondary education. The first year of the award provides subsistence funds only; in subsequent years the award also covers tuition and fees.

3. Cal Grant C provides funding for financially eligible students preparing for vocational or occupational careers.

4. The Graduate Fellowship Program assists financially needy graduate and professional students in fields where there are personnel shortages.

5. The Law Enforcement Personnel Dependents Scholarship Program provides college grants to needy, dependent children of law enforcement officers killed or permanently disabled in the line of duty.

6. The Student Opportunity and Access Program (Cal-SOAP), through intersegmental consortia, provides informational outreach and tutoring services to disadvantaged junior and senior high school students, to increase their access to postsecondary education, and to community college students, to assist them in matriculating to four-year institutions. Currently, there are six consortia in operation; Cal-SOAP is a pilot project which is slated to sunset June 30, 1994.

7. The Assumption Program of Loans for Education (APLE) allows the State to issue conditional warrants, which are redeemable after one year of teaching, to as many as 500 students annually. Through APLE, a student who teaches a total of three years can receive warrants to cover up to \$8,000 in student loans.

8. The Paul Douglas Teacher Scholarship Program provides scholarships to academically eligible college students pursuing careers in teaching. Students may receive up to \$5,000 a year for a maximum of four years.

9. The California Work Study Program assists students by placing them in employment settings which are related to their course of study or career interest, and which will enable them to pay for a portion of their educational costs. This is a pilot program which currently operates in 15 institutions. Employers must provide a portion of the students' salaries.

10. The Robert C. Byrd Honors Scholarship Program is designed to promote student excellence and achievement and to recognize exceptionally able students who show promise of continued academic excellence.

11. The Bilingual Teacher Grant Program is being phased out. Only 7 renewal awards are budgeted for 1990-91.

## Budget Adjustment

In 1990-91, the following budget adjustments are proposed:

• A \$867,000 one-time cost reduction for the implementation of the Financial Aid Processing System (FAPS), and a \$323,000 increase for FAPS full-year costs. In addition, \$99,000 and 1.9 personnel years were added for FAPS-related activities.

• A reduction of \$2,563,000 and 22.7 personnel years to reflect the shift of these General Fund costs to Program 50, California Loan Programs, Guaranteed Loan Reserve Fund, as a result of the implementation of FAPS.

• A \$46,000 reduction to reflect the elimination of the Bilingual Program administrative allowances.

• A \$2,155,000 increase for Cal Grants A and B to continue full-fee funding at the University of California and California State University, given the budgeted increase in mandatory systemwide fees at those institutions.

• A \$3,202,000 baseline increase in grants and scholarships, primarily to reflect the continuation costs of the additional Cal Grant B awards provided in 1989-90.

Table 1—Continued  
Cal Grant A  
Summary of New Grant Increases and Maximum Award Increases

Fiscal Year	Number			Amount			Family Income Limit
	New Grants	Increase	% Increase	Maximum <sup>3</sup>	\$ Increase	% Increase	
1987-88 .....	17,400	—	—	4,370	50	1	41,000 to 50,000
1988-89.....	17,400	—	—	4,710	340	8	44,000 to 53,000
1989-90.....	17,400	—	—	5,250	540	11	46,000 to 55,000
1990-91 .....	17,400	—	—	5,250	—	—	47,000 to 57,000

<sup>2</sup> Chapter 1270, Statutes of 1975 increased No. of Awards to 14,900 and maximum award from \$2,500 to \$2,700.

<sup>3</sup> Chapter 1215, Statutes of 1978 established a procedure for annual review of the maximum authorized award amount with consideration being given to available Federal-State Student Incentive Grant funds.

<sup>4</sup> Chapter 268, Statutes of 1984 increased No. of Awards to 16,400.

<sup>5</sup> Chapter 111, Statutes of 1985 increased No. of Awards to 17,400.

<sup>6</sup> 500 of these new grants were earmarked for community college students transferring to four year colleges.

<sup>8</sup> Projected by the Department of Finance from data provided by the Department of Education.

<sup>9</sup> Students who plan to study initially at a California community college or a two-year private school or college and transfer to a four-year institution may obtain a Community College Reserve grant through the Cal Grant A Program. Although the grant has no monetary value while the student remains at a two-year college, upon transfer, the reserve grant may be activated provided continuing financial need is confirmed and the recipient is making satisfactory progress toward his/her degree objective. The number of reserve grants which may be assigned annually is not limited by the Education Code. Applicants for new reserve grants are required to meet the same grade average requirements as stipulated for those enrolling initially in four-year institutions.

\* Dollars in thousands, excluding salary range.

## 50 CALIFORNIA LOAN PROGRAM

## Program Objectives Statement

This program assists students in meeting postsecondary educational expenses through low-cost, federally reinsured, educational loans which are made available to students through conventional lenders at no cost to the State. These guaranteed loans are an important supplement to other Federal, State, institutional and private sources of student financial assistance. Components of this program are: (a) the Guaranteed Loan Program which supervises collections on outstanding loans made prior to November 1967 and (b) the California Loan Program—which include the Stafford Student Loan, Supplemental Loans for Students (SLS), and Parent Loans for Undergraduate Students (PLUS) Programs (through which the State guarantees federally reinsured loans to parents and students). Finally, effective June 1, 1987, the Commission made the Loan Consolidation Program available for borrowers with outstanding student loan balances of \$5,000 or more, thereby providing an opportunity to, repay loan debts on a graduated ascending scale, over time periods ranging from 10 to 25 years, depending on the size of their total indebtedness.

## Budget Adjustment

In 1990-91, the following budget adjustments are proposed:

- A \$1,294,000 net reduction for various base adjustments related to the Financial Aid Processing System (FAPS), including one time cost reductions of \$2,438,000, full-year costs of \$1,724,000, and a shift from Program 15, Financial Aid Grants, General Fund, of \$2,563,000 and 22.7 personnel years. Additional reductions reflected in the net total are \$2,907,000 resulting from the termination of the loan servicing contract and \$236,000 for termination of the Interagency Agreement with the Franchise Tax Board.
- An increase of \$647,000 and 12.3 personnel years for activities related to FAPS.
- An increase of \$308,000 and 5.2 personnel years to strengthen the Audits and Investigations Unit.
- An increase of \$183,000 and 3.8 personnel years in the Institutional Services Unit to increase outreach and training for schools and lenders.
- A \$75,000,000 increase for the purchase of defaulted loans.

## 80 ADMINISTRATION AND SUPPORT SERVICES

## Program Objectives Statement

The primary responsibilities of Administration are: 1) to provide direction in the administration of the Commission's programs; 2) to provide leadership on financial aid issues and make public policy recommendations concerning financial aid programs; and 3) to coordinate and provide administrative services to all programs of the Commission.

## Budget Adjustment

In 1990-91, the following budget adjustments are proposed:

- An increase of \$199,000 and 4.6 personnel years for FAPS-related activities.
- An increase of \$40,000 and 0.9 personnel years to meet workload increases in the personnel office.
- An increase of \$46,000 and 0.9 personnel years in the legislative office to strengthen the Commission's ability to address federal legislative issues.

# General Government

## 8100 OFFICE OF CRIMINAL JUSTICE PLANNING

The goal of the Office of Criminal Justice Planning (OCJP) is to improve the criminal justice system in California by providing financial and technical assistance to local governments, State agencies and the private sector; education and training for the citizens of California; and technical and research support for the Administration and the Legislature. The services provided by OCJP include: 1) grant funding to local agencies and organizations; 2) technical assistance to ensure effective program management; 3) development of state-of-the-art approaches for justice systems, crime prevention and victim services programs; 4) dissemination of information on successful program models; 5) promotion of information exchange, including interdisciplinary approaches and mutual support among criminal justice agencies, public and private organizations; and 6) development of publications on crime prevention and victim services for statewide distribution.

**Authority**

Penal Code, Section 13800 et sequitur.

50	To expand the federal Anti-Drug Abuse Grant Award Program.....	-	21,741
50	To implement a State Gang Drug Trafficking/Violence Information System.....	-	1,058

**20 ADMINISTRATION****Program Objectives Statement**

The Administration Program provides the leadership, policy direction and administrative and technical services required to support the operations of OCJP. Activities performed include: (1) planning, coordinating and managing OCJP's programs; and (2) providing administrative services necessary for the efficient operation of OCJP, including personnel, budgeting, accounting, legislative affairs, legal counsel, public information, business services and data processing.

**Budget Adjustments**

The following budget adjustments are proposed in 1990-91:

- An increase of \$26,000 and 0.5 personnel years for increased workload in the Budget Branch.
- 0.9 personnel years and \$53,000 to provide support to the Comprehensive Alcohol & Drug Prevention Education Program.

## 8100 OFFICE OF CRIMINAL JUSTICE PLANNING—Continued

## 50 LOCAL PROJECT AWARDS

## Program Objectives Statement

This program provides federal and State funds to public and private agencies for criminal and juvenile justice projects within the following areas: services to victims, prevention of crime, juvenile justice, criminal prosecution, training and special projects.

## Budget Adjustments

The 1990-91 budget proposes:

- \$10,000,000 to expand the Comprehensive Alcohol and Drug Prevention Education Program, within the Suppression of Drug Abuse in Schools Program, to additional public school grade levels 7 and 8.
- A one-time support appropriation of \$60,000 to develop a medical protocol training curriculum.
- A one-time local assistance appropriation of \$100,000 to provide legal training concerning the investigation and prosecution of hazardous materials violations, asset forfeiture and wiretap cases for public prosecutors (\$63,000); and to provide legal training concerning advanced and emergent issues for public defenders (\$37,000).
- \$41,000 and 0.9 personnel years for increased Audits Division workload.
- \$42,000 and 0.9 personnel years to provide support for the Public Safety and Victim Services Divisions.
- \$300,000 to maintain service levels for the Victim-Witness Assistance (\$219,000) and the Sexual Assault Victim Services (\$81,000) Programs.
- \$138,000 and 1.8 personnel years to meet increased grant management workload in the Victim-Witness Assistance and the Sexual Assault Victim Services Programs.
- 0.9 personnel years and \$2,750,000 to implement the Campaign Against Marijuana Planting (CAMP) Program.
- Establishment of 1.3 personnel years through redirection from consultant services to administer the Child Exploitation Intervention and Career Criminal Apprehension Programs.
- \$1,058,000 to develop the State Gang Drug Trafficking/Violence Information System. This proposed expenditure reflects the Administration's commitment to proceed with the implementation of the project. These expenditures are currently proposed as a "special item of expense" subject to finalization and approval of the feasibility study report, details of which will be reflected as a Spring Finance Letter proposal.
- \$21,741,000 to expand the federal Anti-drug Abuse Grant Program in anticipation of the receipt of additional federal funds pursuant to the federal Drug Control and System Improvement Grant Program from federal fiscal year 1990 (state agency allocation) and federal fiscal year 1991 (local agency allocation). It is also anticipated that additional local agency awards will be made in 1989-90 from the local agency allocation of the federal fiscal year 1990 Anti-drug Abuse grant; the expenditure authority for these monies will be addressed through the Section 28.00 notification process as soon as details are finalized by OCJP.

## 50.11 State Administration

## Program Element Statement

The Administration element includes activities to manage the various criminal justice grant programs in California. These services include program monitoring, technical assistance, training, evaluation, grants administration, auditing and conference planning and coordination.

Input	88-89	89-90	90-91	1988-89*	1989-90*	1990-91*

## 50.21 Services to Victims

## Program Element Statement

The Services to Victims element is directed toward establishing a comprehensive local effort to provide assistance to crime victims. This element focuses on the provision of services to sexual assault, child sexual abuse, domestic violence and all other types of victims and witnesses. Both public and private non-profit agencies are involved in this coordinated community effort to provide assistance to victims of crime.

\* Dollars in thousands, excluding salary range.

## 50.31 Prevention of Crime

## Program Element Statement

The Prevention of Crime element focuses on citizen, community, governmental and law enforcement partnerships. It is comprehensive by nature and is woven into other OCJP programs. The components are diversified and include areas such as youth crime prevention, violence and victimization prevention, neighborhood watch, business and high technology crime prevention, and rural crime prevention.

Input	1988-89*	1989-90*	1990-91*

50.31.060 Family Violence Prevention .....	202	202	202

## 50.41 Juvenile Justice

## Program Element Statement

The Juvenile Justice element focuses on programs serving juveniles statewide. These programs include delinquency prevention, drug abuse education and prevention, prosecution and the prevention of gang violence, and programs providing services to runaway and homeless youth. All of the programs provide grants to local public and private agencies. The Comprehensive Alcohol and Drug Prevention Education Program, which was established in 1989 to supplement the Suppression of Drug Abuse in Schools Program, brings together school districts, law enforcement and other concerned agencies to provide comprehensive alcohol and drug prevention education as well as early intervention and suppression services. Currently this \$20 million program targets public school 4th through 6th graders and their parents; a \$10 million increase is proposed in 1990-91 to expand this program to 7th and 8th graders.

Input	1988-89*	1989-90*	1990-91*
Expenditures (Local Assistance) .....	\$12,667	\$32,569	\$42,569

50.41.045 Homeless Youth Pilot Project .....	924	920	920

## 50.51 Criminal Prosecution

## Program Element Statement

The Criminal Prosecution element provides district attorneys with the necessary tools to successfully prosecute those offenders and career criminals who are responsible for up to 75% of criminal activity. This element implements the key concept of vertical prosecution which assures case handling from filing to sentencing by a single, experienced prosecutor.

Input	1988-89	1989-90	1990-91
Expenditures (Local Assistance) (General Fund) .....	\$8,262	\$8,262	\$8,262

\* Dollars in thousands, excluding salary range.

## 8100 OFFICE OF CRIMINAL JUSTICE PLANNING—Continued

## 50.61 Training

## Program Element Statement

The Training element includes programs to improve the skills and knowledge of those involved in the criminal justice system. The Public Prosecutor and Public Defender Legal Training Program provides statewide programs of education, training, and research for local prosecutors and public defenders. The Child Sexual Abuse Prevention and Training Program provides training and technical assistance to multi-disciplinary teams, including law enforcement, social services, mental health, and medical, in every California county.

30	Local Assistance Augmentation .....	—	3,000

## 10 STANDARDS

## Program Objectives Statement

The standards program establishes job-related selection standards for peace officers which are enforced through compliance procedures. It also provides management consultation to local agencies and issues professional certificates to qualifying officers. Activities include development of examinations, counseling local law enforcement agencies on ways to improve management practices and inspection of local agencies receiving State aid to assure they are adhering to minimum State standards for selection and training of peace officers.

Applied research is conducted in the areas of peace officer selection and training, operational procedures and program evaluation in order to meet statutory requirements and to provide management guidance to local law enforcement agencies. The program also provides local agencies with information and technical expertise in the development and installation of new programs.

## Budget Adjustments

For 1990-91, the budget proposes an increase of \$54,000 and 0.9 personnel years to handle additional workload in the Management Counseling Services Bureau.

## Authority

Penal Code Sections 13503, 13512 and 13513.

## 20 TRAINING

## Program Objectives Statement

POST's training program increases the effectiveness of law enforcement personnel by developing and certifying courses that meet identified training needs, by providing scheduling and quality control of such courses, and by assisting law enforcement agencies in providing necessary training and career development programs. POST assesses training on a continuing basis to assure that emerging needs are met. Courses are offered through local community colleges, four-year colleges, universities, police academies, private trainers and training centers. The curricula cover a wide variety of technical and special courses necessary for effectiveness in police work and address the training needs of recruit, officer, advanced officer, supervisor, manager and executive-level law enforcement personnel. Curricula content is updated regularly.

The Commission establishes the basic criteria that must be met by each course in order to obtain POST's certification. Assistance is given to applicable educators and police trainers in preparing and implementing courses and training plans. Periodic field inspections ensure that training instructors and coordinators are adhering to established course outlines and are meeting all instruction standards. Failure to meet these standards may cause revocation of course certification.

## Budget Adjustments

For 1990-91, the following budget adjustments are proposed:

- An increase of 0.5 personnel years funded through the redirection of existing resources to increase a half-time position to full time to assist with additional workload in the Center for Leadership Development.
- An increase of \$69,000 and 0.9 personnel years (limited term to 6-30-92) to establish the POST Instructor Development Program.
- An increase of \$71,000 and 1 personnel year (limited term to 6-30-91) to establish a video training distribution program.

## Authority

Section 13503, Penal Code.

## 30 PEACE OFFICER TRAINING REIMBURSEMENT

## Program Objective Statement

The enforcement of laws and the protection of life and property without infringement on individual liberties is one of modern government's most pressing problems. Carefully selected, highly trained and properly motivated peace officers are important factors in the solution of this problem. To encourage and assist local law enforcement agencies to meet and maintain minimum standards in the selection and training of law enforcement officers, financial assistance is provided to all 58 counties, approximately 346 cities, numerous specialized districts and local agencies which have agreed to meet POST's standards. Each jurisdiction participating in the program is reimbursed from the Peace Officers' Training Fund in proportion to the number of officers who participate in reimbursable training.

## Budget Adjustments

For 1990-91, the budget proposes an increase of \$3,000,000 to increase reimbursements to local law enforcement agencies.

## Authority

## 50 PEACE OFFICERS' MEMORIAL

## Program Objectives Statement

Chapter 1518, Statutes of 1985 created, until January 1, 1989, the Peace Officers' Memorial Commission. Subsequently, Chapter 1099, Statutes of 1988 extended the Commission to January 1, 1990. The purpose of the five member Commission is to coordinate the design and construction of a memorial to California peace officers located on the grounds of the State Capitol, and to solicit private contributions for this purpose.

## Authority

Penal Code Sections 15000 to 15004.

## 8140 STATE PUBLIC DEFENDER

## Program Objectives Statement

The Office of the State Public Defender was established in July 1976 by Chapter 1125, Statutes of 1975, to represent those entitled to representation at public expense. The State Public Defender has offices in Sacramento, San Francisco and Los Angeles to provide a statewide capability to represent indigents in the State appellate courts.

The State Public Defender, in conjunction with court appointed legal counsel, represents persons who are financially unable to employ counsel in the following matters:

- (a) An appeal, petition for hearing or rehearing to an appellate court or petition for certiorari to the United States Supreme Court or a petition for executive clemency from a judgment relating to criminal or juvenile court proceedings;
- (b) Petitions for an extraordinary writ or action for relief relating to a final judgment of conviction or wardship;
- (c) Proceedings after a judgment of death;
- (d) Proceedings in which an inmate of a State prison is charged with an offense where the county public defender has declined to represent the inmate;
- (e) Any proceeding where a person is entitled to representation at public expense.

In addition, the Legislature has designated the State Public Defender to represent indigents at hearings to extend their commitments as persons found not guilty by reasons of insanity.

The enabling legislation specifically provides that the State Public Defender: (1) may employ such deputies and other employees and establish and operate such offices as deemed necessary for the proper performance of the office, (2) may contract with county public defenders, private attorneys and nonprofit corporations, (3) may enter into reciprocal or mutual assistance agreements with the board of supervisors of one or more counties to provide for exchange of personnel, and (4) shall formulate plans for representation of indigents in the Supreme Court and in each appellate district. The office focuses its resources on the most complex and sensitive cases.

## MAJOR BUDGET ADJUSTMENTS

The 1990-91 budget proposes an increase of \$1,187,000 and 14.3 personnel years to handle an increasing capital punishment caseload.

## SUMMARY OF PROGRAM REQUIREMENTS

8160 ASSISTANCE TO COUNTIES FOR DEFENSE OF INDIGENTS

Program Objectives Statement

Section 987.9 of the Penal Code provides that in the trial of a capital case, or a case where the defendant is charged with murder in the second degree and has served a prior prison term for murder, the defendant through his or her attorney may request the court for funds to pay for investigators, experts and others to assist in the preparation or presentation of the defense. The attorney must file an affidavit with the court seeking funds and specifying that the funds are reasonably necessary for the preparation or presentation of the defense. When the affidavit is received, a judge other than the trial court judge must rule on its reasonableness at an *in camera* hearing. If the judge finds that the requested funds are necessary for the presentation of a full and complete defense, an appropriate amount of money is disbursed by the county to the defendant's attorney. The attorney is required to furnish the court with a complete accounting of all monies received and disbursed at the end of the proceeding.

An augmentation in the amount of \$6,000,000 is proposed for 1989-90 to pay current claims and claims carried forward from the prior year. The proposed subvention for 1990-91 of \$13,000,000 represents the estimated necessary State contribution for assisting counties with their defense of indigents costs.

8180 PAYMENT TO COUNTIES FOR COSTS OF HOMICIDE TRIALS

It is State policy that justice be administered uniformly throughout California and that the cost of homicide trials should not unduly impact local government finances. Government Code Sections 15200 through 15204 implement this policy by allowing a county to apply to the Controller for reimbursement of specified costs of homicide trials and hearings.

A county with a population of 150,000 or less at the time of the 1980 decennial census may apply to the Controller for reimbursement of 90 percent of specified costs, which exceed a property tax based threshold, incurred by the county for the first homicide trial or hearing held within a fiscal year. If that proceeding is the only trial or hearing to be reimbursed within a fiscal year, and it overlaps into the next fiscal year, the county is not required to expend funds to meet the threshold in that subsequent fiscal year. If a county with a population of 150,000 or less has more than one trial or hearing, the county may apply for reimbursement using one of two formulas. The first formula reimburses 90 percent of specified costs of the first proceeding, and 85 percent of those costs incurred thereafter which exceed the property tax based threshold. The second formula reimburses 90 percent of specified costs of each proceeding which exceed the property tax based threshold. Effective January 1, 1989, Chapter 987, Statutes of 1988, authorizes the Department of Finance to waive the matching fund requirement for these small counties. To apply for this waiver, the county board of supervisors must adopt a resolution making the request and setting forth findings about the county's financial condition which serve as the basis for the request. A county with a population of 300,000 or less at the time of the 1980 decennial census may apply to the Controller for reimbursement using the 90 percent formula. Those counties with a population exceeding 300,000 at the time of the 1980 decennial census may apply for reimbursement of 80 percent of specified costs which exceed a property tax based threshold up to a second threshold. Costs which exceed this second threshold may be fully reimbursed. These formulas will remain in effect until January 1, 1991, unless they are amended before that date. An augmentation in the amount of \$2,300,000 is proposed for 1989-90 to pay current claims and claims carried forward from the prior year.

For the list of standard (lettered) footnotes, see the end of the Governor's Budget.  
\* Dollars in thousands, excluding salary range.

## 8190 ADMINISTRATION AND PAYMENT OF TORT LIABILITY CLAIMS

**Program Objectives Statement**

Chapter 1681, Statutes of 1963, established the liability and nonliability of the State for tort actions of its officers and employees. In the past, the State assumed liability for all losses up to \$5 million and purchased insurance covering losses from \$5 million to \$50 million. The State's general insurance policy was discontinued in 1977-78 based on a cost/benefit study made by the Department of Finance. A small number of agencies with unique liability problems are covered under special insurance policies. The amounts of settlements and awards vary, sometimes significantly, from year to year depending upon the cases in litigation and the amounts estimated to be awarded in each instance.

Government Code Section 948 provides that the head of any State agency, upon recommendation of the Attorney General, may settle, adjust or compromise any pending action with approval of the Director of Finance. Current administrative policy delegates Finance's approval authority to the Attorney General for actions not exceeding \$35,000. General Fund and special fund claims with principal amounts of up to \$70,000, approved by the Director of Finance, may be paid from the appropriation in the Budget Act. Claims that exceed \$70,000 in principal amount must be paid through special appropriation legislation. It is the policy of the Administration that to the extent possible affected agencies or departments are to make payment of claims from within existing budgeted resources before seeking payment from this Budget Act item.

In order to provide a comprehensive statement of statewide costs for the tort program, the format below includes a statewide display of tort-related expenditures. Special fund program expenditures are reflected in the department or agency budgets in which the costs are incurred unless paid through special appropriation legislation.

## 8200 COMMISSION FOR ECONOMIC DEVELOPMENT

## Program Objectives Statement

The Commission was created by Chapter 1230, Statutes of 1971, as amended by Chapter 168, Statutes of 1977. This law, which went into effect March 4, 1972, provides that the Commission shall consist of 17 members: the Lieutenant Governor as Chairman, ten public members appointed by the Governor (only six of whom may be of the same political party), three Senators appointed by the Senate Rules Committee, and three Members of the Assembly appointed by the Speaker.

The enabling legislation specifically provides that the Commission shall: (1) make recommendations concerning legislation affecting the economic development of the State, (2) consider programs to further the economic development of the State, study laws and programs of other states relating to economic development and confer with governmental officials and representatives of business and industry and any other persons or organizations interested in the promotion of economic development, (3) appoint advisory committees.

## 8260 CALIFORNIA ARTS COUNCIL

The California Arts Council was established by Chapter 1192, Statutes of 1975. Major statutory mandates to this agency are:

- (1) To encourage artistic awareness, participation, and expression among the citizens of California.
- (2) To help independent local groups develop their own arts programs.
- (3) To promote the employment of artists and those skilled in crafts in both the public and private sector.
- (4) To provide for the exhibition of art works in public buildings throughout California.
- (5) To enlist the aid of all state agencies in the task of ensuring the fullest expression of our artistic potential.

The Council consists of eleven members, nine appointed by the Governor and one each by the President Pro-tem of the Senate and the Speaker of the Assembly. The Council establishes general policy and approves program allocations. Panels of experts independent of the Council advise the Council in each grant program.

The Council stresses the development of community-based cultural activities in rural areas as well as in major metropolitan cultural centers. Almost all Arts Council grants programs require that the grantee provide at a minimum a match equal to the amount of the grant.

## SUMMARY OF PROGRAM REQUIREMENTS

## MAJOR BUDGET ADJUSTMENTS

The 1990-91 budget proposes an augmentation of \$3.2 million to increase grants by \$3 million and administrative costs by \$200,000. It is the Administration's intent that the \$3 million augmentation be granted to the various programs to generate an overall minimum match of two private dollars to every State dollar provided resulting in a total of \$9 million in additional funding to the arts.

## 10 ARTISTS IN RESIDENCE

## Program Objectives Statement

The Artists in Residence Program brings performing, literary, media and visual arts experiences to schools, special constituents and community organizations for persons who would not otherwise be exposed to or participate actively in the arts, and expands the use of the arts as a tool for learning and problem solving.

In addition, this program encourages institutions, schools, and organizations to provide facilities and resources necessary for cultural activities, and helps provide artists with opportunities to serve the public. The Arts Council provides information, consultation, and expertise to foster the development of such cultural activities. The Traditional Folk Arts Program identifies, documents, presents, honors and encourages California's traditional folk arts and artists.

## Budget Adjustments

The 1990-91 budget proposes the following adjustments:

- Increase local assistance and support for Full-Term Residencies by \$314,000.
- Increase local assistance and support for Traditional Folk Arts by \$84,000.
- Increase local assistance and support for Artists Fellowships by \$144,000.

10.10 Full-Term Residence Program<sup>1</sup>

## Program Element Statement

This program helps place professional artists in elementary and secondary schools, neighborhood centers, municipal agencies, treatment and special learning centers, correctional facilities, homes for children and frail elderly, art and cultural centers and other eligible non-profit organizations. Artists promote active public participation in the creative process through classes, workshops, demonstrations, performances and exhibitions. Program objectives are: a) to serve the broad and diverse communities of the state; b) to develop the artistic abilities and creativity of the participants; c) to promote the use of the arts as a tool for learning and problem solving; d) to use existing arts resources; and e) to expand professional artists' participation in society. (This program is supported in part by funds from the Arts in Education Program of the National Endowment for the Arts.)

<sup>1</sup> The Artists Fellowships program element formerly shown in this element is now transferred to a separate program element 10.70. For expenditures in 1990-91, refer to that element.

## 10.60 Traditional Folk Arts

## Program Element Statement

This program provides technical assistance and services to individual artists, institutions and organizations; conducts an on-going statewide survey of traditional folk arts and artists; and administers folk arts apprenticeship and project grants to perpetuate folk artistic traditions. The objectives of this program are: a) to create increased opportunities for traditional folk artists by identifying interested organizations and providing folk arts expertise; b) to increase public understanding of these traditions through publications, meetings and news releases; and c) to support the cultural, stylistic and artistic diversity of folk traditions. This support is achieved, in part, by providing assistance to all other CAC programs for the development of folk arts policies, procedures and projects.

## 20 ORGANIZATIONAL SUPPORT GRANTS

## Program Objectives Statement

In providing grants to organizations, the California Arts Council helps non-profit arts organizations improve their artistic offering, strengthen their internal management, employ professional staff, and extend their arts programs and performances to a broader audience. Grant guidelines are established by the Council and each application is initially screened for guideline compliance to assure that the state's program objectives are met. Applications which meet all technical requirements are reviewed by volunteer panels of professionals in the arts who rate the proposals' relative merits and recommend grant awards to the Council for final confirmation. All grant awards in this program require a dollar-for-dollar cash match.

## Budget Adjustments

The 1990-91 budget proposes the following adjustments:

- Increase local assistance and support for Small and Mid-Sized organizations by \$1,056,000.
- Increase local assistance and support for Large Budget Organizations by \$114,000.
- Increase local assistance and support for Multi-Cultural Arts Development by \$164,000.

20.70 Multi-Cultural Arts Development....	1.7	1.5	1.5	794	879	1,051

## 20.10 Small and Mid-Size Organizations

## Program Element Statement

The Small and Mid-Size Organizations Element supports the diverse needs of small and medium size arts organizations and other nonprofit entities which utilize the arts by providing grants to strengthen their administrative and artistic capabilities.

Proposals in this category must demonstrate service to the community. Organizations which the Council has assisted under this program include theater companies, public museums and galleries, arts components of public colleges and universities, and governmental entities, community arts organizations, small presses, musical companies, dance companies, local and regional arts councils, neighborhood arts organizations, film/video organizations, public radio and television stations, and arts service organizations.

Program objectives are: a) to assist local organizations in the development of administrative skills; b) to expand the number and quality of artistic performances; c) to assist organizations in increasing audiences; d) to provide employment opportunities for artistic personnel; e) to assist organizations in creating new or otherwise significant works of art; and f) to support instructional programs run by local arts organizations.

## 20.40 Large Budget Organizations

## Program Element Statement

The Large Budget Organizations Element supports organizations whose annual budgets are at least one million dollars and who enjoy national and international reputations for artistic excellence. California Arts Council provides funds for general operating support and to assist these arts institutions to maintain and expand their outreach programs. This program brings organizations into direct contact with special or new audiences through such activities as: discount tickets to senior citizens, the disabled, low-income or ethnic minority citizens; free performances in schools, social institutions and community agencies; exhibitions or productions of work by new creative talent; training workshops and opportunities for multi-cultural artists and administrators.

## 20.70 Multi-Cultural Arts Development

## Program Element Statement

The California Arts Council intends to increase the participation of previously underserved ethnic minority populations. Two pilot programs have been implemented. The Multi-Cultural Advancement Grant will provide major grants each year for the next two years to eight to ten organizations. The major goal is the stabilization of multi-cultural arts organizations moving them closer to institutional status. The second program, the Multi-Cultural Entry Grants, will provide small grants up to three consecutive years to multi-cultural groups currently not eligible to participate in the Organizational Support Program category. A technical assistance component will provide these groups with management and artistic development assistance.

## 8260 CALIFORNIA ARTS COUNCIL—Continued

## 25 PERFORMING ARTS TOURING/PRESENTING PROGRAM

## Program Objectives Statement

The California Arts Council subsidizes up to 50% of selected artist's fees paid by non-profit organizations which provide public performances and programs in communities, schools, senior citizen centers, fairs and festivals, colleges and universities. The Council assesses the ability of performing groups and their potential sponsors who participate in the program, promotes the touring program statewide to facilitate contact between potential community sponsors and the touring roster; provides assistance to presenting organizations and artists in the areas of booking contracts, promotion, marketing, publicity, producing and planning arts engagements; maintains a calendar of events, a published directory of touring artists and sponsors; conducts on-site evaluations of performing engagements; reviews and approves artist-sponsor contracts and performances.

The Touring Program reimburses presenters of the selected artists to encourage public performances and programs throughout the state's large and small communities, which would not ordinarily take place. Additionally, the Touring Program assists touring artists and arts sponsors to develop earned income more effectively through service workshops in booking, production, audience development, group sales, fundraising, graphics and image development and budget planning.

## Budget Adjustments

The 1990-91 budget proposes the following adjustment:

- Increase local assistance and support for Touring Roster Support by \$202,000.

Program Requirements	88-89	89-90	90-91	1988-89*	1989-90*	1990-91*

25.30 Dance Touring Initiative .....	1.1	1.0	1.0	119	161	161

## 25.10 Touring Roster Support

## Program Element Statement

To develop new statewide audiences, the Arts Council produces an annual roster of California Touring Artists. It lists soloists, chamber ensembles, and companies in a variety of disciplines (dance, music, theater, etc.) presented in traditional contemporary, experimental, ethnic, and folk styles. Through awards of artists' fee subsidies, the Touring Presenting Program reimburses presenters for part of the artists' performance and residency fees. In 1990-91 it is anticipated that Touring Roster support will provide subsidies for some 884 services by 111 artists and companies in communities throughout the State.

## 25.30 Dance Touring Initiative

## Program Element Statement

The Dance Touring Initiative, funded jointly by the National Endowment for the Arts and the California Arts Council, will allow major dance companies to tour California in 1990-91. This type of initiative will provide Californians the otherwise unavailable opportunities of experiencing America's most prominent dance companies.

## 8260 CALIFORNIA ARTS COUNCIL—Continued

## 40 STATEWIDE PROJECTS

## Program Objectives and Description

The objective of the California Arts Council's statewide projects is to encourage and enhance communication among artists and between artists and arts organizations, governmental agencies, and the general public. Statewide organizations receive support to provide services to cultural institutions, individual artists, and the general public.

The California Arts Council works with federal, State, and local agencies to provide information, resources, and technical and support services for community arts organizations, to provide employment for artists, and to expand public participation in cultural programs.

## Budget Adjustments

The 1990-91 budget proposes the following adjustments:

- Increase local assistance and support for State/Local Partnerships by \$83,000.
- Increase local assistance and support for art in public buildings by \$31,000.

Program Requirements	88-89	89-90	90-91	1988-89*	1989-90*	1990-91*

## 40.40 State/Local Partnership

## Program Element Statement

The State-Local Partnership Program element is designed to promote local cultural planning and programming and to reach previously underserved areas of the State of California with arts funding. Program objectives are: 1) Provide for the growth and development of those Local Partners that have been designated by local governments to participate in the State-Local Partnership Program; 2) Increase local private and public funding for the arts; and 3) Increase cultural participation among underserved populations in the state.

## 40.70 Art in Public Buildings

## Program Element Statement

The California Arts Council is mandated to provide for the exhibition of Art in Public Buildings throughout California.

The program increases public access to art and provides opportunities to artists to create public work. In an annual competition, the California Arts Council seeks the best artists available to work with state architects on planning and design projects and architecturally integrated artwork for building projects. This Program emphasizes site-specific designs and does not usually purchase existing work.

Through this program, commissioned art plans, designs and art works improve the working environments of state agencies for both the public and employees. More than 87 artists have been commissioned since 1976, and the program has resulted in a state collection of more than 86 public art works in a wide variety of media, as well as art plans and design enhancements to state building projects.

\* Dollars in thousands, excluding salary range.

## 45 CALIFORNIA CHALLENGE PROGRAM

## Program Objectives Statement

The California Challenge Program is designed to expand private sector support for the arts and to support specific artistic projects which extend the range of arts available to the people of California. The program objectives are: a) to provide for increased artistic activities throughout the state; b) to utilize the panel review system to identify organizations to receive private funds; and c) to utilize arts organizations' resources to raise the private sector match. The program encourages increased private funds to support arts programs and projects through higher matching grants.

## Budget Adjustments

The 1990-91 budget proposes the following adjustments:

- Increase local assistance and support to Mid-Range Budget Organizations by \$254,000.
- Increase local assistance and support to Large Budget Organizations by \$754,000.

## Program Requirements

45.20 Large Budget Organizations .....	0.2	0.6	0.6	488	502	1,257

## 45.10 Mid-Range Budget Organizations

## Program Element Statement

This program provides grants to organizations whose budgets ranged from \$200,000 to \$1 million in the last completed budget year. Matching funds must come from new and/or increased private contributed sources at a ratio of two private dollars to one state dollar. For a state-local partner, matching funds must come from new and/or increased private contributed sources and/or new and increased local public funding at a ratio of one local public dollar to one private dollar to one state dollar. Awards will range from \$15,000 to \$25,000. This program is designed to generate \$1,430,000 in additional non-State support for the arts.

## 45.20 Large Budget Organizations

## Program Element Statement

This program supports specific artistic and innovative projects for organizations whose budgets are over \$1 million in the last completed budget year. Matching funds must come from new and/or increased private contributed sources at a ratio of three private dollars to one state dollar. Awards will generally range from \$20,000 to \$75,000. This program is designed to generate \$3,645,000 in non-State support for the arts.

## 50 ADMINISTRATION

## Program Objectives Statement

The Arts Council administers its programs by providing support services in the following areas: grants management, contract and fiscal control, evaluation, personnel services, program planning and federal funds use allocation. This division is divided into two primary areas: 1) Administration—The Administration section is primarily responsible for Accounting, Budgeting, Data Processing, Contracts, Office Administration, Personnel and Program Analysis; 2) Information Services—The Information section provides information services to the general public as well as the arts community and the press. This unit publishes quantity newsletters, council's Guide to Programs, the annual report and Touring Guide Directory, brochures, announcements, and application forms for all Arts Council programs.

## 8280 NATIVE AMERICAN HERITAGE COMMISSION

## Program Objectives Statement

The Legislature created the Native American Heritage Commission in 1976 to preserve and protect California Native American cultures. The Commission's powers and duties include: identifying and cataloging geographic sites of importance to Native Americans; helping Native Americans to obtain access to these sites when necessary; protecting Native American burials and sacred sites; and ensuring that remains are treated appropriately when burials are discovered. The Commission is empowered to make recommendations to the Legislature and to other public agencies, request their services, receive grants and donations, and bring legal action when necessary to accomplish these objectives.

## 8300 AGRICULTURAL LABOR RELATIONS BOARD

The Agricultural Labor Relations Board (ALRB), which was created by the Agricultural Labor Relations Act of 1975 (Chapter 1), is responsible for conducting secret ballot elections to determine collective bargaining representation in agriculture and for investigating and resolving unfair labor practice disputes. The ALRB is patterned after the National Labor Relations Board and is divided into two major programs: (1) Board Administration of the Agricultural Labor Relations Act and (2) General Counsel Administration of the Agricultural Labor Relations Act.

The workload of the Agricultural Labor Relations Board is dependent upon the number of election petitions and unfair labor practice charges filed, the number of elections objected to, the ability of the Agency to settle unfair labor practice charges and complaints, the number of hearings, the number of appeals to the Board from those hearings and the number of appeals to the courts from Board decisions.

## Authority

Labor Code, Sections 1140 to 1166.3.

## 10 BOARD ADMINISTRATION

## Program Objectives Statement

Board Administration consists of a five-member Board. The Board establishes policies and procedures for all activities related to the conduct of elections, the investigation and resolution of unfair labor practices and the conduct of hearings on elections and unfair labor practices. It also conducts and/or reviews these hearings on elections, determines whether the results of such elections should be certified and adjudicates complaints issued in unfair labor practices.

For the list of standard (lettered) footnotes, see the end of the Governor's Budget.

\* Dollars in thousands, excluding salary range.

10.40 Litigation .....	3.3	3.7	3.6	250	307	311

## 10.10 Representation Cases

## Program Element Statement

Hearings may be conducted by the Board to determine whether particular union representation elections are to be certified; these hearings must be held in all cases where conduct which might warrant setting aside the election is shown in declarations. The Board rules on the statements of objections and whether or not the facts of the case warrant setting aside the election. In order to refine the process so that certification is not unduly delayed, the Executive Secretary's office screens all objections to assure that hearings are limited to only those points and issues which are pertinent to the case and which have not previously been held to be non-objectionable. The Board acts as an appellate body to which any of the parties involved may appeal the decision of a hearing officer and the Board must consider all appeals. Hearings are also held to consider challenged ballot issues, unit clarification issues and access issues, which are appealed to the Board through the same process.

## 10.20 Unfair Labor Practices

## Program Element Statement

The Agricultural Labor Relations Act defines unfair labor practices and authorizes the Board, if the preponderance of the evidence taken warrants such a decision, to issue orders to prevent or remedy such practices. Hearings on unfair labor practices are conducted before an administrative law judge according to the rules of evidence. Parties are represented by counsel, and a transcript is made of the proceedings. The administrative law judge writes a decision; if any party files exceptions, the decision is reviewed by the Board. While an unfair labor practice case is pending, the Board has the authority to petition the courts for appropriate temporary relief or restraining orders.

General Fund .....	1,534	1,669	1,698
Reimbursement .....	10	-	-

## 10.30 Policies, Procedures and Motions

## Program Element Statement

Board Administration is responsible for the overall policy direction of the agency, and the establishment of procedures to implement that policy. This involves the development and promulgation of regulations required to implement, interpret and make specific the provisions of the Agricultural Labor Relations Act. This process involves the formulation of regulations, the solicitation and analysis of public comments, the holding of public hearings and meetings, and the final adoption of regulations. Further, policy and procedure development is required internally to deal with any legal and practical problems in the administration of the Agricultural Labor Relations Act.

Ongoing administration of the Board's caseload requires the disposition of numerous and varied procedural and substantive motions. Executive Secretary staff reviews motions to extend certification and deny access, as well as continuance and extension motions, and other miscellaneous motions related to the conduct of hearings or the progress of cases before the Board.

## Performance Measures

Output consists of the rules and regulations, internal policy decisions and rulings on motions.

## 8300 AGRICULTURAL LABOR RELATIONS BOARD—Continued

## 10.40 Litigation

## Program Element Statement

ALRB court litigation falls into two categories:

## 1. Review and Enforcement of Final ALRB Decisions.

Section 1160.8 of the act provides for judicial review of Board orders in unfair labor practice decisions. In those cases where a respondent seeks judicial review in the appropriate court of appeals, attorneys appear on behalf of the Board and defend its decisions. If the respondent has not filed a petition for review but refuses to comply with the Board's order, the Board will seek enforcement of its order in the appropriate superior court.

## 2. Suits Against the Board.

This litigation involves suits against the Board by employers and labor organizations seeking to enjoin the Board from conducting elections, counting ballots, proceeding with unfair labor practice trials or challenging Board regulations, policies or procedures. These suits are in the nature of petitions for declaratory and injunctive relief, writs of mandate, and writs of prohibition. They usually necessitate the Board appearing on a few hours' notice to defend against the issuance of a temporary restraining order and then, perhaps a week later, appearing in a hearing on an order to show cause. These suits have also resulted in appellate litigation where it has been necessary to seek extraordinary appellate review in the appropriate Court of Appeal or the California Supreme Court in order to stay the effect of an adverse ruling in a superior court.

## 20 GENERAL COUNSEL ADMINISTRATION

## Program Objectives Statement

The objectives of the General Counsel Administration are to conduct fair, secret ballot elections; to investigate and bring resolution or prosecution in unfair labor practices. The General Counsel is responsible for implementing the provisions of the act and rules and regulations of the Board in the conduct of elections, challenges to ballots, court litigation, and investigation, issuance of complaints and prosecution before the Board of unfair labor practice charges. The General Counsel is also responsible for compliance—the process by which remedies prescribed by the Board are administratively acted on. The staff of the regional offices have the primary responsibility, under the direction and coordination of the General Counsel, for the activities related to elections and unfair labor practices, for seeking temporary injunctive relief in unfair labor practice cases, and for ensuring that compliance has been implemented.

## Program Requirements

20.30 Compliance .....	16.9	19.2	18.8	1,263	1,432	1,459

## 20.10 Representation Cases

## Program Element Statement

The ALRB conducts secret ballot elections in which agricultural employees can vote to designate a collective bargaining unit. The election process begins with the filing in a regional office of a petition for election, the petition is then investigated to determine whether it meets all the requirements of the act and the Board's rules and regulations. If the petition meets all requirements of sufficiency and if there is reasonable cause to believe that a question of representation exists, arrangements must be made with the participating labor organization(s) and with the employer to conduct an election within seven days of the date of filing. If no choice on the ballot receives a majority of the ballots cast, a runoff election is conducted. If the election cannot be certified, another election may be held.

Elements that may be required in the investigation of petitions during the seven days subsequent to filing include determining whether a valid election was conducted among the employees of the employer within the 12 months immediately preceding filing, whether a labor organization is currently certified as the exclusive collective bargaining representative of the employees affected, and whether the petition is barred by an existing collective bargaining agreement negotiated by a certified labor organization and an employer. In addition to the filing of petitions for certification by labor organizations, the statute also permits the filing of petitions for decertification by an agricultural employee or group of agricultural employees. The same additional elements may also be required in the investigation of such petitions during the seven days subsequent to filing.

During an election, a board agent or an observer of any party may challenge the eligibility of any person to cast a ballot. The ballots of challenged voters are set aside and if upon completion of the election, the tally of ballots discloses that the challenged ballots are sufficient in number to affect the results of the election, an investigation may be conducted to determine the challenged voters' eligibility and a report issued containing recommendations and conclusions. In the alternative, a hearing may be held on some or all of the challenged ballots.

## 8300 AGRICULTURAL LABOR RELATIONS BOARD—Continued

## 20.20 Unfair Labor Practices

## Program Element Statement

An unfair labor practice charge may be filed by an individual, an employer, or a labor organization alleging that an agricultural employer or a labor organization is engaging in an unfair labor practice in violation of Section 1153 or 1154 of the Act. The charge is filed in a regional office and a copy is served on the charged party. The charge is then assigned to a team comprised of a field examiner and an attorney in the regional office to conduct an investigation of the charge. Initially, the field examiner interviews the charging party's witnesses and where it appears that there is evidence of a violation, the charged party is requested to provide witnesses relevant to the investigation. After an investigation, the regional office determines whether the investigation has established sufficient evidence to warrant issuance of a complaint. If the determination is made to issue a complaint, the charged party is contacted and requested to enter into a settlement agreement to resolve the alleged unfair labor practices. In the absence of settlement, the matter is set for hearing before an administrative law judge. An attorney in the regional office then prepares the appropriate witnesses for trial and litigates the case. These hearings have ranged from one day to several months in duration, depending upon the complexity of the issues. A legal brief is ordinarily written by the trial attorney and submitted to the administrative law judge after the close of the hearing. Exceptions to the administrative law judge's decision may be taken by either party. In this circumstance another legal brief, arguing the points on review by the board, is prepared by the trial attorney.

## Performance Measures

Expenditures (General Fund) .....	26.6	25.7	25.2	\$1,734	\$1,769	\$1,803

## 20.30 Compliance

Compliance is the process by which Board ordered remedies in unfair labor practice decisions are effectuated. While the remedies that the Board can order vary, typically they include a requirement that the charging party (or parties) and their fellow employees be informed by a document entitled a Notice, of the results of the administrative hearing. This requirement is fulfilled by a posting, mailing and a reading of the Notice to the employees by a field examiner. Another usual remedy that the Board orders is backpay where the unlawful conduct of an employer or labor organization has resulted in the loss of work by charging party. Additionally, if the loss of work resulted from a termination of employment, the Board will order the charging party reinstated to his or her former position. Where the employer has refused to collectively bargain in good faith with a labor organization, the Board may order the makewhole remedy which is designed to recompense the employees for what they might have earned had the employer bargained in good faith.

The compliance activity of the General Counsel commences once judicial review of the Board decision and order in the unfair labor practices matter has been either exhausted or completed. The compliance activity will commonly be handled by the regional office that handled the underlying unfair labor practice. The matter is assigned to a field examiner who will seek voluntary compliance with the Notice requirements from the employer or labor organization. If the Board has also ordered backpay or makewhole, the employer will be asked to provide payroll records so that the amounts owing can be calculated. When the records are not provided voluntarily, the regional office must go to court to obtain an order securing the records. In backpay cases, the field examiner will also interview the discriminatees in order to determine what if any mitigation by way of interim employment exists. Once the amounts are calculated, the regional office contacts the employer or labor organization and requests voluntary payment. The employer or labor organization can request settlement discussions. In the absence of voluntary payment or settlement, the regional office prepares a formal "specification" of the amount owing and the matter is set for hearing before an administrative law judge. An attorney for the regional office then prepares the appropriate witnesses for trial and litigates the case. The process after hearing is identical to unfair labor practices.

10.30 Litigation .....	6.1	6.9	6.9	577	740	752

## 10.10 Violations of Statute

## Program Element Statement

An employer, an employee organization, or an employee may file a charge alleging that an employer or employee organization has committed an unlawful act as defined in the Educational Employment Relations Act (EERA), the Ralph C. Dills Act, State Employer-Employee Relations Act (SEERA) and the Higher Education Employer-Employee Relations Act (HEERA). PERB reviews the charge to determine if a prima facie case has been established. If the charge states a prima facie case, PERB issues a complaint. Next, PERB calls an informal conference to attempt to settle the matter by mutual agreement. If settlement does not occur, either party may request a formal hearing and the administrative law judge issues a proposed decision. Proposed decisions that are not appealed are binding on the parties to the case. Cases that are appealed go before the Board.

A similar process is utilized in resolution of conflicts regarding violations of public notice and other provisions of statute.

All final decisions of the Board are assigned to regional office staff to monitor and ensure compliance. This includes resolution of disputes regarding exactly what actions constitute compliance.

## Performance Measures

## 20 REPRESENTATION DETERMINATION

## Program Objectives Statement

This program administers a variety of processes which involve determination of appropriate units for collective bargaining, resolution of disputes regarding appropriate units, conduct of elections for the selection and decertification of exclusive bargaining agents, changes in bargaining unit structure or content, changes in the identity of exclusive representatives and conduct of elections to rescind organizational security provisions.

## Budget Adjustments

In 1990-91, the following budget adjustment is proposed:

- \$250,000 and 3.8 personnel years to expand the Dispute Resolution Program to include a labor/management cooperation training and facilitation program. In addition, an increase of \$50,000 in scheduled reimbursement expenditure authority related to the cost of expanding the program is included.

## 8350 DEPARTMENT OF INDUSTRIAL RELATIONS

The objective of the Department is to protect the workforce in California, improve working conditions, and advance opportunities for profitable employment. The Department is continually working toward this objective by enforcing the compulsory Workers' Compensation Insurance Law and adjudicating workers' compensation insurance claims, by working to prevent industrial injuries and deaths; by promulgating and enforcing laws relating to wages, hours, and conditions of employment; by promoting apprenticeship and other on-the-job training; by assisting in negotiations with parties in dispute when a work stoppage is threatened; and by analyzing and disseminating statistics which measure the condition of labor in the State.

## MAJOR BUDGET ADJUSTMENTS

The 1989-90 budget includes \$2,500,000 General Fund and 29.4 personnel years to implement the provisions of Chapter 892/89 (AB 276), and Chapter 893/89 (SB 47).

The 1990-91 budget includes the following adjustments:

- \$21,362,000 and 213.5 personnel years to fully implement the provisions of AB 276 and SB 47 including creation of the new Division of Workers Compensation.
- \$2,349,000 to continue the Workers' Compensation Appeals Board (WCAB) and Pressure Vessel/Elevator on-line systems at the Teale Data Center.
- A decrease of \$616,000 in reimbursement authority from the Division of Occupational Safety and Health to transfer the Radiation Health Program from the Department of Industrial Relations to the Department of Health Services.
- An increase of \$330,000 in spending authority from the Self Insurance Fund to reimburse the Division of Workers' Compensation for audit services.
- \$283,000 and 4.8 personnel years to implement the provisions of Chapter 1224/89 (AB 114), within the Division of Labor Standards Enforcement.

For the list of standard (lettered) footnotes, see the end of the Governor's Budget.

\* Dollars in thousands, excluding salary range.

50	Labor Standards Enforcement .....	4.8	283

## 10 REGULATION OF WORKERS' COMPENSATION SELF-INSURANCE PLANS

## Program Objectives Statement

An employer may meet the statutory requirement of providing workers' compensation benefits for his employees by obtaining a certificate of consent to self-insure. A certificate is issued after the employer has proved to the satisfaction of the Director of Industrial Relations that it has maintained an effective safety program, has the financial ability to pay normal and catastrophic losses over a long term, and has the ability to provide prompt and competent delivery of benefits. A security deposit is required of private employers and the amount of the deposit is revised periodically. The benefit delivery systems of self-insurers are audited on a three-year cycle to make certain all benefits are paid promptly and in full. A self-insurers financial strength is reevaluated yearly. Program advice is provided to self-insurance plan administrators.

## Authority

Labor Code Sections 129, 3700 through 3705 inclusive.

## 10.11 Regulation and Supervision of Self-Insurers Among Private Employers

## Program Element Statement

This element regulates and supervises self insurers among private employers by reviewing applications to self-insure, monitoring administration in management of claims, and monitoring the adequacy of security deposits and employers ability to continue to pay claims, and ascertaining the validity of self-insurance certificates.

## Budget Adjustments

The 1990-91 budget proposes the following adjustments:

- An increase of \$330,000 in spending authority from the Self Insurance Fund to reimburse the Division of Workers' Compensation for audit services.

## 20 CONCILIATION OF EMPLOYER-EMPLOYEE DISPUTES

## Program Objectives Statement

The objectives of the program are to protect the economy of the State and the well-being of employees in all categories by preventing or minimizing work stoppages, business interruptions, or the interruption of public services. It is the objective of the Mediation/Conciliation Service to accomplish this on a voluntary basis by making skilled professionals available to disputing parties with the objective of achieving settlements that are within the means of those concerned and that prevent an adverse effect on the economy.

## Authority

The program is authorized by Sections 65 and 66 of the California Labor Code, the labor provisions of the various Transit District Acts of the Public Utilities Code, the Meyers-Milias-Brown Act, the Educational Employment Relations Act, the State Employer-Employee Relations Act, Higher Education Employer-Employee Relations Act, and local legislation deriving from these acts and the Agricultural Labor Relations Act.

## 30 DIVISION OF WORKERS' COMPENSATION

## Program Objectives Statement

The Division of Workers' Compensation staff provides information & assistance, benefit determination, and claims adjudication to injured workers. This Division is also responsible for conducting audits of workers compensation carriers, self-insured, and legally uninsured to ensure compliance with the Labor Code, rules and regulations. In addition, the Division's Industrial Medical Council provides advice to the Administrative Director and his or her staff on medical matters.

## Authority

Article XIV, Section 4 of the Constitution of the State of California and Divisions 1, 4 and 5 of the Labor Code.

## Budget Adjustments

The 1989-90 budget includes \$2,500,000 (General Fund) and 29.4 personnel years to implement the provisions of Chapter 892/89 (AB 276), and Chapter 893/89 (SB 47).

The 1990-91 budget proposes the following adjustments:

- \$21,362,000 and 213.5 personnel years to fully implement the provisions of AB 276 and SB 47 including creation of the new Division of Workers' Compensation.
- \$2,149,000 to continue the Workers' Compensation Appeals Board (WCAB) on-line system at Teale Data Center.

## 30.20 Workers' Compensation Appeals Board

## Program Element Statement

The Workers' Compensation Appeals Board (created by Section 110 through 138.2 of the Labor Code) reviews and reconsiders the decisions of Workers' Compensation judges for errors of fact and law, occasionally hears and decides cases directly when justified by special circumstances, acts on petitions for disqualification of workers' compensation judges, acts on petitions for exhumation and autopsy, and petitions for removal, regulates the adjudicatory process, punishes for contempt, determines who may represent parties in the appellate review process.

## Performance Measures

## 30.40 Office of Benefit Determination

## Program Element Statement

This element provides estimates of percentages of permanent disability to the Administrative Director, the Workers' Compensation Appeals Board, Claims Adjudication Unit, employers, and employees or their representatives. This enables the WCAB, carriers and self-insured employers to institute orders to provide payments to injured workers suffering permanent impairment as an outcome of industrial injury. In addition, administration of a reporting system for rehabilitation services, approval of rehabilitation plans, and resolution of disputes involving issues of rehabilitation and related benefits will be performed within this element.

## 30.50 Conference Referees

## Program Element Statement

The Conference Referees Unit assures that hearings are held not less than 10 days, and not more than 60 days after the date the application is filed, pursuant to Chapter 892, Statutes of 1989. Mandatory settlement conferences are conducted by a referee for injured workers represented by counsel within the mandated time frame. This element will commence operation effective January 1, 1991, and will sunset January 1, 1994.

## 30.60 Office of Benefit Assistance and Enforcement

## Program Element Statement

This element helps to resolve disputed workers' compensation claims administratively by providing information and impartial assistance to injured workers who request help. This mitigates the need of workers to acquire attorneys and initiate legal proceedings. The element is also concerned with promoting prompt payment of workers' compensation benefits to injured workers by insurance companies or self-insured employers. In addition, this element is responsible for audits of insurance companies, third party administrators, and self-insureds to ensure that they have met their obligations under the Labor Code. Auditors issue assessments and impose civil and administrative penalties.

## Performance Measures

## 40 THE PREVENTION OF INDUSTRIAL INJURIES AND DEATHS TO CALIFORNIA WORKERS

## Program Objectives Statement

To ensure the safe and healthful working conditions for California's working men and women, this program enforces safety and health standards, investigates the causes of occupational deaths and injuries and assists in encouraging employers to maintain safe and healthful working conditions by providing research, information, education and training in the field of occupational safety and health.

## Authority

Labor Code: Division 1, Chapters 6 and 6.5, and Division 5, Part 1 through Part 8 inclusive.

## Budget Adjustments

The 1990-91 budget proposes the following adjustment:

- \$200,000 to continue the Pressure Vessel/Elevator on-line system at the Teale Data Center.

## 40.10 Field Enforcement

## Program Element Statement

Engineers and industrial hygienists are responsible for conducting safety and health compliance inspections for the purpose of bringing about corrections of unsafe practices in places of employment through the enforcement of State health and safety laws, rules, regulations, and standards. This unit also inspects underground tunnels six times per year. This element conducts special studies of target industries and initiates compliance actions in the case of violations.

Performance Measures	1988-89	1989-90	1990-91

## 8350 DEPARTMENT OF INDUSTRIAL RELATIONS—Continued

## 40.20 Safety of Employees in Mining

## Program Element Statement

Underground mines are inspected four times per year and surface mines, once per year. Pre-job conferences, answering complaints and requests, investigation of accidents, licensing of blasters, certification of safety representatives and gas testers, classification of underground operations, environmental surveys, and the development of proposed safety orders must also be accomplished by the unit. This element also includes ongoing training and engineering and accident prevention for the mine safety engineers.

## Performance Measures

## 40.30 Safety of Employees While Using or Repairing Elevators, Escalators, Aerial Tramways

## Program Element Statement

This element conducts inspections of elevators, aerial tramway equipment, (ski lifts) movable amusement rides, and construction personnel hoists by safety engineers specializing in this work. This program also calls for related consultation, equipment approval, plan review, accident and complaint investigation, education, and safety code reviews. Fees are charged for inspection work and deposited in the Elevator Safety Inspection Account.

## Performance Measures

	1988-89	1989-90	1990-91
Elevators inspected.....	30,552	34,500	39,000

Elevator Safety Inspection Account.....				2,911	3,401	3,468

## 40.40 Safety of Employees from Radiation

## Program Element Statement

This element conducts compliance inspections under the California Radiation Control Regulations and the Atomic Energy Act of 1954. These include precertification inspections of facilities and equipment where radiation is used, follow-up inspections, inspections in response to complaints and accident investigations.

This element may also develop and propose standards; and may monitor counties with radiation control programs.

## Budget Adjustments

The 1990-91 budget proposes the following adjustment:

- A decrease of \$616,000 in reimbursement authority to transfer safety of employees from radiation from Department of Industrial Relations to Department of Health Services.

## Performance Measures

## 40.50 Safety of Employees from Pressure Vessel Failure or Malfunction

## Program Element Statement

This element involves conducting field inspections of pressure vessels by safety engineers specializing in this work. The program also entails the shop inspection of new pressure vessels. Related to this field inspection program are permit-issuing activities, consultations, plan reviews, accident investigations, code reviews, boiler and fired pressure vessel safety orders and unfired pressure vessel safety orders, and education. Fees are charged for inspection work and placed in the Pressure Vessel Inspection Account.

Performance Measures	1988-89	1989-90	1990-91

Pressure Vessel Account .....				2,378	3,178	3,239

## 40.60 Occupational Safety and Health Appeals Board

## Program Element Statement

The Appeals Board is a quasi-judicial body (appointed by the Governor) empowered to settle disputes arising out of citations; notices of failure to correct alleged violations; special orders; and orders to take special action issued to California public employers found to be in violation of Title 8 California Code of Regulations (CCR) the Labor Code and the health and safety codes by the Division of Occupational Safety and Health. Appeals from these employers are heard by administrative law judges employed by the three-member board and written decisions are filed within 30 days after hearings. If any party to a hearing is dissatisfied with the decision of the administrative law judge, he/she may petition the Board for reconsideration. Following the Appeals Board's Decision After Reconsideration, a party may appeal to the Superior Court. Employers who are successful in their appeal may petition the Board to recover the cost of litigation.

Performance Measures	1988-89	1989-90	1990-91

## 40.70 Occupational Safety and Health Standards Board

## Program Element Statement

The Occupational Safety and Health Standards Board has responsibility to adopt, amend and repeal occupational safety and health standards, assuring, as much as possible, safe and healthful working conditions for California workers. In addition, the Board maintains standards for certain areas of the State's enforcement authority not covered by Federal standards which include elevators, aerial passenger tramways, amusement rides, pressure vessels and radiological health. The Board's objectives are to adopt reasonable and enforceable standards at least as effective as those promulgated by the Federal OSHA program.

The Board also has the responsibility to grant or deny variances from adopted standards. Permanent variances requested by employers are granted by the Board if it determines that the alternative methods proposed will provide employee protection equal or superior to that required by the existing standard. Any employer or other person adversely affected by the granting or denial of a temporary variance from the Division of Occupational Safety and Health may appeal to the Board within 15 working days. Finally, any interested person may propose new or revised standards or any other item concerning occupational safety and health to the Board.

\* Dollars in thousands, excluding salary range.

Federal Trust Fund <sup>f</sup> .....				—	312	313

## 40.80 Consultation and Education

## Program Element Statement

This element provides consultation—both safety and health—to all employers, at their request, to assist them in complying with California's safety and health regulations. California recognizes the need to assist employers in achieving voluntary compliance with Cal/OSHA safety and health regulations through on-site consultations and employer and employee education as an alternative to correction of unsafe practices through enforcement/compliance. In addition, a need exists for greater understanding by employers of their obligations under the Federal or State OSHA Acts to encourage voluntary compliance. The interpretation of complex standards and the ability to recognize hazards pose difficulties for employers, particularly small business employers, who often lack the financial resources to utilize private consultants to assist them in understanding their obligations under the Act.

This unit also provides safety and health training for miners and mine operators as required by the Federal Mine Safety and Health Administration (MSHA) and the State Division of Occupational Safety and Health (DOSH). A federal grant has been awarded to support training, consultation and related State and Federal safety order activities.

In addition to the 7(c)1 contract with OSHA which provides up to 90% federal funding and 10% a minimum of state funding for private sector employer assistance, the element receives general fund support to provide consultation and training for public sector employers.

## Performance Measures

## 50 ENFORCEMENT AND PROMULGATION OF LAWS RELATING TO WAGES, HOURS, CONDITIONS OF EMPLOYMENT, AND LICENSING AND ADJUDICATION

## Program Objectives Statement

This program promotes and protects the economic well-being of approximately ten million California workers. The objectives are: (1) the enforcement of the Industrial Welfare Commission Orders and sections of the Labor Code which relate to wages, hours of work, and conditions of employment; (2) the determination and collection of unpaid wages; (3) the licensing of farm labor contractors, industrial homework firms, athlete agencies, talent agencies, registration of garment manufacturers; (4) field enforcement of Industrial Welfare Commission orders and Public works laws, citations for violations of laws relating to minimum wages, workers' compensation insurance, child labor, unlicensed contractors, garment regulations, cash payment of wages without deductions; and (5) the promulgation of Industrial Welfare Commission Orders which regulate wages, hours and working conditions.

## Authority

State Constitution, Section 1, Article XIV; Labor Code Division 1, Chapter 2; Chapter 4, Section 95; Division 2, Part 4, Chapter 1; Division 2, Part 10; Division 2, Part 6.

\* Dollars in thousands, excluding salary range.

50.40 Industrial Welfare Commission—Promulgation of Labor Standards.....	5.1	5.0	5.0	522	438	445

## 50.10 Wages and Standards Enforcement

## Program Element Statement

Provisions of the Industrial Welfare Commission Orders (which establish minimum wages and standards for hours and working conditions) and wage sections of the Labor Code are enforced by investigations, citations, and hearings, with criminal prosecutions as a last resort.

Disputed wage claims are determined by hearing and payment of wages due may be enforced by the courts, when necessary.

The Labor Commissioner conducts field inspections and investigations to enforce provisions of the Labor Code and orders of the Industrial Welfare Commission relating to minimum wage and overtime, workers' compensation insurance, child labor, unlicensed contractors, garment regulations, licensing and cash payment of wages without deductions.

## Budget Adjustments

The 1990-91 budget proposes the following adjustment:

- \$283,000 and 4.8 personnel years to implement the provisions of Chapter 1224/89 (AB 114) within the Division of Labor Standards Enforcement.

## 50.40 Industrial Welfare Commission—Promulgation of Labor Standards

## Program Element Statement

The Industrial Welfare Commission (IWC) has the continuing duty to ascertain wages, hours of labor and working conditions and to investigate the health and welfare of employees. It must undertake a full review of the adequacy of the minimum wage at least every two years. Upon petition or upon its own motion, it may promulgate, review, and amend its orders establishing minimum wages, maximum hours, and working conditions necessary to the health and welfare of employees in various industries and occupation groups, according to procedures specified in the Labor Code and the Government Code. For these purposes it conducts research and provides information and holds public meetings and hearings. Amendment of an order usually requires calling an advisory wage board consisting of employer and employee representatives for the affected industries. Minimum standards protect nearly all employees in the private sector and establish fair conditions of competition for employers. The nature of IWC's output varies in each fiscal year and depends upon the stage of the mandated process to which the (IWC) is responding.

## 60 PROMOTION, DEVELOPMENT, AND ADMINISTRATION OF APPRENTICESHIP AND OTHER ON-THE-JOB TRAINING

## Program Objectives Statement

To develop a maximum of on-the-job training opportunities in the State's industrial economy through apprenticeship and other on-the-job training programs. The State's youth, minorities, women, and veterans require an increasing number of job training opportunities in order to enter the skilled labor market.

The Division of Apprenticeship Standards develops apprenticeship and other on-the-job training programs in the private and public sectors (including correctional institutions) to assist industry to develop a trained labor force and also ensures equality of opportunity in apprenticeship and other on-the-job training.

The Division monitors and enforces state and federal regulations that cover the employment of apprentices (California Plan for Equal Opportunity in Apprenticeship) and also enforces state codes dealing with apprentices on public works. The Division also inspects, develops, and approves training establishments under contract with the United States Veterans Administration as authorized by Labor Code Section 3090.

## Authority

Labor Code Chapter 4, Division 3, and Chapter 1, Division 2, Sections 1777.5 and 1777.6.

\* Dollars in thousands, excluding salary range.

## 60.10 Promotion, Development, and Administration of Apprenticeship and Other On-the-Job Training

## Program Element Statement

The Division, as the staff for the Administrator of Apprenticeship and the California Apprenticeship Council (CAC), carries out the requirements of the Labor Code and the rules and regulations established by the CAC. These activities include: the "promotion, development and expansion of on-the-job training and apprenticeship programs, with both public and private employers;" the enforcement of Section 1777.5 of the Labor Code requiring contractors to employ one apprentice for every five journeymen on public works contracts; providing more training opportunities for inmates and wards of correctional institutions to extend to the outside labor market after their release; and cooperation with other State agencies such as the California Youth Authority and the Department of Rehabilitation.

## 70 LABOR FORCE RESEARCH AND DATA DISSEMINATION

## Program Objectives Statement

Continuing expansion of the California work force requires urgent ongoing statistical and research information to provide an understanding of on-the-job safety and health as well as economic and industrial developments in both the private and public sectors.

The objectives of the program are to provide data for use in planning and executing safety programs; to measure the effectiveness of accident and illness prevention efforts in the work place; to provide accurate information pertaining to industrial relations from an impartial source on short notice; and to guide legislative and administrative decisions by State and local government. These objectives are met through the occupational injuries and illnesses statistics and industrial relations research programs which provide information on wage rates, working conditions, fringe benefits, work injuries, occupational diseases, industrial disputes, industrial relations practices, cost-of-living, and other studies related to labor.

## Authority

This program is required by the Labor Code: Division 1, Chapter 7, Sections 150-156; Division 2, Part 4, Chapter 1, Section 1202; Division 2, Part 7, Chapter 1, Article 2, Sections 1773.1-1773.8; Division 5, Part 1, Chapter 2, Sections 6409-6413.5; Public Utilities Code, Sections 465-467.

## 70.10 Occupational Injuries and Illnesses Statistics

## Program Element Statement

To provide information on the incidence, severity, and trend of occupational injuries and illnesses, the Division of Labor Statistics and Research conducts an annual Occupational Injuries and Illnesses Survey among California employers. The data collected are used as input to the national survey and basis to compare California's rates with other states and the nation as a whole.

Supplementing the annual survey, the Division compiles statistics on the causes of occupational injuries and illnesses based upon individual injury reports filed by employers and physicians. Accident factors coded and analyzed include accident type, source of injury or illness, nature of injury, part of the body affected, age, sex, and occupation of injured worker, county of occurrence, and industry. Data are used to pinpoint when, where, how, and why work-connected accidents or illnesses occur and are presented in a series of annual and special reports.

The Division of Labor Statistics and Research is party to grant agreements providing for 50 percent federal funding by the United States Department of Labor for two occupational injuries and illnesses statistics programs, the annual OSHA survey, and the supplementary DATA System program which utilizes information from employers.

## Performance Measures

Quantifiable output of the occupational injuries and illnesses statistics activity are shown below. The statistics the Division compiles, which serve to pinpoint accident and occupational disease factors and to measure prevention progress within various industries, are used by individuals responsible for giving direction to an implementation of occupational injury and illness prevention programs, both in government and private industry. Statistics alone cannot prevent accidents and exposures; but prevention efforts are successful only if based upon knowledge of past experience, and the work injury and illness statistics represent a source of such knowledge.

## 70.20 Industrial Relations Research

## Program Element Statement

The Industrial Relations Research element carries out statistical and analytical activities designed to provide information that is of use in stabilizing collective bargaining relationships. This element maintains a reference file of both private and public sector collective bargaining agreements which provide the basis for most reports. This element also gathers information needed to make prevailing wage determinations for public works and for janitorial services in public utilities in accordance with Section 1773 of the Labor Code and Section 465 of the Public Utilities Code; conducts a biennial census of union membership; and, performs research on industrial relations and labor economics topics as required.

## Performance Measures

Output consists of information on provisions of collective bargaining agreements, wage rates, prevailing wage determinations, and other industrial relations subjects. This information is summarized in published reports and in unpublished compilations used to answer specific requests.

## 80.10 Industrial Relations Unpaid Wage Fund

This element permits the Labor Commissioner to collect any unpaid wages or monetary benefits due and unpaid to any worker in this State without an assignment from such worker. If the Labor Commissioner has been unable to locate any worker for whom he has collected unpaid wages or benefits, the wages escheat to the State for deposit pursuant to the Unclaimed Property Law. This program is authorized under the provisions of Sections 96.6 and 96.7 of the Labor Code, which were added by Chapter 714, Statutes of 1975.

Chapter 562, Statutes of 1981, provides that whenever the balance in this fund is more than \$200,000, the excess shall be transferred to the General Fund.

Input	1988-89*	1989-90*	1990-91*
Expenditures (Claims paid, Industrial Relations Unpaid Wage Fund) .....	\$143	\$60	\$60

## 80.20 Employees' Account, Uninsured Employers' Fund

This element provides for payment of workers' compensation benefits to employees whose employers have failed to make benefit payments required under the Labor Code. This program is authorized under the provisions of Sections 3715-3727 of the Labor Code which establishes the Uninsured Employers' Fund for the purpose of making such workers' compensation benefits payments.

Input	1988-89*	1989-90*	1990-91*
Expenditures (Claims paid) .....	\$16,758	\$22,500	\$22,500
General Fund .....	14,099	19,800	19,800
Employees Account, Uninsured Employers' Fund <sup>e</sup> .....	2,659	2,700	2,700

## 80.30 Asbestos Workers' Account

AB 946 (Chapter 1041, Statutes of 1980) establishes a special revolving fund to pay benefits to individuals with asbestosis while litigation determines the responsible employer(s).

Input	1988-89*	1989-90*	1990-91*
Expenditures (Claims paid, Asbestos Workers Account <sup>e</sup> ) .....	\$13	-	-

## 80.40 Farm Labor Contractors Account

Chapter 803, Statutes of 1976 establishes a special account in which the Labor Commissioner shall deposit twenty-five dollars (\$25) of each Farm Labor Contractor's annual license fee. Funds from this account are to be disbursed for any damages to employees which exceed the limits of the licensee's bond or time certificate.

Input	1988-89*	1989-90*	1990-91*
Expenditures (Farm Labor Contractor's Special Account) .....	\$2	\$50	\$50

## 80.50 Garment Manufacturers Account

Chapter 1564, Statutes of 1984 establishes a special account in which the Labor Commissioner shall deposit twenty-five dollars (\$25) of each Garment Manufacturers' annual license fee. Funds from this account are to be disbursed for any damages to employees which exceed the limits of the licensee's bond or time certificate.

Input	1988-89*	1989-90*	1990-91*
Expenditures (Garment Manufacturers Special Account) .....	-	\$50	\$50

\* Dollars in thousands, excluding salary range.

## 8350 DEPARTMENT OF INDUSTRIAL RELATIONS—Continued

## 94 ADMINISTRATION

## Program Objectives Statement

The Division of Administration provides managerial and administrative services to ensure efficient and effective use of available staff and resources in achieving the overall goals of the Department's programs. Administrative services include audits, fiscal accounting, business management, training, personnel support including affirmative action guidance, budget development and tracking, federal grant administration, collections, and contracting. Legal and public information services are provided to the programs by staff in the Director's office.

## Authority

<sup>3</sup> This fund contains tax proceeds subject to the State Appropriations Limit, Article XIII B of the Constitution. In addition to the amounts reflected as expenditures in this statement, appropriations subject to the limit are adjusted for increases or decreases in the fund's Reserve for Economic Uncertainties and do not include any amounts expended for debt service, subventions to local government, compliance with federal or court mandates and from appropriations made in previous years (carryovers). Additional information on the State Appropriations Limit is provided in the Governor's Budget Summary.

## 8380 DEPARTMENT OF PERSONNEL ADMINISTRATION

The Department of Personnel Administration is the agency responsible for managing the nonmerit aspects of the State's personnel system. The goal of the Department of Personnel Administration is to insure the proper administration of existing terms and conditions of employment for the State's civil service employees and to represent the Governor as the employer in all matters concerning state employer-employee relations.

The State Employer-Employee Relations Act (Chapter 1159, Statutes of 1977) established a formal, bilateral process of employer-employee relations. The right to meet and confer in good faith granted to state civil service employees under this Act requires the Department of Personnel Administration, in conjunction with departments, to review existing terms and conditions of employment subject to negotiation, to develop management's negotiating positions, to represent management in negotiations with the exclusive representatives of employee representation units, and to administer negotiated memorandums of understanding.

It is also the responsibility of the Department of Personnel Administration to administer the personnel classification plan, and to provide for the compensation, terms and conditions of employment, as well as the development and training of the State's management team and employees not represented in the collective bargaining process.

### SUMMARY OF PROGRAM REQUIREMENTS

For the list of standard (lettered) footnotes, see the end of the Governor's Budget.

\* Dollars in thousands, excluding salary range.

## 8380 DEPARTMENT OF PERSONNEL ADMINISTRATION—Continued

## 40 ADMINISTRATION

The objectives of the Administration program are to: 1) provide the executive direction and leadership necessary in administering the non-merit aspects of the State's personnel management program; 2) develop and maintain the Administration's policy for conducting management relations activities and formulate personnel policies for unrepresented employees; 3) provide support services through the analysis and coordination of legislative bills; 4) maintain communications among the Administration, the Legislature, and State employees; and 5) provide administrative support services to the Department in the areas of internal personnel functions, fiscal/budget management, business services, word processing, files, data processing, systems development, and consultation on work flow issues and processing problems. The budget year reflects an additional \$9,000 to fund the conversion of a seasonal position to a permanent position.

Reimbursements .....				760	558	522

## 54.20 Deferred Compensation

This element administers a program which allows State employees to defer, through payroll withholding, a limited amount of their current wages for tax sheltered investment in savings, mutual funds or annuity products contracted for by the State. Activities include: 1) assisting participants and retired annuitants; 2) insuring compliance with federal deferred compensation law and regulations; and 3) transferring funds from the State to investment firms and from investment firms to retired employees, as well as to state and federal tax agencies; and 4) handling records and documents.

## Performance Measures

	1988-89	1989-90	1990-91
Number of active participants (year-end) .....	45,000	50,000	55,000
Number of enrollments (new and re-enrollments) .....	11,500	12,500	13,750
Number of payments .....	52,000	58,000	60,900
Number of redirections/transfers .....	1,900	2,400	2,640

## Input

	88-89	89-90	90-91	1988-89*	1989-90*	1990-91*
Expenditures (Deferred Compensation Plan Fund) .....	10.5	12.2	12.1	\$1,134	\$1,137	\$1,230

## 54.30 Workers' Compensation

This program assists all State agencies in 1) reducing the number of work-related injuries and illnesses through training programs and compliance reviews; and 2) administer the provision of Workers' Compensation benefits to State employees under the State Compensation Insurance Fund master agreement.

\* Dollars in thousands, excluding salary range.

8380 DEPARTMENT OF PERSONNEL ADMINISTRATION—Continued

## 8420 WORKERS' COMPENSATION BENEFITS

## (8430) Compensation Insurance Fund

The California State Compensation Insurance Fund is a self-supporting enterprise created to offer insurance protection to employers at the lowest possible cost. This fund operates in competition with other insurance carriers, acting as a yardstick to secure fair premium rates for employers and fair treatment for injured employees. The law requires that the fund use the same rates and classifications established by the State Insurance Commissioner for insurers generally, and provides that the rates shall be only sufficient to carry out the specific purposes stated in law.

Expenditure estimates for the budget year are based on the level of activity anticipated by the fund's management. Changes in economic conditions may result in corresponding changes in the various items of expense.

The budget data presented is information available as an annual operations report. As a public enterprise fund authorized by statutes, no budget detail is presented.

## (8450) Subsequent Injuries

This program, authorized by Sections 4750-4755 of the Labor Code, provides benefits for permanent disabilities which arise from industrial injury to an employee who has suffered from a previous permanent disability.

Section 4706.5(e) of the Labor Code provides that where there are no heirs of a deceased employee or no persons entitled to death benefit payment, such payment will be made to the State. These moneys are continuously available for payment of benefits and partially offset the need for direct General Fund support.

## Workers' Compensation Costs

The Labor Code (Divisions 4 and 4.5, Sections 3200-6148) mandates a complete system of workers' compensation for all employees, public or private, who incur injuries or illnesses that are employment-related. The following table provides data on actual and estimated workers' compensation expenditures by State agencies. This table is informational only. All workers' compensation expenditures are included in the individual agency budgets.

State agencies are either legally uninsured against workers' compensation liability or are insured by the State Compensation Insurance Fund (SCIF) pursuant to Section 11870 of the Insurance Code. Benefits paid by the uninsured agencies and insurance policy premiums paid by the insured agencies are shown below. Pursuant to Section 11871 of the Insurance Code, claims against uninsured agencies are adjusted by SCIF under a Master Agreement entered into with the Department of General Services. Adjustment costs and other administrative charges under the Master Agreement are also included below.

Additionally, the table includes Industrial Disability Leave benefits available under Chapter 374, Statutes of 1974, which may be elected in lieu of workers' compensation temporary disability benefits. Special disability benefits available under Section 4800 of the Labor Code to members of the California Highway Patrol and safety members of the Department of Justice are also highlighted.

The unfunded liability of the State for estimated future payments of Workers' Compensation benefits as of June 30, 1989, was \$529,795,880. Based on current assumptions and trends, the State Compensation Insurance Fund anticipates that this liability will increase to \$612,973,833 by June 30, 1990.

SUMMARY OF COSTS	1986-87	1987-88	1988-89 <sup>1</sup> (est)	1989-90 (est)	1990-91 (est)

## 8500 BOARD OF CHIROPRACTIC EXAMINERS

## Program Objectives Statement

The Board of Chiropractic Examiners was established by the Chiropractic Act of California, an initiative measure passed by the voters in 1922. The Act assigned to the Board primary responsibility for assuring the consumers of California that providers of chiropractic services are adequately trained and meet recognized standards of performance for treatment and practice. The Board uses licensing, continuing education and disciplinary procedures to maintain standards. It also sets educational standards for recognized chiropractic colleges, reviews complaints and investigates possible violations of the Chiropractic Act.

## SUMMARY OF PROGRAM REQUIREMENTS

	1988-89*	1989-90*	1990-91*
10 Board of Chiropractic Examiners.....	\$1,238	\$1,286	\$1,135

NET TOTALS, PROGRAM (State Board of Chiropractic Examiners Fund) .....	\$1,208	\$1,283	\$1,132
Personnel years.....	5.3	6.6	9.1

## Budget Adjustments

The following major adjustments are proposed for 1990-91:

- A reduction of \$335,000 in "Consultant and Professional Services—External" to reflect the expiration of a one-time adjustment in 1989-90 for legal services costs associated with the litigation involving the California Medical Association.
- An increase of \$75,000 to provide an additional 2.5 personnel years to handle additional workload.
- An increase of \$150,000 to cover the increased costs of investigations of complaints against licensed chiropractors as well as services by the Attorney General and the Office of Administrative Hearings involving those licensees.
- An increase of \$24,000 to cover anticipated increases in data processing and space rental costs.

## Authority

Chiropractic Act of California adopted in 1922.

## 8510 BOARD OF OSTEOPATHIC EXAMINERS

## Program Objectives Statement

The Board of Osteopathic Examiners, which has existed since the Osteopathic Act was enacted in 1922, sets and enforces standards for licensure of California osteopathic physicians and surgeons. By conducting examinations, investigations and disciplinary proceedings, the Board ensures that recognized standards of practice and treatment are maintained by its licentiates.

## 8530 BOARD OF PILOT COMMISSIONERS FOR THE BAYS OF SAN FRANCISCO, SAN PABLO AND SUISUN

The Board of Pilot Commissioners for the Bays of San Francisco, San Pablo and Suisun is responsible for providing qualified pilots for vessels entering or leaving those bays. The seven member board is appointed by the Governor and administers the program of licensing and regulating pilots by training pilots, conducting examinations and acting on complaints. The Board maintains an office in San Francisco staffed with one full-time secretary to provide support to the Board and its various committees. The Board is funded through an assessment on pilotage fees of up to 5 percent and, effective January 1, 1986, a special surcharge on ship movements to provide funds for pilot training.

### Authority

Section 1150, et seq., Harbors and Navigation Code.

### SUMMARY OF PROGRAM REQUIREMENTS

Personnel years .....	1.0	1.0	1.0

### BUDGET ADJUSTMENTS

In 1990-91, the following budget adjustments are proposed:

- An increase of \$120,000 for the Pilot Training Program to allow for an increase in the number of trainees enrolled from seven to twelve to replace current pilots who are nearing retirement.
- An increase of \$8,000 to augment existing contracts with private marine casualty investigators who investigate shipping accidents involving pilots licensed by the Board.

## 8550 CALIFORNIA HORSE RACING BOARD

## Program Objectives Statement

The purpose of the Board is to regulate parimutuel wagering for the protection of the betting public, to promote horse racing and breeding industries and to maximize State of California tax revenues.

In 1933, the people of the State of California adopted a constitutional amendment which created the California Horse Racing Board. The measure wrote many safeguards into the law and gave complete jurisdiction and supervision over all racing activities to the State of California acting through the California Horse Racing Board. Previously racetracks had acted autonomously and the stewards had complete and final authority over all meetings. The amendment transferred this authority to the Board and gave the Board wide discretion in rulemaking powers. Pursuant to these powers, the Board passed rules establishing the authority of the stewards, but made the stewards strictly and completely responsible to the Board for all their actions.

The California Horse Racing Board, currently a seven-member commission appointed by the Governor, supervises all race meetings in the state where parimutuel wagering is conducted. Principal activities of the Board include:

- Protection of the betting public;
- Licensing of racing associations;
- Sanctioning of every person who participates in any phase of horseracing;
- Designating racing days and charity days;
- Acting as a quasi-judicial body in matters pertaining to horseracing meets;
- Collecting the State's lawful share of revenue derived from horseracing meets;
- Enforcing laws, rules, and regulations pertaining to horseracing in California.

The State's revenue from horseracing is principally derived from fees based upon a percentage of the parimutuel wagering pools, breakage (the odd cents not paid to winning ticket holders), and unclaimed tickets. Additional revenue is derived from licenses issued to horse owners, trainers, jockeys, grooms and others, and from fines.

Revenues for the 1990-91 fiscal year are estimated at \$158 million, of which approximately \$115.1 million is distributed to the General Fund; \$26.8 million to the Fair and Exposition Fund; \$15.1 million to the Satellite Wagering Fund; \$750,000 to the Wildlife Restoration Fund; and \$310,000 to the Racetrack Security Account, Special Deposit Fund.

## Authority

Section 19(b) of Article IV of the State Constitution and Sections 19400 through 19705 of the Business and Professions Code.

For the list of standard (lettered) footnotes, see the end of the Governor's Budget.

\* Dollars in thousands, excluding salary range.

## Budget Adjustments

In 1990-91, the following budget adjustments are proposed:

- An increase of 3.6 personnel years and \$250,000 for investigative activities. It is anticipated that these activities will generate a minimum of \$250,000 in additional fines and penalties.
- An increase of 0.9 personnel years and a reduction of \$57,000 in interagency contracts for in-house EDP management and support.
- An increase of 0.9 personnel years and \$31,000 for increased legislation and regulation workload.
- An increase of \$29,000 for radio equipment for investigators.
- An increase in Laboratory Quality Assurance expenditures of \$25,000, to be funded from the existing budget for drug testing.
- A decrease of \$29,000 for contractual services for Intertrack Stewards.

## Performance Measures

The workload of the Board is primarily determined by the number of racetracks operating and the number of racing days allocated, as affected by Horse Racing Law, Chapter 4, Division 8, Business and Professions Code. The actual and projected workload is shown in the following tables:

	1986-87	1987-88	1988-89	1989-90	1990-91
Number of nights .....	459	389	335	354	355

Totals.....	212	347	410	410	410

## 10.10 Licensing

## Program Element Statement

It is essential, to protect both the public and the industry, that the Board be aware of every individual participating in horseracing. The licensing of each participant establishes such a control.

Input	88-89	89-90	90-91	1988-89*	1989-90*	1990-91*
Expenditures ( <i>Fair and Exposition Fund</i> )...	8.5	12.0	12.0	\$1,277	\$1,179	\$1,200

## 10.20 Enforcement

## Program Element Statement

Racetrack investigators, who represent the California Horse Racing Board, inspect racing operations for compliance with the rules and regulations of the Board, seek the ejection of undesirables from racing enclosures, and keep the Board informed of all racing matters. Strict compliance with the detailed rules is required in order to establish preventive control and protection of the betting public and the State's interest.

\* Dollars in thousands, excluding salary range.

8560 CALIFORNIA EXPOSITION AND STATE FAIR

The objective of the California Exposition and State Fair is to provide a medium for the education, commercial interaction, personal interaction and recreation of the citizens of California by providing a forum for the competitive and non-competitive exhibition of the State's industrial and agricultural accomplishments.

Fairs traditionally provide an arena for the presentation of new ideas and information for the education of the visitor as well as provide a market place for the demonstration, advertisement and sale of goods and services. Sponsors from the governmental and commercial sectors can present promotional information to the public. Fairs stimulate achievement through awards and prizes for excellence in the fields of agriculture and industry, and create a festive atmosphere with events and attractions for the amusement and recreation of their participants.

The California Exposition and State Fair provides a showcase for the agricultural, recreational and industrial resources of California for both residents and non-residents. It provides a forum for State Government to present its achievements to its constituency, and establishes programs of public participation to encourage the interchange of information regarding agriculture, industry and government. The State Fair also provides conventional youth programs for 4-H, and FFA, and provides a recreational outlet for the citizens of California.

For the list of standard (lettered) footnotes, see the end of the Governor's Budget.  
\* Dollars in thousands, excluding salary range.

## MAJOR BUDGET ADJUSTMENTS

The 1989-90 budget appropriated \$1,000,000 as partial costs of replacement of the livestock barns. The total revised project cost is \$4.6 million. The Department of Food and Agriculture, Division of Fairs and Exposition agreed to fund one half of the project and the balance would be funded by Cal Expo. Of Cal Expo's obligation to pay one half of the \$4.6 million, \$500,000 is due during the 1989-90 fiscal year. The project was approved by the California Fairs Financing Authority and, on October 17, 1989, bonds were sold and the necessary funding became available for this project. The construction contract has been awarded. Completion of the facility is scheduled for July, 1990.

The 1990-91 budget proposes an expenditure level of \$17,224,000. This expenditure level consists of \$16,039,000 from the California Exposition and State Fair Enterprise Fund, \$900,000 in reimbursements, \$20,000 from the State Fair Police Special Account and \$265,000 from the Fairs and Exposition Fund. The amount of \$265,000 is continuously appropriated pursuant to Business and Professions Code, Section 19622(a).

In 1990-91 the following budget adjustments are proposed:

- \$250,000 to be applied toward the repayment of Cal Expo's share of the replacement costs of the livestock barns.
- An increase of 9.4 personnel years and \$457,000 for workload adjustments and special attractions.
- A continuance of \$1,500,000 is proposed for deferred maintenance/special repair projects during 1990-91.

## 8570 DEPARTMENT OF FOOD AND AGRICULTURE

The objectives of the Department of Food and Agriculture are:

- To serve the citizens of California and protect the consumer by maintaining a viable food system which assures delivery of an abundant supply of wholesome food.
- To provide leadership in the development of policy on issues important to California food and agriculture.
- To develop policy and provide assistance in areas such as marketing and exporting.
- To protect public and worker health and safety related to pesticide use by registering and regulating chemicals.
- To prevent or eradicate intrusions of harmful plant and animal pests and diseases.
- To develop and enforce weights and measures standards for all levels of commerce.
- To provide support to district, county and citrus fairs in areas of planning, budgets, exhibits, vocational education, events, construction and maintenance.

## 10 PESTICIDE REGULATION

## Program Objectives Statement

The Division of Pest Management is responsible for: registering all pesticides prior to sale for use in California; monitoring, regulating and controlling the use of pesticides; enforcing the law concerning the sale, application, and use of pesticides; identifying environmental contamination resulting from pesticide use; identifying, developing and promoting the use of effective alternatives to pesticides (e.g., biological controls); integrating various pest control methods; testing produce for pesticide residue levels; promoting worker health and safety by reviewing and, if necessary, revising the proposed application methods and use of pesticides; and, for assessing the effectiveness and safety of pesticide active ingredients and products.

The Division is comprised of seven elements: Pesticide Use Enforcement, Pesticide Registration, Integrated Pest Management, Environmental Hazards Assessment, Biological Control Services, Worker Health and Safety, and Medical Toxicology.

## 10.10 Pesticide Registration

## Program Element Statement

Before a pesticide can be used or sold in California, manufacturers and formulators are required to register their products with the Department. There are approximately 11,000 pesticide products that are licensed for use and regulated by the Pesticide Registration Program. Scientific review of pesticidal data, submitted to support registration, ensures that adverse health or environmental effects are ascertained and that use is restricted to mitigate or eliminate adverse effects. When adverse effects cannot be mitigated or otherwise controlled, registration is denied, canceled or suspended. Recent legislative mandates have generated significant increases in pesticidal data review, collection, and dissemination. The Pesticide Registration Data Library—responding to increased demands for data regarding health and environmental effects—catalogs, maintains and retrieves pesticide data, and processes public requests for pesticide data and information.

Within this program, the Information Services Unit provides support services that include, but are not limited to: information gathering, coordination of data processing functions, interagency committee assistance, and analytical assistance in the area of public report writing.

Performance Measures	1988-89	1989-90	1990-91

## 10.20 Pesticide Use Enforcement

## Program Element Statement

The Pesticide Use Enforcement element primarily involves enforcement by the local County Agricultural Commissioner's staff of the day-to-day use of pesticides at the application site. The State provides coordination, supervision, training, investigative assistance, and overview controls necessary to keep the program uniform.

Counties support approximately forty-one percent of the cost of local pesticide regulatory activities through local revenues. The restricted materials permit plays a major role in county enforcement activities. The Commissioners receive financial assistance for county enforcement of State pesticide regulations through Section 12844 of the Food and Agricultural Code. Section 12844 specifies that xxx of pesticide mill assessment revenues shall be paid to counties as reimbursement for pesticide administration and enforcement costs. These payments are apportioned to the counties based on criteria adopted by regulations, which include workload measure, time, money expended, and performance. The General Fund supports contracts with counties for enforcement of new pesticide regulations adopted during and after 1980.

Section 12112 of the Food and Agricultural Code provides that fifty percent of moneys collected from licensing pesticide dealers shall be paid to counties for enforcement and administration of Chapters 6 and 7 of the Food and Agricultural Code. These payments are made to the county that the applicant indicates as his or her principal address at the time of payment of such fees.

Farm commodities used as food or feed are sampled and laboratory tested for pesticide residue. Produce found with illegal residues is quarantined and removed from sale. Follow-up investigations are made to correct potential improper practices.

Coordination is maintained with county agricultural commissioners, the Departments of Health Services and Industrial Relations, the U.S. Food and Drug Administration, and the U.S. Environmental Protection Agency. In addition, assistance is given to county agricultural commissioners in developing and executing local programs for regulation of pesticides.

## Budget Adjustments

In 1989-90, the budget includes \$360,000 and 1.7 personnel years to expand the Pesticide Use Enforcement Program pursuant to Chapter 1200/89, (AB 2161). In addition, \$673,000 and 5.9 personnel years are included to increase pesticide sampling and provide improved data for risk assessments of pesticides.

In 1990-91, the following budget adjustments are proposed:

- \$328,000 and 3.5 personnel years to continue the expansion of the Pesticide Use Enforcement Program pursuant to Chapter 1200/89, (AB 2161).
- \$2,737,000 and 19.9 personnel years to fund pesticide sampling and risk assessments pursuant to Chapter 1200/89, (AB 2161).

Performance Measures	1988-89	1989-90	1990-91

## 10.30 Pest Management Analysis and Planning

## Program Element Statement

The purpose of this element is to incorporate integrated pest management into the planning and decision-making processes of the Department. The Pest Management Analysis and Planning Program assembles and disseminates information on pest control options and provides the Director with a pest management perspective of the activities of the Department of Food and Agriculture through the following activities:

1. Promote programs which generate and organize pest control technologies into effective integrated pest management delivery systems.
2. Provide integrated pest management information into the decision-making process of pesticide regulation.

## Performance Measures

## 10.40 Biological Control Services

## Program Element Statement

The Biological Control Services Program develops and implements biological control agents to control serious agricultural pests that have become established in California and which cannot be eradicated. The purpose is to reduce pest damage and economic impact while concurrently reducing pesticide usage, thereby reducing any adverse effects on agricultural worker safety and the environment.

The program inventories the immediate and long range needs for biological controls, develops funding sources for contracts with other agencies to conduct needed research, provides biological control training, develops biological control agent propagation and release techniques, maintains rearing facilities to provide specific bio-agents and their hosts, sponsors and/or participates in establishing biological controls, conducts field monitoring studies to determine bio-agent impact on the pests, and serves as an information center on biological control for the Department as well as other agencies and the public.

The program includes field monitoring of microbial pesticides to address questions regarding the environmental fate of these products.

## Performance Measures

## 8570 DEPARTMENT OF FOOD AND AGRICULTURE—Continued

## 10.50 Environmental Hazards Assessment

## Program Element Statement

The Environmental Hazards Assessment Program evaluates the extent of environmental contamination from pesticides, agri-chemicals and pollutants, determines the impact of pesticides on the environment and agricultural productivity, and recommends mitigation methods to minimize or eliminate potential or existing threats. The program monitors selected pesticide applications and identifies off-target transportation and fate of these materials in the environment by collecting and analyzing samples of air, water, soil, vegetation and other media. The scientific evaluations and recommended mitigation measures are used to guide the regulatory and registration functions of the department, to prevent the contamination of groundwater, and to identify toxic air contaminants. It also provides the monitoring data necessary for human exposure evaluation. Additionally, the program develops methods to accurately assess air pollution crop losses, identifies sensitive and resistant plant varieties, identifies pollutant-pesticide interactions, and compiles and disseminates pesticide methodologies and information regarding activities.

## Performance Measures

	1988-89	1989-90	1990-91
Air/pollutant/crop responses evaluated .....	2	2	2

## 10.60 Worker Health and Safety

## Program Element Statement

There are a significant number of agricultural workers who may be exposed to pesticides either through accidental exposure where residues accumulate on foliage and plant surfaces, or directly in mixing and applying pesticides. Additionally, there are an even greater number of non-agricultural workers whose occupations involve working with or include possible exposure to pesticides. The goal of this unit is to provide increased protection for workers and the public from the potentially harmful effects of pesticide products in their environment. In meeting this goal, the unit performs the following activities in cooperation with the Department of Health Services, the Department of Industrial Relations and other specified entities:

1. Reviews toxicological and human experience data concerning the hazards of pesticides proposed for use or in use and recommends appropriate actions.
2. Conducts tests of pesticide residues on plant surfaces, in soil, in water and in air, establishes worker re-entry standards, and develops regulations and recommends registration actions to establish requirements for safe working conditions.
3. Evaluates adequacy of medical supervision provided by employers and responds to requests for sources of medical information.
4. Reviews and investigates reported pesticide-related exposures and compiles informative summaries to determine the causes and necessary corrective action in terms of packaging, safe use instructions, handling, applicator techniques, registration actions and regulation changes.
5. Assists County Agricultural Commissioners with investigations of pesticide related incidents of all kinds.
6. Conducts exposure assessments, develop and evaluate risk mitigation measures.

## Performance Measures

## 10.70 Medical Toxicology

## Program Element Statement

The Medical Toxicology Branch was created in 1985 to meet Legislative mandates of the 1984 Birth Defect Prevention Act. The Branch performs chronic toxicology data reviews of all active ingredients contained in pesticide products registered in the State of California. This includes the evaluation of toxicology data; the identification of toxicology data gaps; and a determination of the significance of potential adverse human health effects as indicated by results of toxicology studies.

Additionally, the Medical Toxicology Branch is responsible for the following activities:

Ongoing Toxicology Data Review: Evaluation of Toxicology data submitted to support pesticide active ingredient and product registration to ensure that products registered and sold in California may be safely used when applied in accordance with label directions.

Health Assessment: This includes an in-depth analysis of toxicology studies. The information taken from toxicology and exposure studies is used to reach an assessment of the level of risk or margin of safety associated with exposure to a particular material.

## Performance Measures

## 20 AGRICULTURAL PLANT PEST AND DISEASE PREVENTION

## Program Objective Statement

The objective of this program is to prevent the introduction or spread of plant disease, weeds, insects and other pests and diseases. This is accomplished by: 1) the establishment and enforcement of quarantines to exclude such pests and diseases whenever possible; 2) the detection of diseases and pests now established or about to become established in the State and, through identification, analysis, and evaluation after detection, making recommendations for actions; 3) the formulation and enactment of plans for action to eradicate or control such diseases and pests. These activities are carried out by program staff either directly or with county agricultural commissioners.

## 20.15 Exclusion of Plant Pests and Diseases

## Program Element Statement

This element provides: 1) inspection at border stations of vehicles carrying high risk cargo (or coming from high risk areas) to detect quarantined pests and to assure that out-of-state shipments meet California market quality standards; 2) coordination, oversight, training and certification of county personnel to inspect plant materials arriving at terminal points within the State (air/sea ports, rail stations, post offices, etc.) to assure compliance with quarantine policies and procedures, and to inspect and certify all outgoing plant materials to assure compliance with "clean plant" (phytosanitary) standards required by foreign or out-of-state markets; and 3) issuance of news releases and formal presentations to increase public awareness and enlist their aid in accomplishment of program goals. These activities ensure uniform enforcement of numerous exterior, interior, and Federal domestic quarantines regulating shipment of plants and other specified articles arriving into the State. With 16 inspection stations operating along its northern, eastern and southern borders, California enforces 28 State exterior quarantines and 13 Federal domestic quarantines designed to prevent the introduction of plant pests.

Other government agencies are assisted in meeting their missions and roles at border stations by observing and recording weather data, validating game tags and reporting out-of-state game, reporting highway conditions, cooperating with other law enforcement agencies, and conducting traveler surveys. Other Department units are assisted in meeting their roles and missions at border stations by reporting out-of-state shipments of grain, hay, livestock, eggs, bees, and bulk shipments of certain fresh produce.

## Budget Adjustments

In 1990-91, the budget proposes \$600,000 to complete health and safety projects at various agricultural inspection border stations.

Performance Measures	1988-89	1989-90	1990-91
Commercial vehicle border inspections—pest inspections .....	2,673,196	2,750,000	2,800,000

## 20.20 Control and Eradication of Plant Pests and Diseases

## Program Element Statement

This element, working cooperatively with county personnel, establishes boundaries of current infestations of plant pests or diseases and locations of known hosts to determine the potential for spreading; applies chemicals or releases bio-control agents to treat the infested areas; and systematically follows up to determine the effectiveness of the treatment. The apiary (bee) program includes inspections to assure health and strength requirements for pollination, moved interstate, or exported to other countries. The Weed and Vertebrate Pest Program includes testing, development, and supervision of control methods. The Branch also administers the apiary, curly top and pink bollworm assessment programs, which support the related control and research activities. Training programs are prepared, conducted and evaluated for county personnel.

## Budget Adjustments

In 1990-91, the budget proposes 7.7 personnel years and \$600,000 to continue funding for the eradication of the Hydrilla infestation in the Eastman Lake and the Chowchilla River in Madera and Mariposa Counties.

## 8570 DEPARTMENT OF FOOD AND AGRICULTURE—Continued

## 20.21 Predatory Animal Control

## Program Element Statement

This program, through contract with the U.S. Department of Agriculture, administers a program of wildlife resource management throughout California. The primary program is animal damage control or predatory animal control and its chief objectives are the protection of agriculture, range, forest and wildlife resources from depredations caused by wild mammals and migratory birds. Surveillance and suppression of wildlife-borne diseases are also conducted.

Input	88-89	89-90	90-91	1988-89*	1989-90*	1990-91*
Expenditures (General Fund).....	—	—	—	\$644	\$704	\$704

## 20.25 Pest Detection and Emergency Projects

## Program Element Statement

This element provides for a trained group to be able to respond immediately to emergencies and any serious and damaging invasion of a plant pest or disease and to assure early detection of agricultural pests and diseases. Response activities involve statewide detection programs, training of other governmental agency personnel, and quality control of all statewide detection activities.

Pest detection is cooperatively conducted by County Agricultural Commissioners under the general supervision, guidance and evaluation of State personnel. Activities include systematic trapping, visual surveys, and remote sensing techniques involving aircraft and satellite photos, and computer interpretations.

This element provides: 1) statewide detection of plant pests including trapping and special surveys; 2) training of county and other governmental agency employees in detection techniques; 3) oversight and coordination of county pest detection programs; and 4) immediate response to plant pest infestations in order to eradicate them.

## Budget Adjustments

In 1989-90, a \$12,796,000 deficiency was authorized to cover costs for the Mediterranean Fruit Fly eradication program in Los Angeles, Orange, San Bernardino and Santa Clara counties.

Performance Measures	1988-89	1989-90	1990-91
Traps deployed statewide .....	140,677	165,000	150,000

## 20.30 Analysis and Identification

## Program Element Statement

The five laboratories included in this element are Botany, Entomology, Nematology, Plant Pathology, and Seed Taxonomy/Germination. These laboratories: 1) identify plants and seeds, plant pathogens and disorders, nematodes, insects and related arthropods and mollusks; 2) monitor and record germination rate, type and percent of noxious weed seeds present in samples; 3) maintain pest collections and records, and distribute pest detection devices; 4) grow and maintain indicator plants for testing; 5) serve as professional resource centers in fields of botany, plant pathology, nematology, and entomology; and, 6) gather, store and serve as a source of technical information regarding exotic pests. These services support Department programs including pest exclusion, pest detection and emergency projects, control and eradication, pesticide management, environmental protection, animal industry, and the nursery and seed services. On a reciprocal basis, service is also provided to Federal agencies, county agricultural commissioners, universities and museums, the extension service, other states and foreign countries, as well as the general public.

Performance Measures	1988-89	1989-90	1990-91

## 8570 DEPARTMENT OF FOOD AND AGRICULTURE—Continued

## 20.40 Nursery Service

## Program Element Statement

This element initiates and maintains programs to coordinate and supervise county agricultural commissioners' enforcement of State laws which regulate the growing, handling, and distribution of nursery stock. Persons selling nursery stock are licensed to enable effective enforcement work.

The unit provides uniformity in regulation enforcement and leadership in pest detection programs while ensuring sufficient freedom of movement of nursery stock to keep the nursery trade from becoming involved in restrictive quarantines and to assure orderly marketing. Nursery Service also engages in cooperative research to solve nursery-related pest problems and provides voluntary registration and certification programs as a means of producing and marketing plants relatively free of virus diseases, disorders, and plant pests.

The nursery services are supported entirely by fees collected for licenses and services performed in nursery stock registration and certification activities.

## Performance Measures

	1988-89	1989-90	1990-91
Total number of nurseries .....	8,500	8,500	8,500

## 20.50 Seed Potato Certification Service

## Program Element Statement

California's seed potato certification program commenced in 1915 when it became evident that potatoes could no longer be produced commercially unless seed, meeting strict standards of pest cleanliness and varietal purity, was available for planting. The fitness of potatoes to qualify for certification is determined by inspection and testing of plants and tubers for serious pests, grade standards, and varietal purity.

Approximately 1,300 acres of seed potatoes are entered for certification annually. This acreage is grown and harvested over a 12-month period throughout the State. The service is supported entirely by acreage and test plot fees.

## Performance Measures

	1988-89	1989-90	1990-91

Agriculture Fund .....				-	1	1
Agriculture Fund, Section 221 .....				72	87	88

## 20.55 Seed Service

## Program Element Statement

This element provides protection to growers by ensuring that commercial seed is free from prohibited noxious weed seeds and is properly labeled with regard to quality statements and fungicide treatments. This is accomplished through coordination and supervision of inspection, enforcement, and seed certification that is performed by county agricultural commissioners.

The industry supports the total enforcement cost of the California Seed Law and up to one-third of the associated laboratory costs.

The element also administers the One-Variety Cotton District Act, which establishes an elected Acala Cotton Board and conducts the non-approved variety testing program. The Board is authorized to approve those cotton varieties which meet Fiber Quality Standards, thus assuring the growth of the most profitable and uniform cotton varieties. Funding is provided by an assessment upon cottonseed delinted for planting within the One-Variety Cotton District.

## Performance Measures

## 25 ANIMAL PEST AND DISEASE PREVENTION/INSPECTION SERVICES

## Program Objectives Statement

The Division of Animal Industry's primary responsibilities are to prevent, detect, diagnose, control, and whenever practical, eradicate animal diseases and pests. An important function is the planning and preparation to respond immediately to an introduction of an emergency disease. Of particular concern are those diseases or pests which can be transmitted to humans, can cause serious financial losses to the livestock and poultry industry in California, or can adversely affect the supply of animal products to the consumer. Inspections of meat, poultry, and milk and dairy products are essential to assure consumers that products are safe, wholesome, and properly labeled. This Division also helps to protect the livestock industry against loss of animals by theft and straying.

The Division is comprised of five elements: Animal Health, Meat and Poultry Inspection, Milk and Dairy Foods Control, Livestock Identification and the California Veterinary Diagnostic Laboratory System. The Veterinary Diagnostic Laboratory System is administered through contract with the University of California, School of Veterinary Medicine.

## 25.10 Animal Health

## Program Element Statement

The Animal Health Branch provides an organized statewide preventive veterinary medical service program designed to assist with ensuring an adequate wholesome food supply, and to aid in protecting the public health. These responsibilities are met by detection, control, eradication, and prevention of animal disease in the State. Detection activities include surveillance, examination, testing, and autopsies performed both in the field and in the laboratories.

Disease control is accomplished through vaccination, testing, and elimination of infected animals, cleaning and disinfection of trucks and premises, and restriction of animal movement by hold orders, quarantines, or controlled destination movement permits for animals with disease, exposed to disease, or contaminated with deleterious substances.

Disease eradication efforts are accomplished through state and national programs to break the cycle of infection by test and removal of infected animals, sterilization of garbage fed to swine, sanitation of hatching eggs, and herd treatment for external parasites. Owners of removed animals are in some cases indemnified for a portion of the animal's value.

Preventive activities are directed against the entry of diseases which do not currently exist in California. This is accomplished by destroying ship and aircraft garbage, inspecting imported animals, disease monitoring and educational efforts, and quarantines when applicable. An important function is the planning and preparation to respond immediately to an introduction of an emergency disease. The planning includes devising systems and methodologies, training field personnel, eliminating constraints and increasing effectiveness and efficiency of procedures utilized in eradication efforts.

The Branch also seeks to prevent the fraudulent drugging of horses that would alter their disposition in a public sale or performance.

Performance Measures	1988-89	1989-90	1990-91
1. Number of destructive diseases monitored .....	111	112	112

## 8570 DEPARTMENT OF FOOD AND AGRICULTURE—Continued

## 25.20 California Veterinary Diagnostic Laboratory System

## Program Element Statement

Through an interagency agreement, the University of California, School of Veterinary Medicine at Davis provides diagnostic laboratory services in support of foreign and domestic livestock disease detection, control, and eradication activities at a central reference laboratory and four branch laboratories. Utilizing the disciplines of pathology, bacteriology, virology, serology, parasitology, and toxicology, information is developed and reported concerning diseases of both human and animal significance. Information is furnished to State and Federal animal health regulatory agencies, state and county public health departments, State Meat Inspection, Milk and Dairy Foods Control, and university and extension veterinarians. Specified services are provided to the poultry, beef, dairy, sheep, swine, and horse industries on a partial recovery fee basis.

## 25.30 Meat and Poultry Inspection

## Program Element Statement

The purpose of the Meat and Poultry Inspection Branch is to provide meat and poultry inspection services in slaughterhouses and processing plants, which are exempt from federal inspection, to ensure that all meat and poultry food products produced or consumed in the State are disease free, wholesome, unadulterated, and truthfully labeled.

Many animal diseases are transmissible to individuals through the meat they eat. Pesticides, antibiotics, pathogenic microorganisms, carcinogenic compounds, additives and deceptive extenders used in meat products and meat from animals which died other than by slaughter are undetectable by the consumer. The Branch provides inspection in establishments slaughtering domesticated pigeons, squabs, pheasants, quail, or rabbits, establishments slaughtering less than 20,000 turkeys or 20,000 chickens per year, livestock custom slaughter plants, establishments preparing meat food products such as hams and cooked sausages that sell such products to individual consumers on the premises where produced, and pet food slaughter and pet food processing plants.

In meeting program objectives, the Branch:

Performs ante-mortem and post-mortem inspection of livestock and poultry, enforces AQL (Acceptable Quality Level) standards of poultry carcasses and parts, implements moisture and chilling temperature control of poultry, marks and denatures carcasses and parts not intended for food purposes, reviews records to prevent diversion of condemned and inedible materials into human and pet food channels, provides fat and moisture control of cooked sausages, controls the use of nitrites, and other additives, monitors trichinae control in pork and pork products, and enforces sanitation, facilities, and equipment standards.

Provides sanitation inspections of locker plants (retail markets that cut and wrap farm killed livestock).

Prevents meat from dead or condemned carcasses and condemned and/or adulterated meat and poultry products from entering human or pet food channels by licensing, issuing permits, and inspecting rendering plants, collection centers, dead animal haulers, importers, pet food slaughterers, pet food processors, and conducting compliance reviews.

Reviews and approves inspection programs provided by city, county, State or foreign countries to prevent the shipment into California of uninspected domesticated pigeons, squabs, quail, pheasants, and rabbits from sources which have not been approved.

## Budget Adjustments

In 1990-91, the budget proposes 5.7 personnel years and \$344,000 to provide additional inspection of meat and poultry processing plants.

## Performance Measures

	1988-89	1989-90	1990-91

## 8570 DEPARTMENT OF FOOD AND AGRICULTURE—Continued

## 25.40 Milk and Dairy Foods Control

## Program Element Statement

The objectives of the Milk and Dairy Foods Control Branch are to insure that milk, milk products and products resembling milk products are safe and unadulterated, and to insure that these products meet state and federal compositional requirements and are properly labeled.

Branch staff provide training and supervision for local Approved Milk Inspection Services (AMIS) to develop statewide uniformity of compliance. Staff additionally certify dairy farms, milk plants and sources of single-services dairy containers for the U.S. Food and Drug Administration for interstate sales and for use by milk processors selling products to federal entities. They inspect or supervise the inspection of manufacturing grade dairy farms, make inspections of milk processing plants and provide product grading service for the U.S. Department of Agriculture. In addition, the branch insures that tests used to determine the basis for payment for milk or cream are accurate.

## Performance Measures

## 25.60 Livestock Identification

## Program Element Statement

The Livestock Identification Branch staff protects cattle owners in California against loss of animals by theft, straying, or misappropriation. This is accomplished by the registration of livestock brands; inspection of cattle for lawful possession prior to transportation, sale, or slaughter, and the recording of the information obtained by such inspections; and assisting local law enforcement officials with investigations and prosecutions involving cattle theft.

Livestock owners pay the total cost of the program, including overhead charges. The primary sources of revenue are from brand registration and inspection fees.

## 30 AGRICULTURAL MARKETING SERVICES

## Program Objectives Statement

California agriculture produces over 250 different crops which enter state, national, and international commerce. The objectives of this program are to assure orderly marketing, reduction of economic waste, adequate supply, consumer protection, and fair pricing practices. Agricultural Marketing Services fulfills its objectives by collecting and disseminating marketing and economic information, identifying and helping to resolve marketing problems, assisting the milk industry to maintain stability, and reviewing and helping to mediate problems between producers and handlers.

## 30.10 Marketing Trust

## Program Element Statement

This element currently provides administrative, marketing, and some accounting services to a varying number of marketing programs (39 this current year). Activities carried on under these programs include market development through advertising and sales promotion, production, processing and marketing research, the establishment of quality regulations with inspection, and the prohibition of unfair trade practices for various farm products at a cost of about \$121 million in 1988-89, when commissions are included. This element is supported by marketing trust monies collected by the Department from industry groups operating under authority of the Marketing Act of 1937 and other marketing laws. This element is exempt from budgetary review under the provisions of Section 221 of the Food and Agricultural Code.

The major benefit of the marketing trust program is the protection provided to the consumer by assuring an adequate supply of pure and wholesome food products at a fair and reasonable price. The total cost of promoting orderly marketing of the commodities concerned is paid by the producers and handlers through fees and assessments. The personnel years and dollars shown below reflect the civil service employees within the Department that are involved in the centralized administration of the various marketing programs.

## 30.21 Market News

## Program Element Statement

The Market News component is under a cooperative agreement operated with the United States Department of Agriculture as the Federal-State Market News Service.

Agricultural marketing data is collected from farmers, buyers, dealers, shippers, auction sales companies, and others involved in the marketing process. All data is given to Market News representatives on a voluntary basis, including confidential information such as an individual's or firm's selling prices, volume sold, volume processed, shipments, and market conditions. Information from the many sources is consolidated into Market News reports and disseminated to the public by telephone, teletype, radio, TV, printed reports, newspapers, and trade journals.

California markets the largest food and agricultural production of any state, with a large portion shipped to eastern consuming centers. The exchange of current marketing guidelines nationwide gives California the timely information needed to economically market several billion dollars worth of perishable food commodities each year. The unbiased third-party information provided by the Federal-State Market News Service assists in creating a better economic balance between buyer and seller, thereby benefiting both the producing and consuming public.

## 30.30 Agricultural Statistics

## Program Element Statement

The California Agricultural Statistics Service is a federal-state entity operating under a cooperative agreement between the Department of Food and Agriculture and the United States Department of Agriculture's National Agricultural Statistics Service. The responsibility of this element is to prepare and distribute statistics on California agriculture. These statistics are used as a basis for production and marketing decisions by those in agriculture and allied industries. The growing complexity of California agriculture has expanded the need for "farm facts" and increased the demand for their precision.

The statistical series provide estimates of acres planted and harvested, production, stocks, and utilization of crops. Forecasts of yield and production are issued monthly during the growing season. Also prepared and published are statistics covering inventory numbers, production, and prices of livestock and poultry and their products, and periodic reports of weather, crop and range conditions. The Service is also responsible for estimating California exports.

\* Dollars in thousands, excluding salary range.

8570 DEPARTMENT OF FOOD AND AGRICULTURE—Continued

Newer sampling techniques and improved estimating procedures provide forecasts of production with greater precision than in past years. The improved estimating procedures include objective cotton, rice, wheat, and fruit counts, probability list sampling, area frame sampling, multiple frame sampling, and the use of aerial photography.

Performance Measures				1988-89	1989-90	1990-91
Number of usable questionnaires tabulated .....				153,259	145,000	143,000
Personal field interviews made .....				18,448	18,000	18,000
Objective measurement samples taken .....				13,675	13,000	13,000
Number of telephone interviews.....				81,052	85,000	86,000
Number of reports issued .....				181	181	181
Requests for reports and bulletins.....				109,996	110,000	110,000

30.40 Milk Marketing

Program Element Statement

The Milk Marketing element is authorized to establish the minimum prices paid to producers by handlers under standards established by the Legislature. The program also has responsibility for controlling unfair practices in the milk industry. These responsibilities include the prohibition against sales below cost and discriminatory prices, which undermine competitive forces in the industry. It also administers a milk producers security trust fund which provides some reimbursement to milk producers for handler payment defaults.

Another major responsibility is administering the Milk Pooling Act, which provides the standards for distributing the monthly statewide revenue, derived from the sale of bulk market milk to handlers, to California dairy producers based on their individual entitlements.

Performance Measures	1988-89	1989-90	1990-91			
Milk market producers.....	2,115	2,095	2,100			
Value of market milk to producers (billions of dollars) .....	2	2.3	2.4

30.50 General Marketing Services

Program Element Statement

General marketing services include (1) making special reports, preparing bill analyses, and responding to correspondence, inquiries, and requests from the Legislature, the general public, business, the Director's Office, and other governmental agencies; (2) assisting agricultural industries in analyzing their marketing problems and in preparing programs to deal with these problems; (3) explaining to consumers and the general public the agricultural condition and the reasons certain activities, including those under marketing programs, are undertaken.

Performance Measures				1988-89	1989-90	1990-91
Marketing inquiries/correspondence and telephone .....				10,500	10,500	10,500

Reimbursement.....				-	200	200

30.55 Dairy Product Technology Center

Program Element Statement

Pursuant to Chapter 1514, Statutes of 1986, this element is allocated to the Trustees of the California State University for use by California Polytechnic State University, San Luis Obispo, to establish a Dairy Products Technology Center. The Center will help to accelerate the recruiting and education of people in order to fill the void now evident in dairy processing.

None of the funds appropriated in this element may be disbursed until the director determines that matching funds from non-state sources have been received by the University.

\* Dollars in thousands, excluding salary range.

## 8570 DEPARTMENT OF FOOD AND AGRICULTURE—Continued

## Budget Adjustments

In 1990-91, the budget proposes transferring the \$200,000 previously appropriated to the Department of Food and Agriculture in this element to the California State University's budget, Program 04 Academic Support, to continue to be used for the establishment of a Dairy Products Technology Center.

Input	88-89	89-90	90-91	1988-89*	1989-90*	1990-91*
Expenditures (General Fund).....	—	—	—	\$200	\$206	—

## 30.60 Direct Marketing

## Program Element Statement

This component provides assistance in the development of marketing outlets that concentrate on the direct marketing of agricultural products between the farmer and the consumer. The activities of the program include: (1) assisting in the development and operation of certified farmers' markets and roadside farmstands; (2) producing and disseminating marketing information publications for consumers and farmers; (3) educating consumers about California agriculture, the concept of direct marketing, and how direct marketing outlets relates to California farmers, consumers, and organizations through educational outreach presentations and program exhibits at fairs and special events through the State; (4) aiding in the formation and operations of farm trail organizations and other forms of on-farm agricultural marketing; (5) operating a central marketing information system which includes a toll-free information hotline for farmers and consumers; (6) cooperating with other agencies to further direct marketing activities; (7) monitoring the growth and development of the direct marketing industry and obtaining information useful to farmers and consumers.

Performance Measures	1988-89	1989-90	1990-91
Certified Farmers' Markets .....	112	120	130
Farmers listing in the Farmer-to-Consumer Directory .....	1,040	1,125	1,200

Expenditures (General Fund).....	7.6	10.8	10.8	\$423	\$483	\$491

## 30.70 Market Enforcement

## Program Element Statement

Through licensing provisions of the Food and Agricultural Code, this component exercises control upon the activities of middlemen and processors of farm products to ensure that fair marketing practices prevail.

Mandatory provisions require investigation and settlement procedures when complaints against handlers are received from producers or other suppliers of farm products. In the event that settlement negotiations are not successful, the authority provides for formal hearings where disposition of the complaint may be either by dismissal or disciplinary action against the licensee in the form of probation, suspension, or revocation of his license. This activity is handled by a field staff under the supervision of supervising investigators.

Preventive and deterrent effects are achieved through examination of licensee's records to assure that the licensee is conducting his business in an acceptable manner. This part of the activity is handled by auditing licensees.

Performance Measures	1988-89	1989-90	1990-91
Number of licensees at year end .....	13,248	13,648	13,998
Number of administrative hearings .....	10	10	12

## 30.80 Agricultural Cooperative Bargaining

## Program Element Statement

This element administers and enforces the Cooperative Bargaining Association Law. The purpose is to discourage and/or prevent unfair trade practices between processors, handlers and distributors or their agents and cooperative bargaining associations or their agents with respect to bargaining for price and other contractual terms of sale. These unfair trade practices include coercing or boycotting producers who are members of bargaining associations, discriminating against any producer with respect to price and any other terms of purchase because of membership in a bargaining association, and refusing to negotiate or bargain at reasonable times with a genuine desire to reach agreement by either party on price and other contractual terms of sale. Each of these unfair trade practices interferes with the efforts of bargaining associations and/or processors in exercising their rights granted in the law.

Input	88-89	89-90	90-91	1988-89*	1989-90*	1990-91*

\* Dollars in thousands, excluding salary range.

## 8570 DEPARTMENT OF FOOD AND AGRICULTURE—Continued

## 30.99 Industry Objective Measurement Surveys

## Program Element Statement

The Industry Objective Measurement Surveys element provides objective forecasts of crop production for specific agricultural industries. These forecasts are necessary for orderly production and marketing decisions.

Funding is totally industry with no State funds used. An agreement is made each year with the sponsoring industry. Work is accomplished through a reimbursable contract for enumerator time and travel.

## Performance Measures

	1988-89	1989-90	1990-91
Personal field interviews tabulated .....	4,036	4,200	4,300

## 40 FOOD AND AGRICULTURAL STANDARDS/INSPECTION SERVICES

## Program Objective Statement

This program has diverse program responsibilities involving agricultural regulatory, consumer protection and industry supported grading services. Program elements work cooperatively with county agricultural commissioners, state and federal agencies, agricultural industry groups and marketing order programs. Several program elements operate under cooperative agreements, delegations of authority and contracts with federal agencies. Certain program elements have requirements for federal supervision and federal licensing of state employees. The program objectives are:

1. Consumer protection and industry supported grading services provided to assure fruit, vegetable, nut, honey and shell egg product compliance with state and federal standards or industry standards for quality, grades, labeling and packaging.
2. To regulate the sale, labeling and ingredient guarantees of livestock feed and drug products and fertilizing materials to assure users that products selected will: 1) result in safe and economical production of meat, milk and eggs; and 2) maximize plant productivity.
3. Industry supported grading and weighing services are provided to accurately certify grade, quality and quantity of grain, rice, beans and other like commodities to facilitate orderly marketing and utilization into feed and food products.
4. To provide support to governmental agencies needing chemical or product determinations by providing accurate and timely chemical analyses.
5. To provide support to industry and government agencies by providing accurate and timely technical analysis of agricultural systems.

## 8570 DEPARTMENT OF FOOD AND AGRICULTURE—Continued

## 40.11 Fruit and Vegetable Quality Control

## Program Element Statement

The purpose of this element is to inspect fruits, nuts, vegetables, and honey to assure compliance with minimum legal standards of maturity, quality, packaging, and labeling.

Inspections are performed at production, wholesale, and retail levels by county agricultural personnel who are trained and supervised by State personnel. In addition, County Agricultural personnel operate highway inspection stations to inspect commodities and verify certificates.

The element is also responsible for inspecting avocados to ensure that those offered for sale are certified as meeting minimum standards of quality and maturity. This mandatory inspection and certification is supported by a fee charged on each hundred weight of avocado.

## Performance Measures

	1988-89	1989-90	1990-91

## 40.15 Commercial Fertilizer Control

## Program Element Statement

Approximately four million tons of fertilizing materials are used annually by the producers of food and fiber crops and the home gardner, representing a value of about \$500,000,000.

This component provides protection to the buyers and users of plant food, soil amendments, agricultural minerals and auxiliary soil chemicals.

Users depend upon complete label information for purchase decisions and proper application instructions. Further, the user relies on label integrity to achieve the lowest unit production cost. Mislabeling or adulteration can result in serious economic loss to the user.

Intensive inspection and sampling are used to determine product compliance with State labeling requirements. These activities are supported by registration fees and mill tax assessments.

## Performance Measures

	1988-89	1989-90	1990-91
Fertilizer—commercial fertilizer (tons) .....	2,600,000	2,500,000	2,500,000

## 40.21 Feed and Livestock Drug Control

## Program Element Statement

This component provides protection to producers of livestock and poultry through product registration and label enforcement activities.

Complete labeling is necessary so that producers can select and use products with confidence and efficiency. Inspection, sampling, and laboratory testing assures that commercial feeds and feed additives will not cause illegal drug and pesticide residues or other contaminants in food products purchased by consumers and that such products will be safe and wholesome.

Livestock drugs require registration and proper labeling so that livestock and poultry producers can depend on these products to control disease problems safely and effectively. Random monitoring of the user is performed to ensure that label directions are being followed to prevent the possibility of illegal residues in meat, milk and eggs.

An intensive inspection program supports labeling requirements and conformance with required regulations. It is supported by license fees, registration fees and tonnage tax assessments.

## Performance Measures

	1988-89	1989-90	1990-91
Annual tonnage of commercial feeds .....	10,100,000	10,000,000	10,000,000

## 8570 DEPARTMENT OF FOOD AND AGRICULTURE—Continued

## 40.25 Grain and Commodity Inspection

## Program Element Statement

This component provides inspection and grade certification services for grains, rice, beans, peas, hops, hay, safflower, and certain processed commodities in cooperation with the United States Department of Agriculture. Authority is derived from the United States Grain Standards Act, Agricultural Marketing Act, and California law. An additional activity is supervision of official weighing of grains shipped from and received by export elevators.

Grade and weight certificates issued by the Grain and Commodity Inspection element are generally accepted as proof of quality and quantity and are used as a basis for the domestic and export trade of grain and other commodities. Inspection offices are located throughout California wherever demand for services is sufficient. Except for export grain inspection and weighing activities, the services are voluntary. All services are completely supported by user fees.

## Performance Measures

	1988-89	1989-90	1990-91
Grains: inspection certificates issued .....	63,518	6,400	6,400

## 40.30 Chemistry Laboratory Services

## Program Element Statement

This component provides laboratory services for governmental agencies involved in consumer and industry protection by:

- (1) Analyzing meat products, dairy products, feeds, fertilizers, livestock remedies and pesticides for label guarantees;
- (2) Analyzing milk, meat, produce, plant material, and agricultural commissioners' samples for pesticide residues;
- (3) Analyzing meat and milk for antibiotic and drug residues;
- (4) Analyzing feeds for toxins resulting from mold;
- (5) Performing on location analyses of preharvest food samples and crop foliage to ensure workers' safety and safety of food crops.
- (6) Utilizing two mobile laboratories which are on call for emergency pesticide situations anywhere in the state.
- (7) Performing environmental pesticide monitoring of air, water and soil for pesticide residues.
- (8) Developing and modifying analytical methods for food safety monitoring.
- (9) Administer a national commercial pesticide laboratory accreditation program.

## Budget Adjustments

In 1990-91, the budget proposes 1.9 personnel years and \$262,000 to develop, maintain, and test standards used to calibrate laboratory instruments for the pesticide sampling programs.

## Performance Measures

	1988-89	1989-90	1990-91

## 40.50 Egg Quality Control

## Program Element Statement

The purpose of this component is to inspect eggs and egg products to assure compliance with minimum California and United States Department of Agriculture standards of quality, size and labeling; to assure California consumers only wholesome eggs and egg products of established quality are marketed and properly labeled; to furnish the California egg industry with a means of maintaining a fair and equitable marketing standard.

Inspections are performed at production, wholesale and retail levels by county agricultural personnel who are trained and supervised by California personnel. In addition, California personnel are responsible for the collection of fees on all eggs sold in California. The fees are paid by egg dealers and support the total administrative cost of the program and a portion of the County Agricultural Commissioners' cost of enforcement.

## Performance Measures

	1988-89	1989-90	1990-91

## 40.55 Shipping Point Inspection

## Program Element Statement

The objective of this component is to fill a need in the marketing system for unbiased inspection certification by furnishing third party inspection service when requested by industry and approved by the Director. This service provides applicants with a certificate based on federal, State, or industry standards that accurately describes the quality, condition, grade and size of fresh fruits, nuts and vegetables grown in California and destined for commercial resale or processing usage.

The major benefits are the establishment of an orderly marketing condition, assurance of maximum protection to the allied segments of the agricultural industry, and minimization of losses to producer, processor, buyer, receiver and carrier. Further residual benefits are received by the consumer. Through quality control and economical marketing, both better acceptance and monetary savings are realized.

Shipping Point Inspection is funded by fees charged for inspection and certification of California produce.

## Performance Measures

	1988-89	1989-90	1990-91

## 40.60 Canning Cling Peach Inspection

## Program Element Statement

The purpose of this component is to inspect each load of cling peaches destined for processing for quality; assure the Cling Peach Advisory Board, which operates under a State marketing order program, that quality information is accurate; assure that inspection procedures are uniformly applied statewide; and provide these services economically, efficiently, and safely.

The major benefit of this program is the protection and assistance given to the producer and processor by an impartial third party by providing accurate and uniform analysis of all loads and issuance of an inspection certificate which provides a communicative link between producer and processor for payment purposes. This is a self supporting program.

The cost of the program is borne solely from processor assessments levied on a tonnage fee basis.

\* Dollars in thousands, excluding salary range.

## 40.65 Processing Tomato Inspection

## Program Element Statement

The purpose of this component is to inspect each load of tomatoes destined for processing for quality and color; assure the processing Tomato Advisory Board and industry that grade and color information is accurate; assure that inspection procedures are uniformly applied statewide; and provide this service economically, efficiently, and safely.

The major benefit of this program is the protection and assistance given to the producer and processor by an impartial third party by providing accurate and uniform analysis of every load of canning tomatoes and issuance of an inspection certificate which provides a communicative link between producer and processor for payment purposes.

The program is entirely self supporting. The inspection fee is shared equally by the producer and processor.

## 40.70 Wine Grape Inspection

## Program Element Statement

The purpose of this component is to inspect all required loads of wine grapes destined for processing for rot, foreign material, and soluble solids (sugar content); assure industry that grade and soluble solid information is accurate; assure inspection procedures are uniformly applied statewide; and provide these services economically, efficiently, and safely. The major benefit of this program is the accurate and uniform analysis of every load requiring inspection and the issuance of an inspection certificate which provides a communicative link between producer and vintner for payment purposes. This is a self supporting program.

The total cost of the program is paid through inspection fees charged equally to the producer and vintner.

## 40.75 Garlic and Onion Inspection

## Program Element Statement

The purpose of this component is to inspect all required deliveries of onions and garlic destined for dehydration.

The program assures that grade standards are applied uniformly and accurately statewide and that the inspection is done economically, efficiently, and safely.

The primary benefit of the program is the accurate and uniform analysis of every load requiring inspection and the issuance of an inspection certificate which provides a communicative link between the grower and dehydrator for payment purposes.

The program is entirely self-supporting. The inspection fee is shared equally by the grower and dehydrator.

## 8570 DEPARTMENT OF FOOD AND AGRICULTURE—Continued

## 40.80 Agricultural Resources

## Program Element Statement

Agricultural Resources manages projects, evaluates and recommends policies related to agricultural resources, such as land, water, and energy. Agricultural Resources coordinates agricultural weather activities in the state. Agricultural Resources tests and demonstrate solutions to technological, economic and ecological aspects of farm production in order to meet the demands of the agricultural industry and the general public. Agricultural Resources represents the Department in the California Environmental Quality Act process. Departmental services are provided, such as quality assurance designs, and technical, statistical and economic projects. The Agricultural Resources Branch works extensively in cooperation with State and Federal agencies, agriculture industry groups, agricultural commissioners, and individual farmers to develop systems to maximize plant (farm) productivity and economic viability.

## Budget Adjustments

In 1990-91, the following budget adjustments are proposed:

- Transfer of the reporting responsibility of Program element 80.40 Agricultural Resources from Program 80 General Agricultural Activities and Emergency Funding to Program 40 Food and Agricultural Standards/Inspection Services. The transfer to Program element 40.80 reflects the actual reporting structure of this element.
- \$156,000 to continue agroforestry research concentrating on the selenium problem in the San Joaquin Valley focusing on the interaction between wildlife and agriculture.

## 50 MEASUREMENT STANDARDS

## Program Objectives Statement

In order to provide a basis of value comparison for consumers and fair competition for industry, the Division of Measurement Standards is responsible for providing the standards of measurement necessary for the use of commercial weighing and measuring devices; quantity verification of both bulk and packaged sales of goods and commodities; and quality, advertising and labeling standards for most petroleum products. In excess of \$350 billion of commerce is subject to the standards of weights and measures. The Division works closely with county weights and measures officials who, under the direction and supervision of the Director, carry out the majority of the local weights and measures enforcement activities. During the last budget year, county contributions to weights and measures activities exceeded \$12.6 million.

## 8570 DEPARTMENT OF FOOD AND AGRICULTURE—Continued

## 60 FINANCIAL AND ADMINISTRATIVE ASSISTANCE TO LOCAL FAIRS

## Program Objectives Statement

The State has a total of 80 county fairs, citrus fruit fairs and district fairs. The majority of county fairs are conducted by nonprofit corporations under contract with county boards of supervisors. Citrus fruit fairs are State instrumentalities operated by nonprofit corporations. District fairs are operated by district agricultural associations, which are State institutions with Governor-appointed directors. State support for these local fairs is administered by the Division of Fairs and Expositions, which oversees budget approval and the capital outlay program.

## Budget Adjustments

In 1989-90, the budget includes an authorization to expend \$106,000 and .8 personnel years for contracting additional audit activities in the Fairs and Exposition Division.

In 1990-91, the following budget adjustment is proposed:

- \$431,000 and 3.8 personnel years to continue the audit activities and address the additional workload associated with the Fairs and Exposition Division.

## 70 EXECUTIVE, MANAGEMENT, AND ADMINISTRATIVE SERVICES

## Program Objectives Statement

The objectives of this program are to provide active leadership to meet current and future agriculture problems and to assist the Department in meeting its overall goal through timely, efficient support services.

Executive management includes the executive leadership of the Director's Office and the staff services associated with it. The Director's Office sets priorities and policies which recognize and meet the current and long-range needs of the agribusiness community of this State and which help protect the health and welfare of its people.

Administrative Services provides centralized administrative support to the Department through fiscal operations, employee/employer relations, personnel management, employee training and development, data processing, general business services and audits.

## 80 GENERAL AGRICULTURAL ACTIVITIES AND EMERGENCY FUNDING

## Program Objectives Statement

The objectives of this program are to:  
 Secure more adequate and uniform enforcement of the provisions of the Food and Agricultural Code through sharing in the payment of salaries of county agricultural commissioners;  
 Participate in the preservation of prime agricultural lands under the authority of the Land Conservation Act of 1965; and  
 Partially reimburse counties for carrying out agricultural programs authorized by the Food and Agricultural Code under the supervision of the Department of Food and Agriculture.  
 Provide emergency funding for unanticipated outbreaks of plant and animal diseases and pests, and funding for administrative support of agricultural programs.

## Budget Adjustment

In 1990-91, Program element 80.40 Agricultural Resources is being transferred to Program 40 Food and Agricultural Standards/Inspection Services as Program element 40.80 to reflect the actual reporting structure of this element.

## 80.10 Salaries of County Agricultural Commissioners

## Program Element Statement

To secure more adequate and uniform enforcement of the provisions of the Food and Agricultural Code, the State participates in the payment of salaries of the county agricultural commissioners as provided by Sections 2221 through 2224 of the Food and Agricultural Code. Participation is limited to the lesser of \$6,600 per year or two-thirds of the salary of each commissioner.

Expenditures (Local Assistance) (General Fund) .....	\$383	\$383	\$383

\* Dollars in thousands, excluding salary range.

## 8570 DEPARTMENT OF FOOD AND AGRICULTURE—Continued

## 80.20 Payment to Counties for Agricultural Programs

## Program Element Statement

Section 8352 of the Revenue and Taxation Code provides for the annual transfer of gasoline taxes applicable to agricultural use from the Motor Vehicle Fuel Account, Transportation Tax Fund, to the Department of Agriculture Fund. Section 224(c) of the Food and Agricultural Code provides that of the funds transferred each year, the amount in excess of \$1,500,000 is to be paid to counties as partial reimbursement for county expenses incurred in carrying out agricultural programs authorized by the Food and Agricultural Code. These payments are apportioned to the counties by the Director of Food and Agriculture in the percentage relationship that each county's expenditures for such agricultural programs during the preceding fiscal year bear to the total amount expended by all counties.

## Input

	1988-89*	1989-90*	1990-91*
Expenditures (Local Assistance) (Agriculture Fund) .....	\$4,451	\$5,100	\$7,618

## 80.30 Unclaimed Gas Tax—Emergency Fund

## Program Element Statement

The purpose of this element is to provide contingency funds for agricultural emergencies.

Section 8352 of the Revenue and Taxation Code provides for the annual transfer of unrefunded gasoline taxes applicable to agricultural use from the Motor Vehicle Fuel Account Transportation Tax Fund, Motor Vehicle Fuel Account to the Agriculture Fund.

Section 224(a) of the Food and Agricultural Code provides that of the funds transferred each year, \$500,000 is appropriated for reimbursement for charges for State administrative costs and for departmental and divisional overhead expense apportioned to the Agriculture Fund. The Agriculture Fund supports elements under both annual appropriation and continuing appropriations.

The portion of the \$500,000 applicable to the elements supported by annual appropriation is shown in the individual elements within this budget.

Section 224(b) of the Food and Agricultural Code provides that of the funds transferred, \$1,000,000 is appropriated for emergency detection, eradication, or research. If not used for the purpose in the year of transfer, the balance of any transfer is appropriated for payment in the following year to counties as reimbursement for their expenses in carrying out agricultural programs authorized by the Food and Agricultural Code.

## Input

Net Expenditures (Agriculture Fund 224(b)).....	—	—	\$1,000
Emergency Reserve .....	—	—	1,000

## 80.40 Agricultural Resources

## Program Element Statement

Agricultural Resources manages projects, evaluates and recommends policies related to agricultural resources, such as land, water, and energy. Agricultural Resources coordinates agricultural weather activities in the state. Agricultural Resources tests and demonstrate solutions to technological, economic and ecological aspects of farm production in order to meet the demands of the agricultural industry and the general public. Agricultural Resources represents the Department in the California Environmental Quality Act process. Departmental services are provided, such as quality assurance designs, and technical, statistical and economic projects. The Agricultural Resources Branch works extensively in cooperation with State and Federal agencies, agriculture industry groups, agricultural commissioners, and individual farmers to develop systems to maximize plant (farm) productivity and economic viability.

## Budget Adjustments

In 1990-91, the budget proposes to transfer the entire program element to Program 40—Food and Agricultural Standards/Inspection Services in program element 40.80.

## 8570 DEPARTMENT OF FOOD AND AGRICULTURE—Continued

## 80.60 Agricultural Export Program

## Program Element Statement

The goal of this program is to encourage and promote the sale of agricultural products of California in foreign markets to assist farmers, processors, distributors and exporters in meeting world market needs. The program will provide long-term farm profitability by creating stable overseas markets among foreign buyers that need and can afford to purchase California's products. This will be accomplished through project agreements with cooperators wherein the cooperator agrees to conduct activities that both address constraints and encourage development or maintenance of agricultural commodity export sales. Cooperators will be required to provide an annual contribution equal to or greater than the amount of State funds utilized for each project agreement. Export promotion is also achieved by maintaining an electronic trade leads system that matches foreign importers with California sellers; and conducting an active, aggressive market development program designed to increase demand for California's agricultural products through trade shows, buyers' missions and in-store promotions.

## Budget Adjustment

In 1990-91, the budget proposes an additional \$1,000,000 from the Unitary Fund to provide funding for additional project agreements.

<sup>2</sup> This fund contains tax proceeds subject to the State Appropriations Limit, Article XIIIB of the Constitution. In addition to the amounts reflected as expenditures in this statement, appropriations subject to the limit are adjusted for increases or decreases in the fund's Reserve for Economic Uncertainties and do not include any amounts expended for debt service, subventions to local government, compliance with federal or court mandates and from appropriations made in previous years (carryovers). Additional information on the State Appropriations Limit is provided in the Governor's Budget Summary.

\$854 PWck

\$200 PWb

\$2,100 Cb

90.47.015 Plant Industry Laboratory

—

326 Pe

424 Wk

Project consists of a new two-story, 47,470 gsf laboratory with a 950 gsf warehouse for lab entities and administrative support. This will resolve the overcrowded laboratory currently in use as well as health and safety issues.

90.47.020 Chemistry Lab HVAC &amp; Hoods Replacement and Space Retrofit

—

—

162 PWk

Upgrades 44 old laboratory fume exhaust hoods, motors and blowers, and four HVAC roof top units; adds remote air intakes and an air filtering system to existing Chemistry Laboratory. This will resolve various code requirements and replace obsolete and inadequate systems. Also, adds fume exhaust hoods, benches, walk-in refrigerator, solvent/waste storage building, and other miscellaneous alterations to retrofit space vacated by staff moving to the new chemistry lab.

## 8620 FAIR POLITICAL PRACTICES COMMISSION

The Fair Political Practices Commission has primary responsibility for the impartial administration and implementation of the Political Reform Act of 1974. The objectives of the Political Reform Act are to: (1) ensure that election campaign expenditure data is fully and accurately disclosed so that the voters may be fully informed and to inhibit improper financial practices; (2) regulate the activities of lobbyists and disclose their finances to prevent any improper influencing of public officials; (3) provide for the disclosure of assets and income of public officials which may affect their official actions to avoid any conflicts of interest; (4) ensure that the state ballot pamphlet contains useful and adequate information so that the voters will not be entirely dependent upon paid advertising for information concerning state measures; (5) eliminate laws and practices that unfairly favor incumbents to provide for fair elections; and, (6) provide adequate mechanisms to public officials and to private citizens to ensure vigorous enforcement of the Act. To fulfill this responsibility the Commission adopts rules and regulations; issues opinions to persons who request them; prepares and publishes manuals and instructions to facilitate compliance with and enforcement of the Act; provides assistance to agencies and public officials in administering the Act; investigates possible violations; conducts hearings and applies sanctions provided by the Act; provides technical assistance to state and local agencies in the preparation of conflict of interest codes; and, reviews and approves the codes of state agencies, county boards of supervisors, city councils, and all local government agencies with jurisdiction in more than one county.

## AUTHORITY

Government Code, Title 9.

10 Fair Political Practices Commission .....	\$4,268	\$5,643	\$5,749
TOTALS, PROGRAM ( <i>General Fund</i> ) .....	\$4,268	\$5,643	\$5,749
Personnel years .....	63.8	87.2	89.1

## MAJOR BUDGET ADJUSTMENTS

In 1989-90, the budget included an appropriation of \$1,373,000 and 23.8 personnel years for funding the implementation, administration and enforcement of Propositions 68 and 73 as mandated by the June 7, 1988 election (Campaign Reform Initiatives).

Chapter 1452/89, (SB 1431) appropriated \$150,000 in 1989-90 to fund the first year costs of shifting the enforcement responsibility for regulations related to the personal use of campaign funds from the Attorney General to the Commission.

In 1990-91, the budget proposes \$164,000 and 3.8 personnel years to continue funding the provisions of Chapter 1452/89 (SB 1431).

## SUMMARY BY OBJECT

## 1 STATE OPERATIONS

## 8640 POLITICAL REFORM ACT OF 1974

## Program Objectives Statement

Chapter 10, Statutes of 1974, requires the Department of Finance, in preparing the State budget and the Budget Bill submitted to the Legislature, to include in the budget an item dealing with the support of the Political Reform Act of 1974: (1) the additional amounts to be appropriated to other agencies to carry out their duties under the act, which amounts shall be in augmentation of the support items of such agencies; (2) the additional amounts required to be appropriated by the Legislature to the Fair Political Practices Commission to carry out its duties; and (3) in parentheses, for informational purposes to show the continuing appropriation adjusted for cost-of-living changes made to the Commission by the Political Reform Act during each fiscal year.

The Political Reform Act detail for each affected agency will be found under their respective program budgets as identified in the following table.

## Authority

Government Code Section 83122.

For the list of standard (lettered) footnotes, see the end of the Governor's Budget.

## 8660 PUBLIC UTILITIES COMMISSION

The objectives of the Public Utilities Commission are:

1. To provide the public with the lowest reasonable rates for services by utilities and transportation companies.
2. To make certain that utilities and transportation companies render adequate service and have sufficient facilities to meet the needs of the public.
3. To ensure that the public has stable, efficient utilities and transportation services by controlling and limiting entry into the field to those applicants with financial responsibility and demonstrated capability to render adequate service.
4. To promote public safety and accident reduction by establishing and enforcing safety regulations for utility and transportation companies, as well as for railroad highway grade crossings.
5. To determine the just compensation for the acquisition of utility or transportation company property by political subdivisions of the State.

## SUMMARY OF PROGRAM REQUIREMENTS

## 8660 PUBLIC UTILITIES COMMISSION—Continued

## 10 REGULATION OF UTILITIES

## Program Objectives Statement

Utilities in California have been granted exceptional powers and privileges by the State, including exclusive service areas, which preclude customers from obtaining service from others. State regulation is necessary to protect the public interest and ensure fair and impartial rates as well as adequate service facilities rendered by stable, financially responsible companies. Regulatory controls have also been established to promote the safety of employees, customers and the public at large.

The objective is to provide the public with adequate and safe utility services at the lowest reasonable rates.

## Budget Adjustments

In 1989-90, the following budget adjustments are reflected:

- \$90,000 for Chapter 345, Statutes of 1989 which requires the PUC to study and report on unsolicited telefacsimile advertising.
- \$96,000 for Chapter 814, Statutes of 1989 which requires the PUC to publish its decisions and orders.
- \$1,500,000 in reimbursements to prepare an environmental impact report for a proposed interstate natural gas pipeline.
- \$2,637,000 in reimbursements to review a proposed merger of Southern California Edison Company and San Diego Gas and Electric Company.

In 1990-91, the following budget adjustments are proposed:

- An increase of 3 positions (2.8 personnel-years) and \$201,000 to participate in Federal Energy Regulatory Commission interstate natural gas proceedings.
- An increase of \$155,000 for personal computers capable of performing necessary data analysis/modeling.
- An increase of 2 positions (1.9 personnel-years) and \$124,000 to conduct financial audits of water utilities.
- An increase of \$160,000 in Teale Data Center services to utilize auditing software.
- An increase of 1 position (1 personnel-year) and \$55,000 for Chapter 796, Statutes of 1989, which directs the Commission to require energy utilities to promote the use of clean air vehicles.
- An increase of 2 positions (1.9 personnel-years) and \$77,000 for Chapter 1014, Statutes of 1989, which directs the Commission to establish operating requirements for nonpublic utility providers of telephone service.

## Authority

California Constitution, Article XII; Public Utilities Code, Division 1, 2, and 4.

10.40 Safety .....	14.7	13.3	13.3	1,279	1,522	1,456

## 10.10 Regulation of Rates

## Program Element Statement

The Commission's responsibility for the establishment and maintenance of reasonable rates for utility service is accomplished by making intensive studies of cost of service, cost of plant, earnings and financial analyses which are entered into evidence at public hearings. Similar studies are made to form the basis for negotiated rate settlements and reductions. The Commission's attorney represents the people of the State of California and the Commission in all proceedings involving any questions under the Public Utilities Act and any order or act of the Commission. The Commission participates in rate and certification proceedings before federal regulatory commissions and in the courts.

Reimbursements .....	1,191	4,056	1,419

## 10.20 Service and Facilities

## Program Element Statement

Utility services are regulated through Commission orders issued as a result of investigations, studies and public hearings related to the adequacy of service and facilities. A large part of new facilities are financed through the issuance of stocks or bonds which require Commission authorization prior to issuance. The control and supervision of financing practices of utilities is essential because of the effect of such practices on capital costs and the availability of capital funds, both important elements in providing adequate service at reasonable costs to utility customers. Commission authorization is required for security issuance and such related matters as transfers of utility properties, mergers and consolidations for the purpose of assuring sound, well-balanced financing and capital structures.

With a continual growth in the general population and the number of customers in the State, the number of service connections and the related activities of maintaining adequate service and facilities will also continue to expand.

## Performance Measures

	1988-89	1989-90	1990-91
Water supply and service investigations completed .....	60	60	60
Energy service investigations and reports .....	95	100	100

Public Utilities Commission Utilities Reimbursement Account .....				2,134	3,270	3,034

## 10.30 Certification

## Program Element Statement

Before utilities can exercise any rights or privileges of franchise, they must obtain certification that public convenience and necessity require their exercise of these rights.

New or existing entities file applications for certification of public convenience and necessity to construct or extend facilities to areas not previously serviced. The processing of the application involves studies and investigations covering financing programs, operations and reasonableness of initial rates.

The number of decisions issued gives a reasonable measure of output and shows how utility service is being reviewed for the benefit of the consuming public in California.

## Performance Measures

## 8660 PUBLIC UTILITIES COMMISSION—Continued

## 10.40 Safety

## Program Element Statement

The safety element of the Commission's regulation of utilities program is divided into three components: gas safety, electric safety and telephone safety.

In its endeavor to meet the objectives of this element, the Commission establishes minimum standards for the construction, operation and maintenance of utility plants to promote the health and safety of employees and the public.

Accident reports and other utility reports are made to ensure that these standards are maintained. This is accomplished through field investigations, tests of utility plants and examination of methods of construction, operating procedures and maintenance; and public hearings where appropriate.

## Performance Measures

## 20 REGULATION OF TRANSPORTATION

## Program Objectives Statement

The Commission regulates various privately owned for-hire passenger and freight transportation companies including motor carriers, railroads, vessels and pipelines as well as transit guideway systems. The program for the regulation of transportation protects the public interest in matters relating to rates, service, licensing and safety. Authority comes from statutory and constitutional provisions.

The main responsibilities of the program are: (1) to maintain a healthy, efficient and competitive transportation system; (2) to ensure public access to services with rates which are just, reasonable and free from unlawful discrimination; (3) to promote competitive price options for a range of service levels in response to market demands; (4) to enforce rates, rules, regulations and statutory requirements; (5) to enforce requirements for permits and licenses to operate transportation services and collect related fees; and (6) to ensure safety of rail transit systems and railroad-highway crossings.

The Commission's regulatory responsibilities are discharged through administrative actions and through decisions and orders which, except for non-contested matters, are based on evidence presented by staff and interested parties in public hearings.

## Budget Adjustments

In 1988-89, the following budget adjustments are reflected:

- An increase of \$41,000 for Chapter 814, Statutes of 1989 which requires the PUC to publish its decisions and orders.
- An increase of 4 positions (1.9 personnel-years) and \$95,000 for Chapter 1240, Statutes of 1989, which requires workers' compensation insurance for highway carriers.

In 1990-91, the following budget adjustments are proposed:

- An increase of 4 positions (3.8 personnel-years) and \$254,000 for safety inspection of railroad equipment track and signal devices.
- An increase of 5 positions (4.8 personnel-years) and \$160,000 to reflect the full-year cost of Chapter 1586, Statutes of 1988 (commercial motor vehicle safety).
- An increase of 2 positions (1.9 personnel-years) and \$72,000 to reflect the full-year cost of Chapter 1105, Statutes of 1988 (unlawful limousine operators).
- An increase of 14 positions (6.7 personnel-years) and \$427,000 for Chapter 1025, Statutes of 1989, which directs the Commission to register private highway carrier operations.
- An increase of 4 positions (3.8 personnel-years) and \$95,000 for Chapter 1240, Statutes of 1989, which directs the Commission to require workers' compensation insurance for highway carriers.
- An increase of 1 position (1 personnel-year) and \$31,000 for Chapter 1322, Statutes of 1989, which directs the Commission to participate in a program for commercial vehicle inspection facilities.

## 20.10 Regulation of Rates

## Program Element Statement

The rate element of the transportation regulation program provides for Commission oversight of pricing activities of trucking firms, railroads, passenger bus lines, vessel carriers, pipelines and related companies.

The Commission approves and establishes freight rates and passenger fares in accordance with constitutional and statutory requirements that such prices be just, reasonable and nondiscriminatory. Rate regulation varies in form according to mode of transportation, carrier and commodity classifications within modes, but it is generally directed to ensuring adequate service, efficient operations, equal competitive opportunity and freedom from destructive rate wars.

The Commission supervises carrier pricing practices through informal staff activities as well as through formal quasi-legislative and quasi-judicial proceedings. The public has the right to petition, complain and seek judicial review of all rates subject to Commission regulation.

A variety of activities related to rate and fare regulation are performed in Commission offices throughout the State. The Commission maintains as legal documents open to public inspection, tariffs and contracts filed by carriers or their agents. Rate and fare filings are reviewed in accordance with statutory and administrative criteria and are then either accepted or rejected. Evaluation of price adjustments involves cost factor research, cost allocation studies, prevailing wage criteria and other economic studies. Information and assistance concerning rates, fares and regulations are furnished to carriers and the general public upon request. An important aspect of rate regulation is the enforcement of rates and rules to ensure uniform observance by all carriers.

## Performance Measures

Number of tariffs analyzed and filed with the Commission:	1988-89	1989-90	1990-91
Property:			
Motor carrier .....	43,500	60,000	70,000
Number of motor carrier (property) transportation contracts analyzed and filed with Commission .....	5,300	6,000	6,000
Number of formal applications processed ex parte .....	33	40	40
Number of Shortened Procedure Tariff Docket applications .....	87	107	107
Number of Shortened Procedure Tariff Docket applications (General Order 109) .....	18	14	14
Number of cost justification and deviation filings analyzed .....	1,366	1,249	1,249
Number of motor carrier (property and passenger) compliance investigations .....	811	650	520
Number of formal and informal disciplinary actions for rate violations .....	404	400	375
Amount of fines and undercharges assessed (thousands) .....	\$1,288	\$1,200	\$1,000

Expenditures .....	122.6	130.3	126.5	\$11,268	\$12,443	\$12,835
Transportation Rate Fund .....				10,873	11,762	12,155
Public Utilities Commission Transportation Reimbursement Account .....				395	681	680

## 20.20 Service and Facilities

## Program Element Statement

This element includes four functions: freight service, passenger operations, rail transportation and consumer protection.

The Commission is responsible for ensuring that an adequate level of service is provided by carriers of property. It must evaluate such service with regard to geographical areas (particularly small communities), types of commodities, classes of shippers and volume of shipments. The program considers service level changes, discontinuance of service and the desirability of new service. Traffic flow and other operating performance reports are made available to the public and transportation companies and staff who monitor carrier service.

The Commission is empowered by the State Constitution and statutes to regulate the operations of most privately-operated passenger carriers in California. The Commission performs in-depth investigations and analyses of the service provided by passenger carriers, and formulates policies, procedures and regulations affecting numerous carrier services including intercity buses, charter-party carriers, home to work carriers, airport access and other specialized services.

Commission staff consult with passenger carriers to develop new bus services and improve and coordinate existing services and routes.

By maintaining carrier tariffs and timetables, the Commission staff ensures that the passenger carriers fulfill their service obligations of providing reliable transportation.

To ensure adequate train service, the Commission analyzes passenger and freight train operations, facilities and equipment in light of existing service and proposed service changes. The analyses include investigations and reports, as well as testimony before the Public Utilities Commission and Interstate Commerce Commission in hearings on proposals of railroads to initiate and discontinue privately operated passenger trains, merge railroad companies and abandon rail lines. The Commission consults and advises other government agencies on the establishment of new rail service and improvement of existing service including intermodal facilities necessary for interurban rail passenger service.

The Commission staff responds to consumer complaints regarding motor freight and passenger transportation. Many of these complaints involve loss or damage of used household goods or general freight. Other complaints are concerned with passenger service or lack of service by common carriers who are obligated by the terms of their certificates to serve certain geographical areas. Rules are established for consumer protection which include provisions for loss and damage claims on property shipments and compliance with passenger service standards as set forth in tariffs and timetables. The Commission provides public information and assistance for resolving service complaints and has offices located throughout the State.

Performance Measures	1988-89	1989-90	1990-91
Number of loss and damage claims oversight .....	90	95	100
Amount of claims .....	\$35,614	\$40,000	\$45,000
Informal complaints—passenger matters .....	103	150	175
Passengers affected by complaints .....	150	200	225

\* Dollars in thousands, excluding salary range.

## 20.30 Licensing

## Program Element Statement

The Transportation Division administers programs which control entry, continuance and discontinuance of for-hire transportation companies. The Commission's licensing responsibilities include:

1. Public utility motor carriers of property.
2. Public utility bus and other passenger motor carriers.
3. Vessels which carry passengers and property.
4. Express corporations, freight forwarders and motor transportation brokers.
5. Interstate and foreign motor carriers operating in California.
6. Commercial air operators.

The Licensing element has four functions:

1. Evaluation of the need for passenger and freight transportation services and issuance of the kinds and numbers of operating authority which will adequately satisfy this need.
2. Determination of the character and amount of insurance and bonds required to protect the public. Verification of minimum insurance coverage by the regulated carriers.
3. Development of financial, operational and managerial standards required for entry into specific classes of carriers.
4. Support functions including collection of fees and taxes.

The Licensing element responsibilities are performed by three branches of the Transportation Division. Passenger matters relating to buses, railroads and vessels and verification of insurance coverage for commercial air operators are assigned to the Passenger Operations Branch. Administrative control for freight motor carrier operators is the responsibility of the Tariff and License Branch. Both of these branches rely on the Compliance and Enforcement Branch to implement statutory and Commission established license standards and requirements by obtaining compliance of the affected businesses.

Performance Measures	1988-89	1989-90	1990-91
Applications for motor carrier operating authority (property):			
Certificates .....	349	375	400
Permits .....	5,978	6,400	6,600
Suspension, revocation and reinstatements of motor carriers of property permits and certificates .....	34,930	37,000	38,000
Insurance, subhaul and COD bond filings, cancellation and reinstatement transactions for motor carriers of property .....	105,573	107,000	109,000
Quarterly Revenue Reports submitted for motor carriers of property .....	96,264	98,000	98,500
Quarterly Revenue Reports submitted for motor carriers of passengers .....	1,618	1,800	1,900
Applications for charter party carrier certificates, permits and renewals .....	1,900	2,000	2,200
Carrier operating authority investigation:			
Property .....	1,761	2,000	2,500
Passenger .....	195	300	400
Superior Court restraining orders secured on unlicensed passenger carriers .....	9	15	20
Road Checks Conducted:			
Interstate registration/intrastate operating authority .....	56	60	70
Corrective actions regarding operations during insurance suspension, or failure to comply with subhaul or COD regulations, including bonding requirement:			
Formal and informal disciplinary actions .....	101	120	150
Fines assessed (thousands) .....	\$142	\$150	\$160
Misdemeanor Court filings .....	80	100	120
Registration of interstate motor carriers (property) .....	2,576	2,700	2,900
Registration of interstate motor carriers (passenger) .....	61	70	80
Identification stamps issued to interstate motor carriers (property) .....	291,976	300,000	320,000
Identification stamps issued to interstate motor carriers (passenger) .....	2,096	2,200	2,300
Carriers contacted regarding delinquent subhaul payments .....	70	80	90
Amounts of payments secured for subhaulers (thousands) .....	\$242	\$250	\$260
Responses to requests for information from public and carriers:			
Property .....	142,100	150,000	160,000
Passenger .....	10,303	12,000	14,000

Public Utilities Commission Transportation Reimbursement Account .....				3,177	3,405	3,644

## 20.40 Safety

## Program Element Statement

The safety element in the regulation of transportation program is divided into the following functions: railroad, grade crossing, rail rapid transit and public transit guideway and highway carrier operations. The railroad safety function is concerned with the promotion, adoption and enforcement of safe and efficient operations by railroads and the maintenance of their facilities in compliance with Commission orders and State law. In the grade crossing function, the Commission evaluates the need for the installation of automatic protection devices, the closure of unnecessary crossings and the construction of underpasses or overpasses at dangerous railroad-highway crossings. The rail rapid transit and public transit guideway safety functions provide independent safety oversight of all planned and operating rail transit and fixed guideway transit systems. In the highway carrier operations function, coordination is maintained with the California Highway Patrol and other law enforcement agencies and the Department of Motor Vehicles to ensure that carriers authorized by the Commission to operate are inspected for mechanical deficiencies and proper maintenance procedures.

## 20.50 Just Compensation

## Program Element Statement

Upon petition by a political subdivision, the Commission determines the just compensation for the acquisition of a transportation company's property. The determination of just compensation and the terms and conditions or compensation involve valuation, depreciation, appraisal and financial studies.

## Performance Measures

No work is planned in this element until a political subdivision of the State makes a formal request for such services.

## 30 ADMINISTRATION

## Program Objectives Statement

The objective of this program is to provide the divisions with administrative support through fiscal, personnel and training, electronic data processing, business services and other management functions. Activities in this program also consist of the following: (1) to consolidate management and program and formulate policy and program development, (2) to assist the legal, financial and technical staff in maintaining divisional objectives, (3) to evaluate workload for identification of deficiencies in program requirements, and (4) to provide a liaison between the public and the utilities for the resolution of consumer complaints.

## Budget Adjustments

In 1990-91, the following budget adjustments are proposed:

- An increase of 2 positions (1 personnel-year) and \$40,000 to continue a San Diego office of the Public Advisor through completion of the Southern California Edison Company—San Diego Gas and Electric Company merger proceeding.
- An increase of \$389,000 in equipment to replace the mainframe computer.
- An increase of \$40,000 in equipment to upgrade computer room air conditioning.
- An increase of 1 position (1 personnel-year) and \$30,000 to process an increased volume of personnel transactions.
- An increase of \$263,000 in facilities operations for scheduled building maintenance.
- An increase of \$322,000 in facilities operations to reflect an increase in building mortgage payments.

## 8700 BOARD OF CONTROL

The primary objectives of the Board of Control pursuant to Government Code Section 13900, et seq., are:

1. To consider and settle claims against the State in an orderly and impartial manner and to reduce the number of items requiring legislative review or judicial adjudication.
2. To provide equitable allowances to State officials for travel, relocation expenses and other reimbursements specifically assigned to its jurisdiction.
3. To protect the public against arbitrary or capricious acts of State agencies in the procurement of supplies and equipment.
4. To compensate innocent victims of violent crimes for documented financial losses associated with the crime.

For the list of standard (lettered) footnotes, see the end of the Governor's Budget.

\* Dollars in thousands, excluding salary range.

11	Citizens Indemnification—Additional analytical and clerical staff, overtime and related operating expenses .....	24.7	\$1,237
11	Citizens Indemnification—Additional Federal Funds .....	—	3,110

## 11 CITIZENS INDEMNIFICATION

## Program Objectives Statement

This program indemnifies those citizens who are injured and suffer financial hardship as a result of a crime, or who sustain damage or injury while performing acts which benefit the public. The victim of a crime, a citizen performing an act beneficial to the public, or any person dependent upon the victim or citizen for support may file a claim with the State Board of Control. Eligibility is determined by the Board, as authorized by Chapter 1144, Statutes of 1973, after an investigation of the claim is conducted by the staff. The Board currently contracts with 22 local Victim Witness Centers for the processing of a portion of these claims.

## Budget Adjustments

For 1990-91, the budget proposes the following adjustments:

- Add 24.7 personnel years (one-year limited-term) and \$1,237,000 to process the increasing number of claims and to ensure that the program provides expeditious assistance to victims of crime.
- Increase federal funds by \$3,110,000 pursuant to the approved contract for victims' restitution.

## 21 HAZARDOUS SUBSTANCE CLAIMS

## Program Objectives Statement

Chapter 756, Statutes of 1981 mandated a new program and function for the Board of Control. This statute allows reimbursement to claimants for personal injury and property damage as a result of a hazardous or toxic substance released in the environment.

Program Requirements	88-89	89-90	90-91	1988-89*	1989-90*	1990-91*
Continuing program costs .....	1.0	0.3	0.3	\$18	\$20	\$20
Reimbursements .....	—	—	—	18	20	20

\* Dollars in thousands, excluding salary range.

8700 BOARD OF CONTROL—*Continued*

## 31 CIVIL CLAIMS AGAINST THE STATE

## Program Objectives Statement

This function receives, processes and investigates all claims for money or damages against the State. Tort liability claims approved by the Board of Control are paid from funds appropriated for that purpose. Equity claims approved by the Board are either paid administratively or are referred to the Legislature for payment under an omnibus claims bill.

Program Requirements	88-89	89-90	90-91	1988-89*	1989-90*	1990-91*
Continuing program costs .....	19.3	23.1	23.1	\$1,077	\$4,746	\$1,231

## 46 STATEWIDE PRO RATA INTERAGENCY AGREEMENT

## Program Objectives Statement

Government Code Sections 11270-11277 mandate the determination of the amounts that funds, other than the General Fund, shall be charged as their fair share of statewide administrative (i.e., statewide pro rata) costs. As amended by Chapter 782, Statutes of 1988, these Code Sections require the Department of Finance to make the determination of the charges while the Board is responsible for hearing all protests by agencies against their share of the charges for reasons other than lack of availability of funds. Beginning in 1989-90, the budget reflects the transfer of funds for the cost of preparing the statewide administrative costs plan from the Board to the Department of Finance.

Program Requirements	88-89	89-90	90-91	1988-89*	1989-90*	1990-91*
Continuing program costs (General Fund) ..	—	—	—	\$46	—	—

## 51 ADMINISTRATION

## Program Objectives Statement

The administrative function provides direction to the Board of Control staff in response to the tenor set by the Board; serves as liaison between the Legislature and the Board; provides personnel and budget services to all programs under the jurisdiction of the Board of Control; and acts on behalf of the Board in matters specifically delegated by the Board.

## 8730 COMMISSION ON STATE FINANCE

## Program Objective Statement

The Commission on State Finance was created by Chapter 1162, Statutes of 1979, effective January 1, 1980. The Commission consists of seven members or their designees: the President pro Tempore of the Senate, the Speaker of the Assembly, the Senate Minority Floor Leader, the Assembly Minority Floor Leader, the Director of Finance, the State Controller and the State Treasurer.

The objective of the Commission is to aid the Legislature and the Governor in establishing an appropriate, timely and coordinated fiscal policy for the State by providing them and the public with independent forecasts of State revenues, expenditures and the surplus or deficit at least four times a year.

The Commission also has the responsibility to produce an annual long-range forecast of General Fund revenues and expenditures extending ten years into the future. The Commission prepares semi-annual reports assessing the impact of selected federal government expenditures on California's economy, revenues and employment. The Commission also computes the California Necessities Index used to determine annual cost of living adjustments for various health and welfare programs.

To carry out its duties the Commission is empowered to examine the records of State agencies, hold hearings and contract for studies and reports.

## Authority

Government Code, Title 2, Division 3, Part 3.2, Section 13885-13894.

8780 COMMISSION ON CALIFORNIA STATE GOVERNMENT  
ORGANIZATION AND ECONOMY

## Program Objectives Statement

The Commission on California State Government Organization and Economy, created in 1961, is composed of two members of the Senate, two members of the Assembly and nine citizen members—five appointed by the Governor and four appointed by the Legislature.

The Commission's objective is to provide assistance to the Governor and the Legislature in promoting economy, efficiency and improved service in State government. The Commission pursues that objective by conducting studies and making recommendations to the Governor and the Legislature concerning the organization, operation and performance of State agencies.

## Authority

Government Code Sections 8501 to 8541.

## 8800 MEMBERSHIP IN INTERSTATE ORGANIZATIONS

### COUNCIL OF STATE GOVERNMENTS

#### Program Objectives Statement

The Council of State Governments (CSG) was established in 1933 to foster interstate cooperation and improve state representation on matters before the federal government by means of regional conferences, research, information services and direct assistance.

The CSG is a joint agency of all fifty states and is directed by state officials, primarily governors and legislators, who serve on the governing board and the executive committee. The council has its headquarters in Lexington, Kentucky and regional offices in San Francisco, Atlanta, New York, and Washington D.C. The council is funded through assessments based upon each state's population.

The CSG's 1988-89 budget was augmented by \$75,000 to make planning money available for the 1989 western regional conference, for which California is the host state. The \$75,000 will be repaid to the General Fund on or before November 30, 1990.

### NATIONAL CONFERENCE OF STATE LEGISLATURES

#### Program Objectives Statement

The National Conference of State Legislatures (NCSL), created in 1975, is composed of legislators from the fifty states, and the United States' territories and commonwealths. Its mission is to improve the quality and effectiveness of state legislatures, foster interstate communication and cooperation and ensure state legislatures a strong voice in the federal system. It is funded primarily through formula-based appropriations from member legislatures.

### WESTERN STATES LEGISLATIVE FORESTRY TASK FORCE

#### Program Objectives Statement

Organized in 1974, the Western States Legislative Forestry Task Force provides a forum for legislators from six western states and two Canadian provinces to monitor and discuss issues pertaining to the management of forestry resources.

### GOVERNMENTAL ACCOUNTING STANDARDS BOARD

#### Program Objectives Statement

The Governmental Accounting Standards Board (GASB) establishes accounting standards for governmental entities, tracks new developments in the accounting field and issues informational publications. The State Treasurer's office, the State Controller's office, the Auditor General's office and the Department of Finance all participate in GASB activities and forums.

For the list of standard (lettered) footnotes, see the end of the Governor's Budget.

\* Dollars in thousands, excluding salary range.

## 8800 MEMBERSHIP IN INTERSTATE ORGANIZATIONS—Continued

## STATE AND LOCAL LEGAL CENTER

## Program Objectives Statement

The State and Local Legal Center was established in 1983 to improve the quality of representation before the United States Supreme Court by means of direct assistance, the filing of amicus curiae briefs, general education and information dissemination. It is jointly sponsored by the Council of State Governments, the National Conference of State Legislatures and the National Governors' Association.

## NATIONAL GOVERNORS' ASSOCIATION

## Program Objectives Statement

The National Governors' Association (NGA), founded in 1908, represents the Governors of the fifty states and the Commonwealth of Puerto Rico, the Northern Mariana Islands and the territories of the Virgin Islands, Guam, and American Samoa. Its missions are to influence the development and implementation of national policy and to apply creative leadership to state problems. Both the NGA and its affiliate agency, the Council of State Policy and Planning Agencies, are funded through assessments based on each state's population.

## COUNCIL OF STATE POLICY AND PLANNING AGENCIES

## Program Objectives Statement

Founded in 1966, the Council of State Policy and Planning Agencies (CSPA) is an organization of key executive aides in the fifty states and in the United States' territories. The CSPA identifies and develops information on issues of potential importance to the states, recommends policy and provides technical assistance.

## COASTAL STATES' ORGANIZATION

## Program Objectives Statement

The Coastal States' Organization (CSO) represents the interests of states which border on the Pacific Ocean, Atlantic Ocean, Gulf of Mexico and Great Lakes with regard to coastal zone management and offshore energy development issues. Specifically, CSO represents its members' interests before Congress and federal agencies, in legal briefs to the Supreme Court, and in sharing information among the coastal states.

## WESTERN GOVERNORS' ASSOCIATION

## Program Objectives Statement

The Western Governors' Association (WGA) represents the interests of the sixteen western states, two pacific territories and one commonwealth through regional exchange of ideas, regional policy management, advocacy, promotion of efficient resource management and provision of information. The WGA is funded by dues from member states and contributions from grantors and foundations.

## 8820 COMMISSION ON THE STATUS OF WOMEN

## Program Objectives Statement

Chapter 541, Statutes of 1971, established the Commission on the Status of Women as a permanent state agency to eliminate inequities in laws, practices and conditions which affect women. The Commission implements its mandate by examining bills introduced in the Legislature which affect women's rights; maintaining and distributing information to the public on needs of women; developing and maintaining liaison with government agencies and advisory bodies; and providing technical and consultative assistance to organizations which assist women. Emphasis is on economic issues, employment, child care/support/custody, health services, problems of violence against women, minority/older women and homemakers' rights.

\* Dollars in thousands, excluding salary range.

## 8820 COMMISSION ON THE STATUS OF WOMEN—Continued

The Commission consists of a 17-member body: the Superintendent of Public Instruction, the Chief of the Division of Labor Standards Enforcement, three members of the Assembly and one public member appointed by the Speaker of the Assembly, three members of the Senate and one public member appointed by the Senate Committee on Rules, and seven public members appointed by the Governor. Public members are selected for staggered four-year terms and receive reimbursement for necessary expenses.

Chapter 1596, Statutes of 1984, (SB 2262), established the Displaced Homemaker Emergency Loan Act, a pilot project designed to assist individuals abandoned by, or separated from a spouse, divorced, or widowed, who have an economic need caused by this displacement.

**Authority**

Chapter 541, Statutes of 1971; Chapter 1596, Statutes of 1984; and Chapter 1385, Statutes of 1985.

**10 ADMINISTRATION-LEGISLATION-RESEARCH AND INFORMATION**

The Commissioners establish policy and priorities for the work of the Commission. The Commission identifies areas where legislation is needed, examines and evaluates bills introduced into the Legislature which affect women's rights and makes information on legislative developments available to interested organizations and individuals. The Commission also collects, maintains, and disseminates information on the status of women, the needs of women, and on projects designed to meet these needs.

**Budget Adjustments**

• The 1990-91 Budget proposes a redirection of \$21,000 in operating expenses and equipment to fund a 0.5 personnel year for a Information Systems Manager.

## 8830 CALIFORNIA LAW REVISION COMMISSION

The primary objective of the California Law Revision Commission is to study the statutory and decisional law of this state, to discover defects and anachronisms and to recommend legislation to effect needed reforms.

The Commission consists of a member of the Senate, a member of the Assembly and seven additional members appointed by the Governor with the advice and consent of the Senate. The Legislative Counsel is an ex officio member of the Commission.

The Commission assists the Legislature in keeping the law up to date by studying complex and controversial subjects, identifying major policy questions for legislative attention, gathering the views of interested persons and organizations and drafting recommended legislation for legislative consideration. The efforts of the Commission permit the Legislature to determine significant policy questions rather than to concern itself with the technical problems in preparing background studies, resolving intricate legal problems and drafting needed legislation. The Commission thus enables the Legislature to accomplish legal reform that otherwise might not be made because of the heavy demands on legislative time. In some cases the Commission's study discloses that no new legislation on a particular topic is needed, thus avoiding the need for further study.

The Commission may only study topics which the Legislature authorizes by concurrent resolution. The Commission currently has an agenda of 25 topics, one of which was added by the Legislature in 1988.

For the list of standard (lettered) footnotes, see the end of the Governor's Budget.

\* Dollars in thousands, excluding salary range.

## 8830 CALIFORNIA LAW REVISION COMMISSION—Continued

In 1989 the Commission recommended four bills to improve probate law and procedure, one bill to correct miscellaneous creditors' remedies problems, and one bill to codify the law governing assignment and sublease of commercial real property leases. Five bills were enacted; the sixth bill will be acted on in 1990.

In 1990 the Commission plans to recommend enactment of a new Probate Code, to replace the existing Probate Code. The Commission also plans to work on administrative procedure, on a new family relations code, and on issues related to other topics.

## 8840 COMMISSION ON UNIFORM STATE LAWS

In conjunction with other states, the Commission drafts and presents to the Legislature uniform laws deemed desirable and practicable by the National Conference of Commissioners on Uniform State Laws for adoption by the various states. The Commission is composed of six members appointed by the Governor, one member of each house of the Legislature appointed by the respective houses, the Legislative Counsel, and one life member of the National Conference.

## 8860 DEPARTMENT OF FINANCE

By statute the director serves as the Governor's chief fiscal policy advisor with emphasis on the financial integrity of the State and maintenance of a fiscally sound and responsible Administration.

The objectives of the Department of Finance are:

1. To prepare, present and support the annual financial plan for the State.
2. To serve as the Governor's chief fiscal policy advisor.
3. To assure responsible and responsive State resource allocation within resources available.
4. To foster efficient and effective State structure, processes, programs and performance.
5. To establish integrity in State fiscal data bases and systems.

## 10 ANNUAL FINANCIAL PLAN

## Program Objectives Statement

To ensure the financial integrity of the State through the planned allocation of State resources, the Department of Finance advises the Governor on the fiscal condition of the State and guides in the preparation and presentation to the Legislature of the Governor's annual financial plan for the State. After enactment of the budget, the Department of Finance assists in the administration of the budget. The Governor's Budget contains past year actual expenditures and revenues, current year estimated expenditures and revenues, and proposed expenditures and estimated revenues for the next fiscal year. The budget year figures include expenditure proposals for new or expanded programs as well as those necessary to continue existing levels of most services. The Department of Finance also provides analyses of bills introduced in the Legislature to the Governor.

## Budget Adjustments

For the 1990-91 fiscal year, the following budget adjustments are proposed:

- An increase of \$200,000 and 4.0 positions (3.8 personnel years) to meet workload increases in Budget Operations.
- An increase of \$25,000 (1.4 personnel years) to provide additional student assistant support during peak workload periods in Budget Operations.
- An increase of \$100,000 to fund cash compensation for overtime worked.
- An increase of \$156,000 and a redirection of funds to fund increased employee benefit costs resulting from Department of Personnel Administration regulation changes regarding vacation buy-back and the maximum hourly rate for paid overtime.

10.40 Legislation and Intergovernmental Relations .....	24.2	24.6	25.5	1,948	2,141	2,265

## 10.10 Preparation

## Program Element Statement

To effectively allocate anticipated State resources to meet the needs of State Government, the Department of Finance, with the assistance of other State departmental and agency staff, develops an expenditure plan for each State agency or program. These expenditure plans include an agency's or program's authorized level of expenditures as reflected in the Budget Act and adjusted for any subsequent baseline changes such as legislation. A department wishing to change its authorized program or level of support must initiate a budget change proposal which is reviewed by the Department of Finance to ensure consistency with statutes and the Governor's policies.

The Department of Finance adjusts the annual financial plan for the State to reflect revised expenditure projections for both the current and budget years. If expenditures exceed revenue, additional revenue and/or expenditure reduction alternatives are recommended, as required by the constitution. The proposed financial plan for the next fiscal year is presented to the Legislature by January 10 of the current year.

Input	88-89	89-90	90-91	1988-89*	1989-90*	1990-91*
Expenditures (General Fund).....	46	45	46.8	\$3,897	\$4,106	\$4,435

## 10.20 Enactment

## Program Element Statement

To ensure that the Governor's proposed programs are effectively presented to the Legislature and to monitor the status of the budget as it proceeds through the legislative process, the Department of Finance assists in the legislative review of the budget bill. As the budget bill moves through each of the legislative houses, representatives from the Department of Finance, the Legislative Analyst, and State agencies provide testimony as needed during legislative committee hearings. The Department of Finance records legislative changes and produces a Final Change Book and Final Budget Summary following enactment of the budget. At the time of budget enactment, revenue estimates are prepared to reflect the latest economic forecasts and recent financial legislation. This information is included in the Final Change Book.

\* Dollars in thousands, excluding salary range.

## 8860 DEPARTMENT OF FINANCE—Continued

Input	88-89	89-90	90-91	1988-89*	1989-90*	1990-91*
Expenditures (General Fund).....	19.1	18.6	19.3	\$1,593	\$1,687	\$1,812

## 10.30 Support and Direction

## Program Element Statement

State programs must be administered in accordance with the authorized financial plan. Controls are placed on appropriation items in the Budget Act and through other statutes which require specific monitoring by the Department of Finance. Variations from the approved financial plan are analyzed to ascertain their effects on programs and on the financial position of the State. If justified and within approved policy and legislative intent, revisions are made to the extent permitted by law. Variations are reported to appropriate legislative committees for their consideration as required by law.

Periodic comparisons of expenditures and revenues are made based on cash flow statements which are developed to assist in managing the State's fiscal resources.

Reimbursements.....				38	30	20

## 10.40 Legislation and Intergovernmental Relations

## Program Element Statement

The Department of Finance provides analyses of bills introduced in the Legislature and makes recommendations to the Governor's Office. These analyses inform both the Governor and the Legislature of the fiscal and program implications of the bills, including additional mandated costs to local governments. Representatives of Finance appear before the fiscal and revenue committees of the Legislature which are considering bills. Proposed new programs or changes to existing programs are analyzed to ascertain if any additional costs are mandated on local governments. Appropriate criteria are developed for reimbursement of those costs by the State Controller's Office.

Expenditures (General Fund).....	24.2	24.6	25.5	\$1,948	\$2,141	\$2,265

## 20 PROGRAM AND INFORMATION SYSTEM ASSESSMENTS

## Program Objectives Statement

To improve operating efficiency and performance of State agencies, and to ascertain the need for changes in programs or levels of support, the Department of Finance systematically reviews and evaluates State-administered and financed programs. Alternatives are provided to more effectively satisfy identified needs. Specific review functions include program analysis and evaluation, financial and performance audits, and assessment of statewide electronic data processing (EDP).

## Budget Adjustments

For the 1990-91 fiscal year, the following budget adjustment is proposed:

- An increase of \$8,000 and a redirection of funds to fund increased employee benefit costs resulting from Department of Personnel Administration regulation changes regarding vacation buy-back and the maximum hourly rate for paid overtime.

20.30 Information Technology.....	27.9	26.4	26.4	2,603	2,769	2,829

## 20.10 Program Evaluation

## Program Element Statement

To assist in governmental decision making, particularly with respect to the allocation of resources and formation of public policy, the Department of Finance performs critical analyses and evaluative examinations of State programs, policies, resources, organization, and management and makes recommendations on ways to increase the effectiveness and efficiency of State programs. Ongoing functions in the Department of Finance often require more in-depth analysis than can be provided by the assigned analyst. Occasionally other State agencies request assistance from the Department of Finance on organizational, management, and operational matters, and there are ad hoc assignments from external sources requiring staff participation by the Department of Finance.

Requests for studies or assistance may originate from within the Department of Finance, by referral from officials at Cabinet level, from the Governor's Office, from the Legislature or from other State agencies. Studies may produce formal or informal reports. The formal reports normally are listed in California State Publications and given full distribution under the Library Distribution Act.

\* Dollars in thousands, excluding salary range.

## 20.20 Financial and Performance Audits

## Program Element Statement

To assist the Director of Finance in fulfilling the statutory responsibilities for supervision over all matters concerning the financial and business policies of the State and the coordination of internal auditors, the Financial and Performance Audits Unit: (1) examines financial, budgetary and operational information, systems of internal control, EDP systems and controls; (2) develops policies and programs; (3) approves audit programs used by internal audit units; (4) provides direction and coordination to executive branch organizations performing internal auditing activities; (5) provides audit advice and accounting support as needed by the Director of Finance or other agency officials; and (6) coordinates State agency activities relating to the "Single Audit" in California.

## 20.30 Information Technology

## Program Element Statement

The purpose of the Office of Information Technology is to support and promote the use of innovative information technologies within State government as a means of saving money, increasing worker productivity, improving State services to the public, and demonstrating effective management tools, including data processing, office automation, and personal computing. The Office develops plans, policies, and guidelines for information technology; reviews and approves the acquisition, development, and use of information technology by State agencies; and provides technical assistance to State agencies.

Expenditures (General Fund) .....	27.9	26.4	26.4	\$2,603	\$2,769	\$2,829

## 30 SUPPORTIVE DATA

## Program Objectives Statement

This program includes a variety of information systems and services which support the mission of the Department. The budget support systems provide information to decisionmakers throughout the budgetary process. The operation and management of the automated California State Accounting and Reporting System (CALSTARS) is intended to provide a uniform and complete accounting system for State agencies. Statewide fiscal and accounting policies are developed and maintained. Basic and applied economic and tax research functions support the revenue estimates required for the development of the State financial plan, for the analysis of financial legislation and the evaluation of economic trends or other fiscal developments which affect the State. Basic and applied demographic research functions provide data to support the workload estimates of State agencies.

## Budget Adjustments

For the 1990-91 fiscal year, the following budget adjustment is proposed:

- An increase of \$25,000 and redirection of funds to fund increased employee benefit costs resulting from Department of Personnel Administration regulation changes regarding vacation buy-back and the maximum hourly rate for paid overtime.

## 30.11 Statewide and Departmental Fiscal Reporting

## Program Element Statement

This element includes various functions which support statewide and departmental budget and information systems, including the operation of the evaluation, assessment, and planning activities required to operate and support the department's internal and statewide fiscal information systems. This element also includes those activities required for the development and implementation of internal data processing policies, procedures, and technical training.

Expenditures (General Fund).....	9.4	9.3	9.3	\$810	\$905	\$931

## 30.12 CALSTARS

## Program Element Statement

The California State Accounting and Reporting System (CALSTARS) has been developed for all agencies that do not have an automated program cost accounting system to accurately and systematically account for all revenue, expenditures, receipts and disbursements of State agencies. CALSTARS has been designed to accommodate program cost accounting, cost allocation and fund distribution, and to encompass the reporting requirements necessary to provide data to the State Controller and other control agencies.

This program incorporates the efforts of the State toward development of a modern and complete accounting system for each agency of the State. Such efforts include bringing California State Government accounting practices into conformance with Generally Accepted Accounting Principles (GAAP) and the implementation of the State's uniform Chart of Accounts (Uniform Codes Manual), improving the timeliness and accuracy of financial information, standardizing the accounting and reporting functions within state agencies, and expanding their accounting and reporting capabilities.

CALSTARS currently operates on a computer system at the Health and Welfare Agency Data Center. Agencies and institutions submit data to CALSTARS through data entry terminals located in the agencies.

The continued successful operation of the CALSTARS system has required that various types of ongoing support, including system operations and training of agency staff, be made available to all CALSTARS agencies.

## 30.20 Economic Research

## Program Element Statement

The Economic Research group prepares economic forecasts on a comprehensive basis approximately four times a year. Alternative (high and low) forecasts and long-term projections are prepared annually for the Governor's Budget. Semiannual economic outlook conferences are organized to bring together leading authorities from California and other areas to advise the staff on economic developments and to evaluate the preliminary forecasts.

California data are developed and maintained, forecasting models are built and maintained, analyses are prepared on various economic developments, and consultations are provided to assist State departments and local governmental agencies in planning and evaluation. The unit also prepares the Economic Report of the Governor, the California Statistical Abstract, and the California Economic Indicators.

Input	88-89	89-90	90-91	1988-89*	1989-90*	1990-91*
Expenditures (General Fund).....	4.7	4.5	4.5	\$386	\$434	\$467

## 30.30 Revenue Estimating and Tax Research

## Program Element Statement

The Financial Research unit provides the revenue estimates required to assist the Executive Branch in preparing the State financial plan, analyses of financial legislation, and evaluation of financial development of importance to government. The unit maintains a basic and applied research function which includes development of various computer research applications. In addition the unit participates in major studies, task forces, and special projects initiated by the Administration, Legislature, or State agencies. Revenues estimates are prepared for the Governor's Budget May Revision as required. Monthly actual collections are also analyzed.

Input	88-89	89-90	90-91	1988-89*	1989-90*	1990-91*
Expenditures (General Fund).....	6.1	5.8	5.8	\$496	\$556	\$598

## 30.40 Demographic Research

## Program Element Statement

The Demographic Research Unit provides the single source for official demographic and enrollment data for State planning and funding. This data is required for fiscal programs, research and planning purposes by State agencies, county and local governments, the Federal Government, academic institutions, school districts, private entities, and the public. The unit is the designated liaison between the State and the U.S. Census Bureau.

The unit carries out a basic and applied research function primarily directed at the production of population figures which underlie the caseload estimates of most State agencies. In the development of estimates and projections, data is gathered from all levels of government and the private sector. Population estimates are used as the basis for apportionment of certain State subventions and tax rate limits. Analyses and projections of enrollments in public schools, colleges, and universities are prepared to assist support and capital outlay decisions. Within the unit, the State Census Data Center, coordinates special censuses and provides consultation and data from censuses and surveys.

## 30.50 Fiscal Systems and Consulting

## Program Element Statement

To maintain a complete and uniform State accounting system, the Fiscal Systems and Consulting Unit (FSCU) develops and communicates statewide fiscal and accounting policies and procedures to State agencies through Management Memos and the accounting portion of the State Administration Manual (SAM); reviews, advises, approves, and interprets various rules, regulations, and statutes relating to State accounting and financial management procedures and transactions; conducts special fiscal studies; develops and conducts training seminars for State accounting personnel; and develops and implements procedures to recover overhead costs from special funds and the Federal government.

In addition, FSCU evaluates modifications to the State's uniform accounting system including whether, and to what extent, California State Government accounting practices should be changed to conform with Generally Accepted Accounting Principles (GAAP); maintains the Uniform Codes Manual to promote uniformity in the State's accounting code structure; and issues Federal Trust Fund procedures to provide a central accounting over Federal Funds.

## 40 ADMINISTRATION

## Program Objectives Statement

The Director of Finance is the chief fiscal policy advisor to the Governor and provides executive leadership and policy direction to maintain a fiscally sound State Government and to achieve departmental goals and objectives.

In addition, support is provided to the Governor's representative in Washington D.C. by maintaining an office through which various agencies (i.e., the Health and Welfare Agency, Resources Agency, Department of Food and Agriculture, World Trade Commission, Department of Transportation, and the Department of Finance) represent the State's diverse interests in matters between the Federal Government and the State.

Departmental administrative services provide the internal departmental support necessary to maintain the daily functioning of the Department of Finance including personnel management, affirmative action, support services, business services, and training.

## Budget Adjustments

For the 1990-91 fiscal year, the following budget adjustments are proposed:

- A decrease of \$102,000 and 1.0 position (0.9 personnel years) to reflect the transfer of the State Administrative Manual function to the Department of General Services.
- An increase of \$150,000 for departmental training needs.
- An increase of \$13,000 and redirection of funds to fund increased employee benefit costs resulting from Department of Personnel Administration regulation changes regarding vacation buy-back and the maximum hourly rate for paid overtime.

## 8885 COMMISSION ON STATE MANDATES

The principal objectives of the Commission on State Mandates are: (1) through its "Administration" program, to adjudicate differences between local entities and the State over the existence of a reimbursable state mandate in a particular statute or executive regulation, and (2) through its "Payments for Mandated Costs" program, to ensure that funding is provided for the ongoing costs of activities which have been determined by the commission, by the courts or by the mandating legislation itself to be reimbursable.

Virtually all funding for this program comes from the General Fund, with the exception of a relatively small amount of funding from the Restitution Fund (\$1,510,000), and the funds available from the State Mandates Claims Fund.

SUMMARY OF PROGRAM REQUIREMENTS				1988-89*	1989-90*	1990-91*
10	Administration.....			\$520	\$611	\$675
20	Payments for Mandated Costs.....			124,449	271,336	288,082

NET TOTALS, PROGRAMS (General Fund) <sup>1</sup> .....				\$520	\$611	\$675
Personnel years.....				5.4	8.0	8.0

<sup>1</sup> Some of the amounts included as General Fund are for the purposes of meeting the minimum funding guarantee for educational programs pursuant to Section 8 of Article XVI of the California Constitution. Specific appropriations are identified in the following RECONCILIATION WITH APPROPRIATIONS and are also summarized in the Budget Summary Schedule 9A, Proposition 98 General Fund Guarantee.

For the list of standard (lettered) footnotes, see the end of the Governor's Budget.

\* Dollars in thousands, excluding salary range.

## 8885 COMMISSION ON STATE MANDATES—Continued

## 10 ADMINISTRATION

## Program Objectives Statement

The Commission on State Mandates was created by Chapter 1459, Statutes of 1984 (SB 2337) as a quasi-judicial body to assume the authority for the initial determination of state mandated costs formerly vested with the State Board of Control.

The Commission consists of the Director of Finance, the Controller, the Treasurer, the Director of the Office of Planning and Research and a public member with experience in public finance, appointed by the Governor and approved by the Senate.

Chapter 1459 also created the State Mandates Claims Fund, appropriated \$10 million into that fund, and specified that this amount is continuously appropriated for designated purposes. Reimbursement for a bill determined by the Legislature to contain state mandated costs could be made directly from this Fund rather than from an appropriation in that legislation if the Commission determined that those costs will not exceed \$500,000 during the first twelve months of the bill's implementation. Funding for such legislation determined by the Commission to cost more than \$500,000 or previously-disclaimed legislation which is determined by the Commission to contain state mandated costs in any amount would be provided through the claims bill process. Chapter 1179, Statutes of 1988 (AB 3979) increased the ceiling on disbursements from this Fund to \$1,000,000.

## Authority

Government Code Sections 17500 to 17630.

Continuing program costs (General Fund)...	5.4	8.0	8.0	\$520	\$611	\$675

## 20 PAYMENTS FOR MANDATED COSTS

## Program Objectives Statement

Chapter 1406, Statutes of 1972 (SB 90) first established the statutory requirement for the State to reimburse units of local government for all costs mandated on them by the State resulting from either legislative acts or executive regulations which impose a new program or demand an increased level of service in an existing program. The approval of Proposition 4, the "Gann Initiative", at the November 6, 1979 election elevated this program of reimbursing State-mandated costs to a constitutional requirement by incorporating this reimbursement concept in Section 6 of Article XIII B of the State Constitution. Chapter 1459/84 was enacted to provide for the implementation of this constitutional provision and to consolidate the procedures for reimbursement of statutes specified in the Revenue and Taxation Code with those identified in the Constitution. Those statutory provisions, which are now in the Government Code, were modified and clarified by Chapter 879/86 (SB 2002), Chapter 1123/88 (SB 2875), Chapter 1179/88 (AB 3979) and Chapter 589/89 (SB 1014).

Chapter 788/89 (SB 235), a commission-sponsored claims bill, appropriated funds for seven statutes and regulations found by the commission to contain a reimbursable state mandate. The amount of \$29,575,000 was appropriated for the reimbursement of: Chapter 115/85; Chapter 498/83; Chapter 1017/86; Chapter 1111/81; Chapter 1117/84; Chapter 1352/85, Title 9, CCR, Section 549 and State Department of Mental Health Letters; and Chapter 1490, Statutes of 1984. \$134,855,448 was deleted from Chapter 1485/88, a commission-sponsored claims bill, due to an unexpected shortfall in the General Fund with the message expressing the Administration's commitment to fund the mandated costs incurred prior to fiscal year 1988-89 in equal installments in each of the Governor's Budgets for the 1989-90, 1990-91, and 1991-92 fiscal years. Chapter 1607/85 (AB 19), as amended by Chapter 945/88, established the Trial Court Funding Act of 1985 to provide for State funding of trial courts. Chapter 1211/87 (SB 709) provides the initial implementation of that Act and, in part, requires any county opting into the program to waive reimbursement of certain State mandates, including those related to trial court operations. Based on the fact that all counties are participating in the program, no funding has been provided for the following court-related mandates in this budget: Judicial Arbitration, Marriage Mediators, Judges' per diem, San Francisco Superior Court Judgeships, Compensation of Justice Court Judges, Charging Documents and Parent/Child Counsel. This budget proposes the establishment of a "set aside" of \$82 million for the next Commission-sponsored claims bill. This amount represents the following statewide cost estimates:

	Millions of Dollars
Graduation requirements.....	\$19.6
Notifications of truancy.....	21.0
Emergency procedures.....	25.3
Investment reports (K-14).....	0.4
Open meetings act (K-14).....	1.7
1987 Budget Act deficiencies (K-14).....	13.1
Short-Doyle audits (1990-91).....	0.1
Subdivision mergers (1990-91).....	0.8
Total.....	\$82.0

This budget also proposes that the pre 1990-91 portions of the following statewide cost estimates be funded in three equal installments in each of the 1991-92, 1992-93 and 1993-94 Governor's Budgets, rather than in that next claim bill:

Short-Doyle audits.....	\$0.3
Subdivision mergers.....	5.6
Short-Doyle case management.....	20.0
Interviews of potentially dependent minors.....	23.4
Investment reports (non K-14).....	15.2
Open meeting act (non K-14).....	7.4
Trial court delay reduction.....	10.8
Ch. 332/81 restoration.....	3.7
1987 Budget Act deficiencies (non K-14).....	12.9
Total.....	\$99.3

Finally, this budget proposes that local agencies be excused from complying in 1990-91 with six currently-funded mandates and four mandates to be funded in that upcoming claims bill by not appropriating the funding which would otherwise be required to reimburse those mandates (\$28.3 million) and by including the appropriate excusing language in the Budget Act. Those ten mandates are:

Motorists' assistance.....	\$3.1
Custody of minors.....	3.2
Pretreatment facilities.....	3.2
Juvenile felony arrests.....	2.3
Involuntary lien notices.....	1.2

\* Dollars in thousands, excluding salary range.

## 8910 OFFICE OF ADMINISTRATIVE LAW

The Office of Administrative Law (OAL) is responsible for the implementation of the Administrative Procedure Act (APA). The APA provides procedures for the promulgation of regulations by State agencies and establishes standards with which regulations must comply.

The goals of OAL are to reduce the number of administrative regulations and to improve the quality of those regulations which are adopted. These goals will be achieved by: (1) maintaining the orderly review of regulations promulgated by more than 130 State regulatory agencies; (2) issuing determinations as to whether or not any guideline, bulletin, manual, instruction, order or other rule is a regulation; and (3) fostering increased awareness of the regulatory process.

## Authority

Government Code Sections 11340-11446.

30	Legislative/Public Affairs Coordinator .....	0.9	49
10,20,30	Workload adjustments .....	-	115

## 10 REGULATORY OVERSIGHT

## Program Objective Statement

The Office of Administrative Law (OAL) has exclusive statutory authority to conduct an appellate review of final actions taken by state agencies regarding regulations. It also is mandated to approve, codify, and publish regulations adopted by state agencies and constitutional offices within the executive branch of government. In these capacities, OAL protects the public from illegal regulations and informs the courts, the legal community, and the public of the status of all California regulations.

## Budget Adjustments

The 1990-91 budget proposes an increase of \$50,000 to maintain current program/workload levels.

For the list of standard (lettered) footnotes, see the end of the Governor's Budget.

\* Dollars in thousands, excluding salary range.

## 8910 OFFICE OF ADMINISTRATIVE LAW—Continued

## 10.10 Regulations Review

## Program Element Statement

The objective of the regulatory compliance program is to conduct an orderly appellate review of the regulations promulgated by State government agencies, departments, boards and commissions to ensure that actions taken by the promulgating agency are authorized by statute, and are consistent with other laws. Regulations that fail to meet these requirements are disapproved and do not become effective until they are promulgated in accordance with the law.

## Performance Measures

Expenditures (General Fund) .....	16.7	17.3	17.3	\$1,760	\$1,849	\$1,928

## 10.20 Regulatory Determinations

## Program Element Statement

The objective of the regulatory determinations program is to protect the public from the illegal enforcement of regulations which have not been promulgated in accordance with the Administrative Procedure Act. Upon the request of any member of the public or the Legislature, the regulatory determinations program will exercise its original jurisdiction to review the information filed with the office and render a decision determining the legality and enforceability of a State agency rule.

## Performance Measures

	1988-89	1989-90	1990-91

Expenditures (General Fund) .....	2.0	1.9	1.9	\$198	\$202	\$211

## 20 LEGAL INFORMATION SYSTEMS

## Program Objectives Statement

The objectives of the legal information systems program are to: provide timely updates of the California Code of Regulations (CCR) to the courts, California's legal practitioners, state agencies, and the regulated public; provide notice to the public of proposed regulatory actions and decisions issued by OAL; provide for the codification of the State's regulatory language. The program is also responsible for information technology systems and the automation of the CCR.

## Budget Adjustments

The 1990-91 budget proposes:

- A reduction of \$49,000 related to workload on the California Regulatory Notice Register publication.
- An increase of \$35,000 to maintain current program/workload levels.

## Program Requirements

## 30 ADMINISTRATION

## Program Objectives Statement

This program consists of the executive office, legislation, and administrative support functions. The executive office provides overall policy direction for the office. The administrative support function provides fiscal, personnel, training, and business services support for the office.

## Budget Adjustments

The 1990-91 budget proposes:

- 0.9 personnel years and \$49,000 for continuation of the Legislative/Public Affairs Coordinator position.
- An increase of \$30,000 to maintain current program/workload levels.

\* Dollars in thousands, excluding salary range.

## 8915 DEPARTMENT OF ECONOMIC OPPORTUNITY

The Department of Economic Opportunity (DEO) administers programs to assist the low-income residents and communities of California in the following areas: Low-Income Home Energy Assistance Program (LIHEAP), Community Services Block Grant (CSBG) and the federal Department of Energy Weatherization Program (DOE). Services are provided by DEO through a network of approximately 200 community agencies. The goal of the programs is to assist the low-income population of California to become self-sufficient.

## Authority

Government Code 12085-12092; Executive Order B-16-76; Public Law 97-35; Chapter 4, Statutes of 1983.

## Major Budget Adjustment

The budget includes \$438,000 for 1989-90 and \$295,000 for 1990-91 in reimbursement expenditure authority for the Low Income Rate Adjustment Program. This program provides eligibility certification services of low income gas and electricity customers to utility companies.

## 20 ENERGY PROGRAMS

## Program Objectives Statement

The objective of Energy Programs is to provide funds to assist low-income people in meeting the high costs of energy, using and conserving energy more efficiently, and learning about and using new sources of energy.

DEO first administered the 1980-81 federal Low Income Energy Assistance Program which provided financial assistance to low-income persons to help them meet the increasing costs of home energy. Effective October 1981, federal Public Law 97-35 reauthorized LIEAP and retitled it the Low-Income Home Energy Assistance Program (LIHEAP). In addition to providing financial assistance for routine home energy costs, the LIHEAP block grant also incorporated an emergency intervention program and a weatherization program.

Chapter 228, Statutes of 1982, officially designated DEO as the recipient of the LIHEAP block grant. In accordance with Chapter 1604, Statutes of 1985, the allocations for programs within LIHEAP are as follows:

- 10% transfer to the Department of Social Services (DSS) for Title XX programs;
- 7.5% for state administrative costs, PVEA funding inclusive;
- 15% allocation for Weatherization;
- 25% allocation for the Energy Crisis Intervention Program (ECIP); and,
- The remaining allocation for the direct payment Home Energy Assistance Program (HEAP).

## Budget Adjustment

For 1989-90, \$438,000 in reimbursement expenditure authority and 7.2 personnel years are included for the Low Income Rate Adjustment (LIRA) program pursuant to Chapter 212, Statutes of 1988.

In 1990-91, 4.6 personnel years and \$295,000 are proposed to continue LIRA program activities.

For the list of standard (lettered) footnotes, see the end of the Governor's Budget.

\* Dollars in thousands, excluding salary range.

## 40 COMMUNITY SERVICES

## Program Objectives Statement

The Department of Economic Opportunity has administered the federal Community Services Block Grant (CSBG) in California since 1982-83. The objective of the Community Services Program is to provide a wide range of services designed to assist low-income persons to:

- Secure and retain meaningful employment;
- Attain an adequate education;
- Make better use of available income;
- Obtain and maintain adequate housing and a suitable living environment;
- Remove obstacles and solve problems which block the achievement of self-sufficiency;
- Achieve greater participation in the affairs of the community;
- Provide on an emergency basis supplies and services, nutritious foodstuffs, and related services as may be necessary; and
- Coordinate and establish linkages between governmental and other social services programs.

The low-income populations of all 58 counties in California are served. Discretionary funds are budgeted at 5 percent of the grant and are used to proportionately restore CSBG grantees and contractors to full funding levels in the event of diminished federal appropriations. In addition, limited purpose agencies are funded from discretionary funds.

Administrative funds are budgeted at 5 percent of the grant and are used for subgrant award and program monitoring, personnel, accounting, and business services activities.

In the current and budget year, the budget includes \$1.7 million in Federal Emergency Community Services Homeless Grant funds. These funds will be allocated to existing community action agencies and migrant and seasonal farmworker organizations.

## 50 ADMINISTRATION

## Program Objectives Statement

The executive office determines policy directions for DEO, advises the Governor on antipoverty strategies and mobilization of resources, and works with local, state and federal officials on matters of concern to the office and the State.

The Administration Division provides the services necessary for the daily operation of DEO such as personnel, purchasing, mail and reproduction, accounting, budgeting, contracts, auditing and federal grant management, central files, and data and information services.

## 8940 MILITARY DEPARTMENT

The Military Department is responsible for the command and management of the California Army and Air National Guard and seven other military related programs. The purpose of the California National Guard is to provide military service supporting this State and the nation. The three missions of the California National Guard are to provide, (1) mission ready forces to the Federal Government as directed by the President, (2) emergency military support to civil authorities as directed by the Governor, and (3) support to the community as approved by proper authority. The Military Department is organized in accordance with Departments of the Army and Air Force staffing patterns.

\* Dollars in thousands, excluding salary range.

## 10 ARMY NATIONAL GUARD

## Program Objectives Statement

This program manages Army National Guard units, personnel, supplies, and equipment in order to maximize the readiness of those forces when required for federal missions in the military defense of the United States or for state missions in support of civil authority.

The Army National Guard consists of 169 company-size and 35 detachment-size units allotted to the State by the Department of the Army. The Military Department, in turn, stations those units at locations deemed best suited to ensure their readiness and availability to perform state and federal missions. The current authorized strength of the Army National Guard is 22,370 officers and enlisted personnel.

## Budget Adjustments

The 1990-91 budget proposes to increase the Federal expenditure authority in temporary help to provide additional maintenance and security at Camp Roberts by 7.5 personnel years and \$120,000.

## Authority

## 10.10 Training

## Program Element Statement

California Army National Guard units are required to train and achieve readiness standards established by the Department of the Army. Organized and equipped by the federal government in accordance with their federal missions, units train under the general oversight of Active Army personnel and are frequently inspected and evaluated by both National Guard and Active Army officers to assure attainment and maintenance of training and readiness objectives.

Expenditures (General Fund).....	14.6	15.0	15.0	\$899	\$1,036	\$983

## 10.20 Logistics

## Program Element Statement

All of the federal funds provided to support the Army National Guard are to sustain the supplies, equipment, and maintenance requirements necessary for readiness training and operations. Camp San Luis Obispo is a state-owned installation which serves as the primary logistical base for receipt, storage, and distribution of federal supplies and equipment. Camp San Luis Obispo and Camp Roberts are major outdoor training areas that are utilized year-round by the National Guard, Army Reserve, and Active component forces. Camp Roberts and Los Alamitos Armed Forces Reserve Center are federal installations licensed and operated by the Military Department with 100 percent federal funding. Camp San Luis Obispo receives partial federal funding.

Army National Guard units and equipment are housed in 126 armories. Local maintenance support is provided at 40 organizational maintenance shops, with higher echelon maintenance accomplished at four support facilities. Over 80 percent of the state funds provided to support the Army National Guard Program are directed toward logistical activities.

## 10.30 Command Support

## Program Element Statement

This element provides command direction and policy guidance for the Army National Guard program. Activities include the issuance of directives; development of long-range plans and programs; coordination of training and logistics; supervision of training and determination of readiness levels; and contingency planning and operational control over elements ordered into state service during emergencies.

## 20 AIR NATIONAL GUARD

## Program Objectives Statement

The objective of this program is to maximize the readiness of trained and equipped air forces when required for federal or state missions.

The Air National Guard consists of four major flying organizations and a large combat communications organization: an air defense unit at Fresno, a tactical airlift unit at Van Nuys, an air rescue and recovery unit at Naval Air Station Moffett Field, a tactical fighter unit at March Air Force Base and a combat communications unit headquarters at North Highlands. Units of the combat communications group are located at North Highlands, Hayward, Sepulveda, Costa Mesa, San Diego and Ontario. All of these organizations and units are allotted to the State by the Department of the Air Force. The authorized strength of the California Air National Guard is 6,090 officers and enlisted personnel.

## Budget Adjustments

The 1990-91 budget proposes \$458,000 in Federal Trust Funds and 12.3 personnel years to support firefighting activities at Fresno ANG Base; \$20,000 in General Funds and \$60,000 in Federal Trust Funds and 1.9 personnel years for groundskeeping at Channel Islands ANG Base; and, an additional \$50,000 in General Funds and an increase in Federal expenditure authority of \$330,000 to provide additional maintenance support at the various Air National Guard bases throughout the State.

## 20.10 Training

## Program Element Statement

Plans are developed and maintained for employment of Air National Guard forces during state emergencies and federal mobilization. Support plans include airlift, communications, and other specialized services. The operations unit within this element is responsible for the control and management of resources committed to these missions and the implementation of training and flying schedules. Training is conducted utilizing USAF technical schools and on-the-job training at home station or training sites within the United States or overseas. Each individual trains a minimum of 39 days per year and proficiency is assured through periodic individual assessment and unit evaluations conducted by regular Air Force personnel. Unit training accomplishment is verified by Air Force inspectors general.

## 20.20 Logistics

## Program Element Statement

The federal government provides virtually all supplies, equipment, transportation, subsistence, and support services necessary for training, deployment, and commitment of the Air National Guard. Major tasks are procurement, issuance, and control of repair parts, administrative supplies, uniforms, fuels, meals, ammunition, mobilization stockpiles, housekeeping, and the highly technical maintenance of over 75 aircraft, 950 wheeled vehicles, and modern mobile radio, teletype, satellite and radio relay equipment. The State of California operates and maintains eleven Air National Guard facilities under a contract for federal reimbursement of a major portion of the costs.

## 30 OFFICE OF THE ADJUTANT GENERAL

## Program Objectives Statement

The objective of this program is to provide executive leadership, policy direction, and administrative services. The Adjutant General exercises direct command over the State's military forces until such time as those forces have been mobilized under federal authority.

\* Dollars in thousands, excluding salary range.

8940 **MILITARY DEPARTMENT—Continued**35.30 **Emergency Exercises****Program Element Statement**

This element was authorized for the first time in the 1988-89 fiscal year. The element permits the Military Department to participate in exercises designed to improve emergency response capabilities. It is necessary for the Military Department to routinely conduct emergency response exercises to test the viability of contingency plans and to validate alert notification, assembly and deployment procedures. This is especially critical to a timely and effective response since 85 per cent of the National Guard force consists of part-time personnel.

40 **MILITARY RETIREMENT****Program Objectives Statement**

This program provides retirement benefits, similar to those provided by the federal military services, to persons who entered state active duty prior to October 1, 1961 and have served 20 or more years, at least 10 of which have been on state active duty or have been separated for physical disability. All other permanent state employees are covered by the Public Employees' Retirement System. Currently, there are 48 retirees receiving benefits under the Military Retirement Program. There is one individual yet to retire under this system.

50 **CALIFORNIA CADET CORPS****Program Objectives Statement**

The California Cadet Corps is an educational program designed to develop qualities of leadership, patriotism and citizenship in the young men and women of this State. Approximately 55 junior and senior high schools participate in the program with an estimated total enrollment of 3,200 cadets. The Adjutant General is responsible for providing uniforms and equipment for cadets, administering the program statewide and conducting state level Cadet Corps competitions and activities. The Cadet Corps program has been identified as a school dropout prevention program by the Department of Education. In this respect the Cadet Corps program is especially effective in involving its members in school and community activities. The goals of the program are to expand within current funding limitations while emphasizing activation of high school units, and to increase cadet enlistments in the California National Guard following graduation from high school.

55 **STATE MILITARY RESERVE****Program Objectives Statement**

This program is organized to provide the State of California an organized and disciplined State military force in the event of federal mobilization of the National Guard. Administration of this program encompasses the management of people, supplies and equipment. The State Military Reserve is organized with a headquarters, two Area Commands and five brigades located in major Office of Emergency Services regions throughout the State. Additionally a medical brigade with five subordinate units train to assist the citizens of California in the event of medical emergencies. A Center for Military History is organized to chronicle the military contributions of Californians and maintain historical military artifacts. The current authorized strength of the State Military Reserve is 1,500 officers and enlisted personnel.

60 **FARM AND HOME LOAN PROGRAM****Program Objectives Statement**

This program is known as the California National Guard Members' Farm and Home Purchase Act of 1978 which was effective January 1, 1979. The objective of the program is to provide members of the California National Guard who are enlisted members, warrant officers, or commissioned officers who serve a six-year obligation, the opportunity to acquire farms and homes with low interest loans. Funds for loans are raised through the issuance of revenue bonds. An amount of \$2.5 million has been appropriated from the General Fund (Chapter 920, Statutes of 1981) for the purpose of creating the Supplementary Bond Security Account within the California National Guard Members' Farm and Home Building Fund of 1978 as backing for the revenue bonds issued. As of June 30, 1989, there are a total of 228 active home loans. The \$2.5 million will be repaid to the General Fund at the end of 30 years. The administration of the program is vested in the Military Department; however, all administrative functions, except eligibility determination, have been assigned to the Department of Veterans Affairs with the administrative costs of the program payable from revenue bond proceeds. The program will continue to be administered by the Military Department and Department of Veterans Affairs; however, no additional bonds will be sold during the budget year.

## 71 CALIFORNIA IMPACT PROGRAM

## Program Objectives Statement

The California Innovative Military Projects and Career Training (IMPACT) Program has been in continuous operation since 1977. The primary objective of this program is to utilize traditional military training and educational techniques to recruit, train, and job place, either in the military service or private work force, disadvantaged youth ages 17 to 21. This is accomplished by presenting a highly structured curriculum consisting of basic skills, (mathematics, English, and reading comprehension), pre-employment training and pre-military training. Each education and training module is designed to improve the IMPACT participant's self-esteem, instill a sense of self-discipline, organizational loyalty, and understanding of basic skills concepts.

Since its inception, the IMPACT Program has trained 5,101 participants, of which 2,119 participants have been job placed in the private work force, and 1,235 participants have entered the Active or Reserve Military Service. The goal for 1990-91 is to place at least 840 participants into full-time unsubsidized employment in the civilian workforce or the Active or Reserve Military Services.

## Budget Adjustments

The 1990-91 budget proposes \$681,000 in reimbursements from the Employment Training Fund administered by the Employment Development Department to continue the ongoing operational costs of the program and to provide 8 teacher positions (7.6 personnel years) one position at each training site. In addition, 0.7 personnel year temporary help-military that will be funded from within existing program resources.

## 9100 TAX RELIEF

Through a variety of programs, homeowners and renters are provided tax relief. Additional relief is provided to low-income senior citizens and disabled persons. Tax relief also is provided to people who agree to hold their land as open space under the Williamson Act of 1965.

This budget provides payments to cities and counties to help defray revenues lost as a result of property tax relief programs, and to individuals who qualify for special income tax offsets. Also, it includes funds for local housing authorities to rehabilitate housing units and enforce local building codes.

## SUMMARY OF PROGRAM REQUIREMENTS

	1988-89*	1989-90*	1990-91*

## 10 SENIOR CITIZENS' PROPERTY TAX ASSISTANCE

## Program Objectives Statement

Chapter 963, Statutes of 1967, provided for financial assistance to low-income California residents 62 years of age and older who own and occupy their homes through a system of direct reimbursements for portions of property taxes they paid. The percentage of assistance is inversely related to household income. The level of assistance ranged from 4 to 96 percent of the amount of property taxes paid on the first \$5,000 of assessed value.

Subsequent legislation increased both household income and assessed value levels. Chapter 1060, Statutes of 1976, substantially expanded assistance by providing for 96 percent assistance at \$3,000 income to 4 percent assistance at incomes of \$12,000, and by increasing the maximum assessed value on which assistance is calculated to \$8,500.

Chapter 569, Statutes of 1978, extended program eligibility to totally disabled persons, regardless of age. This provision was effective with claims filed for the 1978-79 fiscal year. Chapter 1207, Statutes of 1978, changed the basis on which assistance was calculated from assessed value to the first \$34,000 of market value, less the homeowners' exemption.

Chapter 1231, Statutes of 1988, increased, by 10 percent, the qualifying household levels of income for the Senior Citizens' Property Tax Assistance Program. Chapter 1087, Statutes of 1989, provided for a one-time increase in the level of subventions under this program on a prorated basis.

In 1988-89, there were approximately 240,000 claimants in this program and the Senior Citizen Renters' Tax Assistance Program. For the budget year, an estimated 213,000 individuals will participate in these programs. The average amount of assistance per participant will be approximately \$104. This program is administered by the Franchise Tax Board.

## Program Requirements

Continuing program costs (General Fund) .....	\$3,828	\$4,286	\$3,770

## 20 SENIOR CITIZENS' PROPERTY TAX DEFERRAL PROGRAM

## Program Objectives Statement

Chapter 1242, Statutes of 1977, implemented a constitutional amendment which established a property tax deferral program, commencing with 1977-78 property taxes, for California residents 62 years of age or older who own and occupy their own homes and who had household income of \$20,000 or less for calendar year 1976. For succeeding years, the income limit was adjusted to reflect changes in the California Consumer Price Index. Interest on the taxes deferred was set at seven percent.

Chapter 576, Statutes of 1978, expanded the program to persons whose principal residence is located on real property for which the person holds a possessory interest for a term of 45 years or more.

Chapter 43, Statutes of 1978, further extended the program to include persons who are tenant-stockholders of property in cooperative housing corporations and who occupy as their principal residence a unit owned by the corporation.

Chapter 1051, Statutes of 1983, provided for a variable interest rate tied to the Pooled Money Investment Fund, the inclusion of mobilehomes on rented or leased land, and the freezing of the income limit at \$34,000 for those who had filed in 1983 and at \$24,000 for those filing after 1983.

In November 1984, voters approved a constitutional amendment to extend the property tax deferral program to disabled homeowners. County administrative costs shown for the past and current years are actual rather than budgeted amounts. Funding for budget year costs for all counties is estimated to be \$232,000 and is shown in the budget for the "Commission on State Mandates". Approximately 19,000 senior or disabled homeowners participated in this program in 1988-89.

Costs:	1988-89*	1989-90*	1990-91*
State Controller .....	\$654	\$700	\$750

30 SENIOR CITIZEN RENTERS' TAX ASSISTANCE

Program Objectives Statement

Chapter 1060, Statutes of 1976, established an assistance program for low-income renters who are at least 62 years old. Chapter 569, Statutes of 1978, expanded the benefits and included the disabled, regardless of age. Assistance was based on a \$220 property tax equivalent assumed to be paid by all renters and was inversely related to income. Assistance ranged from 96 percent of the property tax equivalent for individuals with incomes of \$1,400 or less to 4 percent for individuals with incomes of \$5,000 or more. Chapter 569, Statutes of 1978, set the property tax equivalent at \$250, raised the maximum income level to \$12,000, and increased the income level at which maximum assistance was paid to \$3,000. Chapter 1231, Statutes of 1988, increased, by 10 percent, the qualifying household levels of income for the Senior Citizen Renters' Tax Assistance Program. There are proration provisions for individuals renting less than a full year. If a claimant owns a home part of a year and rents part of that year, a claim can be filed for either senior citizen assistance programs, but not both. The program is administered by the Franchise Tax Board.

Program Requirements

	1988-89*	1989-90*	1990-91*
Continuing program costs (General Fund) .....	\$17,839	\$19,930	\$17,527

50 HOMEOWNERS' PROPERTY TAX RELIEF

Program Objectives Statement

In order to reduce the property tax burden, the California Constitution exempts homeowners from paying taxes on the first \$7,000 market value of their principal place of residence. Statutes require the homeowner to occupy the dwelling on the property tax lien date of March 1 if it is to be classified as the principal place of residence. The Constitution also requires the State to reimburse local governments for revenues lost due to the homeowners' exemption. Over 5 million homeowners participate in this program.

Program Requirements

	1988-89*	1989-90*	1990-91*
Continuing program costs (General Fund) .....	\$348,393	\$353,619	\$358,923

60 SUBVENTIONS FOR OPEN SPACE

Program Objectives Statement

The Williamson Act of 1965 permits cities and counties to enter into contracts with landowners to limit the use of land to agricultural, scenic, and open-space purposes. Article XIII, Section 8, of the California Constitution permits land under such restrictions to be assessed at other than market value based on its limited use. The State provides reimbursements to cities, counties and school districts to partially defray the loss of property tax revenues. The subvention amount is determined by the type of land under contract: urban prime, other prime and nonprime.

This program reflects payments to cities and counties only. School district subventions are funded by Chapter 292, Statutes of 1978, and Chapter 282, Statutes of 1979, and are included in apportionments for education.

Chapter 1075, Statutes of 1979, provided that land under open space contracts may be assessed under the provisions of Article XIII A of the State Constitution (Proposition 13), if that value is less than the capitalization-of-income method of valuation. State payments will only be made on parcels where the value is based on capitalization of income.

Chapter 1087, Statutes of 1989, appropriated \$5 million to counties and cities in proportion to existing subventions during 1989-90. The Administration proposes an extension of this grant in 1990-91.

Program Requirements

	1988-89*	1989-90*	1990-91*
Continuing program requirements (General Fund) .....	\$14,468	\$19,600	\$19,600

80 RENTERS' TAX RELIEF

Program Objectives Statement

Chapter 1406, Statutes of 1972, established this program to provide tax relief to qualified renters. For taxable years beginning January 1, 1973, renters received an amount ranging from \$25 to \$45 depending on their adjusted gross income, with maximum relief at incomes of \$8,000 or more. For taxable years beginning January 1, 1976, the amount was changed to a flat \$37 regardless of the amount of a renter's adjusted gross income. Chapter 569, Statutes of 1978, expanded this program to include welfare recipients.

Chapter 1207, Statutes of 1979, increased the renters' credit from \$37 per qualified renter to \$137 for married couples, head of households and surviving spouses, \$99 for joint-custody heads of households, and to \$60 for all other renters.

This program is administered through the Personal Income Tax Program, with the Renters' Credit claimed as a refundable tax credit. The Personal Income Tax Account is reimbursed for revenue losses due to the Renters' Tax Relief Program.

It is estimated that 5,300,000 renters will participate in this program in 1989-90 and 5,400,000 in the budget year.

Program Requirements

	1988-89*	1989-90*	1990-91*

9100 TAX RELIEF—*Continued*

## 90 SUBSTANDARD HOUSING

## Program Objectives Statement

Chapter 238, Statutes of 1974, provided that if a taxpayer derived rental income from substandard housing, no deduction for interest, taxes, depreciation or amortization paid in conjunction with such substandard housing would be allowed under the Personal Income Tax or Bank and Corporation Tax Law. The State retained the revenue derived from this provision.

Chapter 1286, Statutes of 1978, provided that revenue derived from this provision shall be allocated to the cities and counties where the substandard housing is located for the enforcement of housing codes and rehabilitation of housing.

## 95 ENERGY CONSERVATION CREDITS

## Program Objectives Statement

Under current Personal Income Tax law, a credit is allowed for a percentage of the cost of installing energy conservation measures. In 1981, this credit was made refundable for low-income taxpayers. However, the 1981 Budget Act appropriated only \$1 for this item. As a result, taxpayers were never paid their refunds. Chapter 1325, Statutes of 1985, appropriated an amount to pay these refunds. Under current law, only prior years' claims for energy conservation were funded in 1987-88. This appropriation authority expired on September 30, 1988.

## 9210 LOCAL GOVERNMENT FINANCING

Local governments receive a variety of subventions from the State for designated purposes such as health, welfare, and judicial programs. The State also reimburses local governments for revenue lost due to the creation of tax exemptions. These local assistance expenditures are reflected in the individual budget areas for each specific program. In addition, several programs have been established to provide general purpose revenue to counties, cities, and special districts when special circumstances have occurred. The Local Government Financing program includes those payments to local government where the funds may be used for any general government purpose as well as funds for one-time, designated purposes.

Until June 30, 1984, the State provided subventions to various local entities for revenue lost by them as a result of the exemption of certain kinds of personal property from property taxation. Chapter 447, Statutes of 1984, eliminated this program and established a program of special supplemental subventions to cities, redevelopment agencies and multi-county special districts when these entities experience a loss due to the repeal of the personal property tax subvention. Special supplemental subventions to cities were discontinued in 1989-90. For 1990-91, the Administration proposes legislation to continue the special supplemental subvention to redevelopment agencies at a level proportionate to their debt-service costs as compared to total agency expenditures. This would result in savings to the General Fund of approximately \$15 million in the budget year.

Chapters 16 and 1110, Statutes of 1986, appropriated \$115 million to assist in repairing damages sustained in the storms of February 1986. Of this amount, \$10 million was appropriated to the Department of Social Services. An additional \$5 million dollars made available for levee repair was allocated by the Office of Emergency Services. The remaining \$100 million has been shown in this program beginning with the 1985-86 fiscal year and continuing in the 1986-87 and 1987-88 fiscal years. Chapter 469, Statutes of 1988, extended the availability of \$940,000 for flood-stricken counties. Flood relief expenditures include amounts expended to match Federal aid to school districts and other local governmental entities as well as wholly State-funded assistance provided to local governments in California. Chapters 16 and 1110 assigned counties the responsibility of submitting claims for the State assistance program.

Chapter 1286, Statutes of 1987, established a revenue stabilization program for counties. This program stabilizes the percentage of county general purpose revenues which are expended under match requirements in State programs. Payments to counties are based upon the difference between general purpose revenue growth and the growth in specified State-match requirements and are limited to amounts specifically appropriated for that purpose.

\* Dollars in thousands, excluding salary range.

## 9210 LOCAL GOVERNMENT FINANCING—Continued

In November 1987, the Governor called a special session of the Legislature to address the needs for disaster relief as a result of the fires which afflicted California during 1987 and the earthquake in October 1987. Several disaster relief programs were authorized at the special session. Funds were provided for both State and local governmental entities to match available Federal aid in repairing earthquake damage and to repair earthquake damage not covered under the Federal program. Funding for assistance to State and local agencies other than educational entities are presented in the display of the Office of Emergency Services budget. Assistance to local school districts, community colleges, and the State University is presented in the budget displays for those entities. The Department of Social Services received additional funding for assistance to earthquake victims who could not qualify for federal loans. The Department of Housing and Community Development received funding to aid in the repair of both owner-occupied and rental housing. This program includes \$2 million made available to replace property tax revenues lost by local governments as a result of the 1987 fires and the October 1987 earthquake.

Control Section 12.30(d), Budget Act of 1988, provided for transfer authority from the Reserve for Economic Uncertainties to the Disaster Response-Emergency Operations Account for local assistance in declared emergencies meeting specified criteria. For the 1988-89 year, \$2,700,000 is shown in this item as a result of such transfers.

Chapter 974, Statutes of 1988, appropriated a one-time \$10 million block grant to counties having a population of 600,000 or less to provide fiscal relief in 1988-89. These funds are general purpose revenues and may be used for any lawful purpose to the extent that they do not cause the recipient county to exceed its appropriations limit as specified in Article XIII B of the California Constitution.

In June 1988, the voters passed Proposition 70, which enacted the California Wildlife, Coastal, and Park Land Conservation Act. Authority was given to the State of California to issue up to \$776,000,000 in general obligation bonds to fund various projects through a number of local and State agencies. Proposition 70 also makes \$25,000,000 available to Monterey County for projects to preserve viewshed in the Big Sur area. These funds are expected to be transferred subject to the ability of Monterey County to assure that the tax-exempt general obligation bond proceeds can be applied to project costs in conformity with the arbitrage limitation provisions of the Federal Tax Reform Act of 1986. These transfers are not restricted to those fiscal years displayed.

## 9350 SHARED REVENUES

The purpose of the Shared Revenue program is the maintenance of the fiscal strength of the various governmental entities throughout the State. This is accomplished by the apportionment of special moneys collected by the State to local government on the basis of statutory formulas.

Program Requirements	1988-89*	1989-90*	1990-91*
Totals, Shared Revenues	\$2,671,101	\$2,824,390	\$2,947,380
General Fund	226	300	300
Special funds	2,604,230	2,758,787	2,904,777
Federal funds	66,645	65,303	42,303

### SUMMARY BY OBJECT RECONCILIATION WITH APPROPRIATIONS

## 2 LOCAL ASSISTANCE

## 001 General Fund

APPORTIONMENT OF TIDELAND REVENUES	1988-89*	1989-90*	1990-91*
A portion of the revenues received from tide and submerged lands is apportioned to each city or county having within its boundaries such lands granted to it by the State in which the State has reserved the rights to the mineral deposits. Tideland apportionment payments are calculated at \$15,000 plus one percent of remaining revenues. This revenue must be used for commerce, navigation, fisheries, protection of lands, or for beaches and the coastline. (Section 6817 of the Public Resources Code.) (Expenditures) (9460)	\$226	\$300	\$300

## 034 Geothermal Resources Development Account, General Fund

APPORTIONMENT OF GEOTHERMAL RESOURCES DEVELOPMENT	1988-89*	1989-90*	1990-91*
Forty percent of all money received from the federal government for geothermal leases is paid to each county based on its pro rata share of geothermal lease sale property. (Section 3821 of the Public Resources Code.)			
To counties (Expenditures) (9520)	\$2,558	\$2,354	\$2,354

## 042 State Highway Account, State Transportation Fund

APPORTIONMENT OF HIGHWAY PROPERTIES RENTAL RECEIPTS	1988-89*	1989-90*	1990-91*
Twenty-four percent of the rent collected on leases of land held for State highway purposes is paid to each county based on its pro rata share of total rental receipts. The Board of Supervisors determines the amount each taxing agency shall receive. However, if the rental property is located in a city, the city receives one-half of the allocation for that property. (Sections 104.6 and 104.10 of the Streets and Highways Code.)			
To counties (Expenditures) (9370)	\$3,331	\$3,400	\$3,400

## 062 Highway Users' Tax Account, Transportation Tax Fund

APPORTIONMENT OF MOTOR VEHICLE FUEL TAX FOR COUNTY ROADS	1988-89*	1989-90*	1990-91*
An amount equal to the revenue derived from 2.035 cents per gallon tax under the Motor Vehicle Fuel License Tax Law and 1.8 cents per gallon tax under the Use Fuel Tax Law is apportioned monthly among counties for maintenance of county roads. Payments are made for engineering costs, administrative expenses, snow removal, and heavy rainfall and storm damage. The majority of the money is apportioned based on the number of registered vehicles and miles of maintained county roads. (Section 2104 of the Streets and Highways Code.)			
To counties (Expenditures) (9480)	\$283,742	\$285,969	\$292,564
APPORTIONMENT OF MOTOR VEHICLE FUEL TAX FOR CITY STREETS	1988-89*	1989-90*	1990-91*
An amount equal to the revenue derived from 1.315 cents per gallon tax under the Motor Vehicle Fuel License Tax Law and 2.59 cents per gallon tax under the Use Fuel Tax Law is apportioned monthly to cities for maintenance of city streets. Payments are made for engineering costs, administrative expenses, and snow removal. Most of the revenue is distributed to cities based on population. (Sections 2107 and 2107.5 of the Streets and Highways Code.)			
To cities (Expenditures) (9490)	207,224	209,544	212,412

\* Dollars in thousands, excluding salary range.

## 9350 SHARED REVENUES—Continued

	1988-89*	1989-90*	1990-91*
<b>APPORTIONMENT OF MOTOR VEHICLE FUEL TAX FOR COUNTY ROADS AND CITY STREETS</b>			
An amount equal to the revenue derived from 1.04 cents per gallon tax under the Motor Vehicle Fuel License Tax Law is apportioned as follows: \$400 per month to each city and city and county, \$800 per month to each county and city and county, and \$30,000 per month to the Bicycle Lane Account in the State Transportation Fund. The balance of the revenue is apportioned based on registered vehicles in each county. The county receives the percentage of the revenue equal to the share of assessed value in the unincorporated area of the county. Cities in the county are apportioned the remainder based on population. (Section 2106 of the Streets and Highways Code.)			
To counties and cities ( <i>Expenditures</i> ) (9500) .....	\$129,637	\$130,111	\$132,292
Totals, Apportionment of Motor Vehicle Fuel Tax ( <i>Expenditures</i> ) .....	\$620,603	\$625,624	\$637,268

**064 Motor Vehicle License Fee Account, Transportation Tax Fund****APPORTIONMENT OF MOTOR VEHICLE LICENSE FEES**

A license fee is imposed annually on vehicles at a sum equal to two percent of the market value based on a depreciation schedule. The revenues are paid monthly. The Department of Motor Vehicles maintains responsibility for the collection of trailer coach fees for trailer coaches other than mobilehomes. Revenue and Taxation Code Section 11005 provided that 18.75 percent of Motor Vehicle License Fees be distributed to cities which had not levied a property tax prior to Proposition 13 and to counties. Chapter 1211, Statutes of 1987, ended the allocation to these cities, beginning in fiscal year 1988-89. Chapter 944, Statutes of 1988 (AB 1197), restored the allocation of revenue to the "no property tax cities". Amounts received are reduced by the amount of property tax revenues received as a result of the implementation of the Brown-Presley Trial Court Funding Act of 1988 (Chapter 945, Statutes of 1988). Distribution to counties is based on the amount of Personal Property Tax Relief Subventions received in 1982-83 and population.

To cities .....	\$769,873	\$832,203	\$872,577
To counties .....	1,115,863	1,206,205	1,308,865
To counties, trailer coach fees .....	12,645	13,469	14,227
Totals, Apportionment of Motor Vehicle License Fees ( <i>Expenditures</i> ) (9430) .....	\$1,898,381	\$2,051,877	\$2,195,669

**086 Cigarette Tax Fund****APPORTIONMENT OF CIGARETTE TAX**

Thirty percent of the 10-cent-per-package cigarette tax is apportioned to cities and counties. The money is divided between cities and counties based on their share of the local one-percent sales tax. Each county then receives its respective share. Fifty percent of the city money is allocated based on sales tax and fifty percent based on population. The disbursement is made monthly. (Section 30462 of the Revenue and Taxation Code.)

To cities .....	\$58,288	\$55,082	\$47,425
To counties .....	10,316	9,720	8,369
Totals, Apportionment ( <i>Expenditures</i> ) (9440) .....	\$68,604	\$64,802	\$55,794

**261 Off-Highway License Fee Fund****APPORTIONMENT OF OFF-HIGHWAY LICENSE FEES**

A four-dollar fee is imposed on every off-highway motor vehicle, in addition to registration fees, in lieu of all taxes levied on value for State or local purposes. Fifty percent is paid to counties and cities and counties based on population and fifty percent is paid to cities and cities and counties based on population. The payments are made each July and January. (Sections 38230 and 38240 of the Vehicle Code.)

To cities .....	\$370	\$421	\$421
To counties .....	369	420	420
Totals, Apportionment of Off-Highway License Fees ( <i>Expenditures</i> ) (9380) .....	\$739	\$841	\$841

**451 Mobilehome and Commercial Coach License Fee Account****APPORTIONMENT OF TRAILER COACH FEES**

Responsibility for the collection of trailer coach fees rests with the Department of Housing and Community Development. If the trailer coach is located in a city, the fee is equally split among the county, city and school district; if the trailer coach is located in an unincorporated area, the fee is equally split between the county and school district. (Health and Safety Code Section 18077.)

To counties ( <i>Expenditures</i> ) (9425) .....	\$10,014	\$9,889	\$9,451

<sup>1</sup> This fund contains tax proceeds subject to the State Appropriations Limit, Article XIIIB of the Constitution. In addition to the amounts reflected as expenditures in this statement, appropriations subject to the limit are adjusted for increases or decreases in the fund's Reserve for Economic Uncertainties and do not include any amounts expended for debt service, subventions to local government, compliance with federal or court mandates and from appropriations made in previous years (carryovers). Additional information on the State Appropriations Limit is provided in the Governor's Budget Summary.

\* Dollars in thousands, excluding salary range.

## 9590 PAYMENT OF INTEREST ON POOLED MONEY INVESTMENT ACCOUNT LOANS

During 1986 the Federal Government revised its rules on bond arbitrage earnings for states and local governments in conjunction with other tax rule changes resulting from the 1986 Federal Tax Law. As a result, the State of California has not sold any General Obligation (G.O.) bonds since the 1985-86 fiscal year. In simple terms arbitrage is the income earned on the rate difference between what an entity pays to borrow money and what it earns by reinvesting the borrowed money prior to its actual expenditure. The new arbitrage provisions of the Federal Government require states and local governments to spend ninety percent (90%) of the cash proceeds of a bond sale on the bond project within six months of the bond sale. If the entity fails to meet this requirement all arbitrage earnings on that bond issue may be forfeited to the Federal government as well as any penalties the Federal government might impose. In addition, that particular bond issue could lose its tax exempt status. This could, in turn, raise the interest rate that the state would have to pay for G.O. and other bond sales in the market place which could cost the State millions of dollars every year.

In response to this moratorium on bond sales AB 55 (Chapter 6, Statutes of 1987) authorized the Pooled Money Investment Board (PMIB) to make loans from the Pooled Money Investment Account (PMIA) to bond funds for cash flow purposes pending the sale of bonds. By borrowing the money from the PMIA and building the project prior to bond sales the State can ensure compliance with the new Federal Tax laws and also protect the tax exempt status of the bonds. Since the dollar amount of the loan is dependent on the amount of voter approved debt, the loan is considered a debt service cost for purposes of calculating appropriations subject to the appropriations limit specified in Article XIII B of the California Constitution.

SB 2172 (Chapter 984, Statutes of 1988), amended Section 16312 of the Government Code. This section now specifies that the interest cost on Pooled Money Investment Account loans will be paid from the proceeds of a bond sale. Only on specified (exempted) nonself-liquidating bonds will the General Fund continue to pay the associated interest cost. This reduced the General Fund interest cost for PMIA loans starting in the second fiscal quarter of 1988.

The columns below display estimated PMIA loans interest cost by quarter in the aggregate for exempt non-self liquidating G.O. Bonds.

## 9610 LEASE-REVENUE NOTES AND BONDS

The use of non-traditional debt (i.e., long-term lease-purchase or lease-revenue arrangements) by agencies of the State of California has increased significantly over the past few years. This budget is an informational budget only. It is limited to those long term lease arrangements for which a bond or note has been issued as the underlying source of funds. The appropriations needed for the lease payments shown here are contained in the support budgets of the affected departments or agencies. It is hoped that this budget will meet the needs of the financial community for summary information relating to the non-traditional debt. The proposed sales detailed below are as anticipated by the Department of Finance and the State Treasurer's Office.

Program Requirements		1988-89*	1989-90*	1990-91*	
Lease-Revenue Payments.....		\$35,192	\$35,192	\$85,530

## 9620 PAYMENT OF INTEREST ON GENERAL FUND LOANS

## Program Objectives Statement

Chapter 312, Statutes of 1907, authorized transfers to the General Fund from other funds in the State Treasury whenever the General Fund was exhausted and thereby enabled the General Fund to overcome normal cashflow imbalances. All money so transferred had to be returned as soon as possible, and such transfers were not to interfere with the day-to-day needs of the loaning funds. These provisions have been modified slightly over the years and are now contained in Section 16310 of the Government Code. The interfund transfers authorized by these provisions constitute all of the State's internal sources of borrowable resources.

The internal borrowing provisions authorized by Section 16310 of the Government Code have been used from time-to-time to meet the State's short-term, cashflow borrowing needs. Although monthly imbalances between receipts and disbursements typically occur within each year, the internal borrowing authorization has only been used in those years in which the beginning reserve (or surplus) was insufficient to cover the imbalance. This type of borrowing does not indicate fiscal weakness and, in fact, may be preferable to carrying too large a reserve.

In addition to the short-term, internal borrowing described above, temporary external borrowing has been validated by the courts if it meets what has become known as the "appropriation doctrine." Under this rule, an obligation is not considered a debt or liability within the State Constitutional limitation on indebtedness (Section 1 of Article XVI) if an appropriation is made from existing funds, or reasonably anticipated funds subject to appropriation. This doctrine was invoked in 1933 and 1936 to uphold the use of registered warrants during the Great Depression and again in 1971 to validate the State of California Notes provisions of Chapter 223, Statutes of 1971. These latter provisions were invoked in 1971-72 in lieu of the more costly registered warrant authority used during the Depression and, like registered warrants, required the exhaustion of all internal sources of funds before being implemented. The State of California Notes provisions were re-enacted by Chapter 10X, Statutes of 1983 (AB 28X), and employed in both 1982-83 and 1983-84.

Until the 1984-85 fiscal year, use of either of the two external borrowing authorities signaled a fiscal crisis since all internal sources of funds had to be exhausted first. During the most recent fiscal crisis, both of these external borrowing authorities were invoked. The \$400 million of Revenue Anticipation Warrants sold in November 1982 were issued under the registered warrant authority. While the \$850 million of Revenue Anticipation Notes sold in March 1983, the \$1 billion of Bridge Series Notes sold in July 1983, and the \$1.2 billion of Revenue Anticipation Notes sold in August 1983 were all issued under the newly re-enacted State of California Notes provisions.

For 1984-85, the State implemented a new cash management program. Chapter 268, Statutes of 1984 (the 1984 Trailer Bill), modified the State of California Notes provisions by eliminating the requirement that all internal sources of funds must be exhausted before issuing notes. Whereas in the past the State relied on internal sources of funds to meet its normal cashflow borrowing needs, it will not be relying on external funds for this purpose. Under this new program, the use of external funds will result in a savings to the General Fund, as well as increased revenue to the various special funds which the General Fund would otherwise have borrowed interest free per Section 16310 of the Government Code. The \$1.4 billion of Revenue Anticipation Notes sold in August 1984 were issued under the newly amended Note provisions. This sale was the first time that the State utilized short-term external borrowing sources without exhausting internal sources of funds.

For 1985-86, the State expanded the new cash management program which was established in the prior fiscal year. Chapter 139, Statutes of 1985 (SB 1465), changed the Contingency Reserve for Economic Uncertainties from a General Fund special account to a special fund. Since monies in special funds are not considered a General Fund resource for purposes of determining the State's cash flow borrowing needs, the effect of this change was to expand the General Fund's external, cash flow borrowing abilities by the amount of money in the new Special Fund for Economic Uncertainties. The \$2.3 billion and \$2.6 billion of Revenue Anticipation Notes sold in August 1985 and August 1986, respectively, were issued under these newly expanded external cash flow borrowing provisions. Recently enacted federal legislation (The Tax Reform Act of 1986) is expected to limit the State's future external borrowing abilities to pre-Chapter 139 levels.

In 1987-88 the State of California sold \$2.1 billion of Revenue Anticipation Notes. This increased to \$3.2 billion in 1988-89 and \$3.0 billion in 1989-90. It is estimated that the State of California will sell \$3.5 billion of Revenue Anticipation Notes in 1990-91 to meet its cash flow needs.

Included in this presentation are statements of cashflow, and accounts payable and receivable for the past, current, and budget years. Neither cash receipts nor cash disbursements match revenues and expenditures presented elsewhere in this Budget. In order to reflect cashflow, Budget data is adjusted for cash collected by an agency but not yet transmitted to the State Treasurer for deposit and for accrued expenditures. Receipt and disbursement projections are adjusted to reflect various changes in statutes, anticipated legislative action, and administrative action. The estimated 1989-90 and 1990-91 cash flows incorporate revenue and expenditure measures reflected in this Budget, as of January 10, 1990.

## Authority

Government Code Sections 12020, 12021, 16310, 17300-17313.

Budget Act Control Section 12.30.

## 9650 HEALTH BENEFITS FOR ANNUITANTS

This program provides health protection and dental care for retired employees. It began on January 1, 1962, with an employer contribution of \$5.00 per month toward the cost of a basic health plan. Since then, major medical plans, Medicare, and plans supplementing Medicare have been developed. Dental care was added July 1, 1981, and became effective on January 1, 1982, after open enrollment was completed.

An increase in the 1989-90 employer contribution for health premiums was required in order to maintain the average 100/90 percent contribution formula established in Government Code Section 22825.1. Monthly contribution maximums were changed to \$136 for a single enrollee, \$255 for an enrollee and one dependent, and \$322 for an enrollee and two or more dependents by the Budget Act of 1989. Dental care premiums vary by plan and number of dependents.

The 1989-90 program costs include an additional \$3,900,000 to provide one-time supplemental PERSCARE premium payments required by enactment of Chapter 1388, Statutes of 1989 (SB 1264).

The 1990-91 budget proposes an increase of \$47.9 million General Fund to fund increases attributable to both premium rate changes of 22.0 percent for health benefits and 18 percent for dental (on policy anniversaries) and growth in the number of health and dental benefit enrollees by 5.0 percent and 8.67 percent, respectively. The elements of those changes are:

	<i>Estimated Fiscal Impact *</i>	
	<i>1990-91 Enrollment Change</i>	<i>1990-91 Premium Change</i>
Health Benefits.....	\$8,700	\$38,200
Dental Benefits.....	\$1,329	\$3,583

<sup>1</sup> The Department of Food and Agriculture Budget (8570) includes a transfer from the Fair and Exposition Fund to the General Fund. This transfer is made to fund a portion of the costs of health benefits for annuitants. The transfer amount is included in both the Budget Act Appropriation for Item 9650 and the Performance Measures above and is displayed here for information only.

## 9670 LEGISLATIVE CLAIMS

## 10 EQUITY CLAIMS

## Program Objectives Statement

Otherwise known as the "omnibus claims bill," this program includes all claims approved by the three-member Board of Control and referred to the Legislature for payment. The program provides an equitable procedure for the payment of the following categories of claims:

(a) For which no appropriation has been made or for which no fund is available but the settlement of which has been provided for by statute or constitutional provision.

(b) For which the appropriation made or fund designated is exhausted.

(c) For which settlement is not otherwise provided for by statute or constitutional provision.

The provision which directed the State Board of Control to submit special appropriation measures on a quarterly basis (Chapter 622, Statutes of 1974) was amended by Chapter 182, Statutes of 1976 to require such measures to be submitted at least twice during each calendar year.

## MAJOR BUDGET ADJUSTMENTS

Current year expenditures for the payment of 1989-90 equity claims include funds appropriated through the enactment of Chapters 260, 787, 1126, and 1454, Statutes of 1989.

9673 SAN FRANCISCO-OAKLAND BAY BRIDGE AND I-880  
CYPRESS STRUCTURE DISASTER FUND

## Program Objectives Statement

Chapters 21 and 22, First Extraordinary Session of 1989, established the San Francisco-Oakland Bay Bridge and I-880 Cypress Structure Disaster Fund. The purpose of this fund is to allow prompt compensation and settlement to victims and their families for personal injury, death or personal property loss arising from the collapse of the Bay Bridge and the I-880 Cypress structure caused by the October 17, 1989 earthquake without regard to legal liability, fault, or the necessity of litigation.

Provisions are included to provide a procedure for making emergency payments and settling claims against the State arising from the collapse of the specified state-owned structure and bridge. A two phase procedure for handling claim applications is established. Phase I provides for immediate payments, as specified, to an individual who was injured, or to beneficiaries if an individual was killed, to a maximum of \$200,000 per family. Phase II provides for Board of Control review and settlement offer within six months after filing a claim. If a claimant rejects the offer, the claimant may pursue remedy through the courts.

Chapter 22 transfers \$30 million from the General Fund for purposes of this program.

9695 **UNIVERSAL TELEPHONE SERVICE PROGRAM****Program Objectives Statement**

Chapter 1143, Statutes of 1983 directed the Public Utilities Commission to design and implement a class of universal telephone service to meet minimum residential communications needs. This program provided telephone access for emergency communications with public agencies and private medical services as well as for maintaining necessary social contacts by the elderly, the handicapped and the infirm. Under this program, which was implemented July 1, 1984, households with an annual income less than 150% of federal poverty guidelines as adjusted for family size could receive basic telephone service at a cost of one half the basic residential rate. The cost of this subsidized program was financed by a tax not to exceed 4 percent on every telephone service supplier in the State based on gross revenues received from intrastate telecommunications service. The tax rate was determined annually by the Public Utilities Commission to assure sufficient revenue to fund the Universal Telephone Service Program.

Chapter 163, Statutes of 1987 (AB 386, Moore) repealed the Moore Universal Telephone Service Act and instead, implemented the Universal Lifeline Telephone Service program. Under this program, effective July 15, 1987, the former tax on all intrastate telecommunications service was replaced with a 4 percent surcharge on all interexchange and local exchange carriers' toll services. The surcharge is collected by the telephone companies and the funds deposited in the Universal Lifeline Telephone Service Trust, a non-State fund. An administrative committee has been established to provide fiscal oversight of the trust and is responsible for the payment of expenses incurred under the program.

9720 **WORKING CAPITAL ADVANCES****PRISON INDUSTRY REVOLVING FUND**

Chapter 1413, Statutes of 1985, authorized a transfer of \$15,865,000 from the General Fund as a loan to the Prison Industry Revolving Fund to provide funding for new enterprises at various state institutions. Of the \$15,865,000 authorized for transfer, \$13,220,861 was loaned to the Prison Industry Revolving Fund. The remaining balance of \$2,644,139 reverted to the General Fund on September 25, 1988. All money loaned shall be repaid, with interest, to the General Fund.

## 9800 AUGMENTATION FOR EMPLOYEE COMPENSATION

## Program Objectives Statement

This program reflects proposed augmentation amounts for Civil Service and related employee compensation. Actual salary and benefit increases within these amounts are subject to bargaining agreements for specified civil service represented employees. The base salary and benefit levels are included in individual agency budgets.

Appropriations for this budget item are allocated to the individual State agencies based on their budget needs following the approval of Memoranda of Understanding (MOU) for represented employees and the announcement of salary and benefit levels by the Department of Personnel Administration or other authorized employer for non-represented employees.

All twenty collective bargaining units for represented civil service employees have ratified their MOU's with the State. Generally, the approved MOU's reflect an agreement for a three year contract period covering the 1988-89 through the 1990-91 fiscal year, inclusive. The approved multi-year contract includes the following employee compensation agreements:

- 1988-89 An average salary increase of up to six percent effective June 1, 1989. Health, dental, vision benefit funding.
- 1989-90 An average salary increase of up to four percent on January 1, 1990, and an additional \$32 million for special salary and other adjustments. Health, dental and vision benefit funding.
- 1990-91 A salary increase commensurate with the increase in the U.S. Consumer Price Index with a maximum salary increase of up to 5 percent but not less than a 3 percent increase effective January 1, 1991. Health, dental and vision benefits.

For those represented employees without approved MOUs and for non-represented employees, agencies were instructed to include pay and benefit adjustments in their baseline budgets similar to the typical settlements already approved; subsequent adjustments in agencies' spending authority will be made as those final agreements are approved. Therefore allocation and expenditure levels displayed below for this budget item could change as a result of any such adjustments.

The Employee Compensation Programs for the University of California, Hastings College of the Law and California State University are shown in this section for information only. Funds for higher education employee compensation increases are proposed under the respective budgets of each higher education segment.

## 9810 PAYMENT OF SPECIFIED ATTORNEY FEES

This budget contains funding for payment of attorney fees awarded for actions arising in State courts under the provisions of Code of Civil Procedure (CCP) Section 1021.5, the "private attorney general" doctrine, or the "substantial benefit" doctrine. CCP Section 1021.5 provides for the payment of attorney fees in cases resulting in the enforcement of an important right affecting the public interest. The budget for payment of specified attorney fees includes \$1,975,000 for State court awards. Control provisions preclude payment of State court awards made pursuant to CCP Section 1021.5 from support items, unless specifically set forth in budget act language, and limits State court awards to a maximum hourly attorney fee rate of \$125.

## 9818 FEDERAL LEVY OF STATE FUNDS

The Federal Levy of State Funds expenditure program is based upon the authority of the Federal courts, under certain circumstances, to issue a judgment or "writ of execution" against the State of California. In such cases, funds are attached from accounts maintained by the State Treasurer's Office at State depository banks. Since no specific appropriation for these judgments can be made, the Office of the State Controller normally charges these claims against the unappropriated surplus of the General Fund.

The Summary of Federal Levies lists all court-ordered levies paid by the Office of the State Controller for the 1988-89 fiscal year and through December 26, 1989 of the 1989-90 fiscal year.

APPROPRIATIONS	1988-89*	1989-90*	1990-91*
Court-ordered levies (unclassified) (expenditures).....	\$813	\$884	-

## 9840 RESERVE FOR CONTINGENCIES OR EMERGENCIES

The Budget Act annually provides appropriations for unforeseen contingencies or emergencies for which no appropriation or an insufficient appropriation has been made. Amounts as required are allocated to the various agencies by the Department of Finance based upon the determination of need. These appropriation items specifically prohibit the use of the authority in Section 11006 of the Government Code to fund deficiencies. Because the amounts provided in the Budget Act are token amounts and typically cannot meet total deficiency funding needs, the Department of Finance annually sponsors a deficiency bill to provide additional funding. General Fund loans are authorized to meet the needs of programs which would be curtailed due to delayed receipt of reimbursements, revenues or other financing.

SUMMARY OF PROGRAM REQUIREMENTS	1988-89*	1989-90*	1990-91*
10 Totals, Expenditures (Unallocated) .....	-	\$4,500	\$4,500
General Fund .....	-	1,500	1,500
Special funds .....	-	1,500	1,500
Nongovernmental cost funds .....	-	1,500	1,500

In the 1988-89 fiscal year, deficiency appropriations were approved in the amount of \$204,332,000 for the General Fund, \$14,640,000 for the special fund and \$5,105,000 for nongovernmental cost funds. A deficiency appropriation of \$330,482,000 for the General Fund, \$12,596,000 for special funds and \$2,403,000 for the nongovernmental cost funds will be submitted to finance required allocations in the 1989-90 fiscal year. This budget reflects \$1,500,000 (General Fund), \$1,500,000 (special funds) and \$1,500,000 (nongovernmental cost funds) as expenditures in the 1989-90 fiscal year in this section of the budget. It is proposed that \$1,500,000 be appropriated for the 1990-91 fiscal year for each of the funding sources. The authorization to make temporary loans from the General Fund is proposed to be continued at \$2,500,000 for the 1990-91 fiscal year.

The detail below includes allocations for emergencies or contingencies from the General Fund, special funds, and nongovernmental cost funds and loans from the General Fund. All of these allocations are shown as available funds in each applicable agency budget.

## DETAIL OF ALLOCATIONS IN AGENCY BUDGETS

## STATE OPERATIONS

	1988-89*	1989-90*	Fund (Class) <sup>1</sup>
<b>Legislative/Judicial/Executive</b>

## 9860 UNALLOCATED CAPITAL OUTLAY

## PROJECT PLANNING

Appropriations for project planning provide for allocations to agencies for the purpose of securing sound cost estimates for future projects. These allocations are included in this budget as expenditures.

## INCREASED COST OF CONSTRUCTION

Existing law provides specific appropriations for the Director of Finance to augment capital outlay projects upon approval of the State Public Works Board. These augmentations are made when a capital outlay project cannot be undertaken or completed because the estimate exceeds the amount available, bids received are in excess of the estimate, or acquisition costs for real property are in excess of the appropriation. Savings from completed projects are transferred to these appropriations and are available by law for reallocation.

This Unallocated Capital Outlay Budget provides the summary presentation of the allocations made from Section 16409 of the Government Code, General Fund. The expenditures from allocations are included in individual agency budgets. That part which has not been allocated but which is estimated to be needed for further allocations is included here as an expenditure.

For those allocations which are made from fund surpluses pursuant to Government Code Section 16352, rather than the specific appropriations cited above, the allocations are reflected only in the individual agency budgets.

## MATCHING FUNDS

Matching funds for energy grants to higher education facilities are included from the Higher Education Capital Outlay Bond Fund of 1990.

## FUND CONDITION

Fund Condition statements which are not associated with a particular program are also reflected in this budget.

## Summary of Program Requirements

	1988-89*	1989-90*	1990-91*

## 9885 RESERVE FOR LIQUIDATION OF ENCUMBRANCES

Chapter 1286, Statutes of 1984 (AB 3372), requires the state to conform its financial management system to Generally Accepted Accounting Principles (GAAP). GAAP provides for uniform standards and guidelines for financial accounting and reporting. For several years, the Department of Finance, the Auditor General, the State Controller and state agencies have been implementing conversion of their accounting processes and financial statements in a manner consistent with the application of GAAP.

Beginning with the 1989-90 Governor's Budget, an additional step was taken towards conformance with GAAP. Encumbrances (obligations for which goods and services have not been received by the State), are now presented as a reserve against the General Fund balance rather than being included in expenditure totals. This budget reflects the state-wide adjustment to expenditures for encumbrances for the 1988-89, 1989-90 and 1990-91 fiscal years.

### SUMMARY OF PROGRAM REQUIREMENTS

	1988-89*	1989-90*	1990-91*
Encumbrance Adjustment (General Fund) .....	-\$279,000	-\$50,000	-

### COMPUTATION OF ENCUMBRANCE ADJUSTMENT

The State Controller has accumulated a General Fund encumbrance total of \$279 million from 1988-89 year-end financial statements submitted by state agencies.

For the 1988-89 year, it is estimated that \$50 million of the total encumbrances of \$279 million will be reverted. Therefore, the reserve for encumbrances for the 1988-89 year is reflected as \$229 million which will be liquidated in 1989-90. Also, for budgeting purposes, encumbrances are assumed to be liquidated within one year. The following table summarizes this methodology and the calculation for the encumbrance adjustment.

	1988-89*	1989-90*	1990-91*
1988-89 Encumbrances .....	-\$279,000	\$229,000	-
1989-90 Encumbrances .....	-	-\$279,000	\$279,000
1990-91 Encumbrances .....	-	-	-\$279,000
Encumbrance Adjustment .....	-\$279,000	-\$50,000	-

### SUMMARY BY OBJECT

## 9890 SPECIAL FUND FOR ECONOMIC UNCERTAINTIES

### Special Fund for Economic Uncertainties

Section 12.30 of the Budget Act of 1980 established the Reserve for Economic Uncertainties within the General Fund. Monies are appropriated to this reserve to ensure the ability of the State to meet General Fund obligations in the event of declining revenues or unanticipated expenditures. This reserve is consistent with the provisions of Article XIII B of the State Constitution. Section 12.30 of the annual Budget Act specifies general control provisions relating to the reserve. Transfers back to the General Fund from the Reserve are based upon the State Controller's Preliminary Annual Report as of June 30 of the year of the Budget Act. Chapter 139, Statutes of 1985, changed the Contingency Reserve for Economic Uncertainties (RFEU) from a General Fund special account to a special fund entitled Special Fund for Economic Uncertainties.

### Disaster Response-Emergency Operations Account

Chapter 1562, Statutes of 1985, as amended by Chapters 16 and 1110, Statutes of 1986, and Chapters 1X and 2X of the First Extraordinary Session of 1989 established the Disaster Response-Emergency Operations Account within the Special Fund for Economic Uncertainties. This account is used for allocations to State and local agencies for reimbursement of emergency and disaster response costs as a result of a state of emergency proclamation by the Governor. Allocations are made by the Director of Finance.

## 9895 PETROLEUM VIOLATION ESCROW ACCOUNT PROGRAM

## Program Objectives and Description

The Petroleum Violation Escrow Account (PVEA) is derived from negotiated settlements and judgments against U.S. oil companies stemming from legal actions by the Federal Government to recover oil company overcharges during the period of price regulations, from August 1973 to January 1981. Monies collected and not yet disbursed are held in a Federal Department of Energy (DOE) escrow account. Disbursement of the funds to the States is generally determined by the DOE's Office of Hearings and Appeals (OHA), but may be specified by the courts. One allocation, made in the 1983 Federal budget, was the result of Congressional action.

The Budget Act of 1988 appropriated \$10 million from available PVEA funds to the Department of Transportation (Caltrans) for Transit Capital Improvements and also appropriated \$10 million to the Department of Economic Opportunity (DEO) for Low Income Energy Assistance. In 1988-89, the Governor also signed legislation which appropriated an additional \$153,845,000 in PVEA funds. The largest amount made available was \$60,000,000 for a school bus demonstration program which was proposed in the 1986-87, 1987-88, and 1988-89 Governor's Budgets. This program is designed to demonstrate the use of new fuel efficiency technology through the replacement of obsolete and unsafe school buses with new fuel efficient buses. Other significant appropriations included \$29,945,000 for transit capital improvement projects, and \$10,000,000 for financing of ride sharing programs.

The Budget Act and other legislation signed by the Governor appropriated all PVEA funds which had been transmitted to California plus funds expected to be available in 1988-89. Federal officials have recently been less optimistic than previously concerning the amount of PVEA funds which will be received during fiscal year 1988-89. However, interest earned on PVEA funds which have been appropriated, but not yet expended, and which has not been committed for any specific purpose through legislation is greater than anticipated. Federal officials also have indicated that California will receive some PVEA funds during 1989-90. Revenues from these sources are expected to be sufficient to offset the potential reduction in previously anticipated revenues.

The 1990-91 Governor's Budget proposes a transfer of \$2 million to the Katz Schoolbus Fund for the School Bus Demonstration program administered by the Energy Commission and \$2 million for the Weatherization Program administered by the Department of Economic Opportunity. The amount proposed for the Energy Commission also includes an additional \$495,000 for administrative expenses incurred as a result of previously funded programs.

## 9896 OUTER CONTINENTAL SHELF LAND ACT SECTION 8(g) REVENUE FUND

HR 3128, the Federal Budget Reconciliation Act of 1986, established a repayment procedure by which states would receive funds pursuant to a settlement regarding Section 8(g) of the Outer Continental Shelf Land Act. Under HR 3128, California received an initial disbursement of \$338 million in 1985-86 plus, on an ongoing basis, 27 percent of the royalties from oil pumped from specified federal submerged lands adjacent to California. HR 3128 also provided that, commencing in 1986-87, along with the monthly royalty disbursements, California would begin receiving distributions, called "recoupment payments", totaling \$289 million over a 15-year period. The payments would be 3 percent of \$289 million (or \$8.67 million) per year for the first five years; 7 percent (or \$20.23 million) per year for the second five years; and 10 percent (\$28.9 million) per year for the last five years. Recoupment payments are to be made on or about April 15 of each of the 15 fiscal years.

**9900 STATEWIDE GENERAL ADMINISTRATIVE EXPENDITURES (PRO RATA)****Program Objectives Statement**

Government Code Sections 11270-11275 and 22828.5 provide for recovery of General Fund costs for statewide general administrative expenditures (Pro Rata) from special funds.

The various departmental budgets normally include funds to pay for the Pro Rata charges. In order to ensure that funding is provided to pay for Pro Rata charges, Government Code Section 13332.03 allows for transfers from Special Funds to the General Fund in those cases where appropriate funding was not provided in items.

# APPENDIX AND INDEX

---

# Budgetary Process

The Governor's Budget is the result of a process which begins more than one year before the budget becomes law. When presented to the Legislature on January 10 of each year, the Governor's Budget incorporates revenue and expenditure estimates based upon the most current information available through late December. In the event that the Governor wants to change the budget presented to the Legislature, including adjustments resulting from changes in population, caseload or enrollment estimates, the Department of Finance proposes adjustments to the Legislature during the budget hearings through Finance Letters. During late spring, usually May and June, the Department of Finance submits revised expenditure and revenue estimates for both the current and budget years to the Legislature. This update process is referred to as the May Revision. The Department of Finance provides a further update on revenues and expenditures to the Legislature during August. Listed below are the key documents used in the budget process.

Title	Purpose	Prepared/Issued By	When
Budget Letters and Management Memos	Convey Administration guidelines for budget preparation to agencies and departments.	Governor/Department of Finance	April through December
Budget Change Proposals	Proposes and documents budget changes to maintain the existing level of service or to change the level of service.	Agencies and departments submit to Department of Finance for analysis	July through September
Governor's Budget	Governor proposes budget for the upcoming fiscal year.	Governor/Department of Finance	January 10
Governor's Budget Summary	A summary of the Governor's Budget.	Governor/Department of Finance	January 10
Budget Bill	Requests spending authorization to carry out Governor's expenditure plan (Legislative budget decision document.)	Department of Finance/Legislature	January 10
Budget Analysis	Analysis of the budget, including recommendations for changes to the Governor's Budget.	Legislative Analyst	February
Budget Update	Compilation of Budget Change letters sent to Fiscal Committees.	Department of Finance	March
May Revision of General Fund Revenues and Expenditures	Update of General Fund revenues, expenditures and reserve estimates based on the latest economic forecast.	Department of Finance	Mid-May
Budget Act	The primary annual expenditure authorization as approved by the Governor and Legislature, including a listing of Governor's vetoes.	Legislature/Governor	Late June
Supplemental Report of the Committee on Conference on the Budget Bill	Contains language on statements of intent and requests for information or studies.	Legislative Analyst	Early July
Final Budget Summary	Update of the individual Budget Act items with changes by the Governor's vetoes, including summary budget schedules.	Department of Finance	Mid-July
Final Change Book	Update of the changes to the detailed fiscal information in Governor's Budget in accordance with the Budget Act.	Department of Finance	Late July
Budget Update	Update of General Fund Revenues	Department of Finance	August
General Fund Update and Financial Legislation Report	Update of revenue and expenditure estimates, including financial legislation.	Department of Finance	November/December

# Glossary of Budget Terms

The following budgetary terms are used frequently throughout the Governor's Budget, the Governor's Budget Summary and the annual Budget (Appropriations) Bill. Definitions are provided for terminology which is common to all activities. For definitions of terms peculiar to a specific program area, please refer to the individual budget presentation of interest.

The definitions of other budget-related terms may be found in the State Administrative Manual and in the annual Budget Bill.

## **Administration Program:**

An accounting for departmental central management costs. These include such costs as the Director's Office, Legal Office, Personnel Office, Accounting and Business Services functions that generally serve the whole department.

"Administration-distributed" represents those costs which are more properly distributed to the program activities of a department as indirect costs.

## **Allocation:**

A distribution of funds, or an expenditure limit established for an organization unit.

## **Allotment:**

A part of an appropriation, to be expended for a particular purpose during a specified time period. An allotment is generally authorized on a line-item expenditure basis.

## **Appropriation:**

An authorization from a specific fund to a specific agency to make expenditures/incur obligations for a specified purpose and period of time. The Budget Act contains many appropriations, or items. These appropriation items are limited to one year, unless otherwise specified. Appropriations are made

by the Legislature in the annual Budget Act and in other legislation. Legislation can provide for continuing appropriations (which require no subsequent legislative action) and are also provided by the California Constitution.

## **Appropriations Limit:**

As defined in Section 8 of Article XIII B of the California Constitution, enacted by the passage of Proposition 4 at the November 6, 1979 general election, the growth in the level of certain appropriations from tax proceeds are generally limited to the level of the prior year's appropriation limit as adjusted for changes in cost of living and population. Other adjustments may be made for such reasons as the transfer of services from one government entity to another.

## **Augmentation:**

An increase in an allotment. A control section of the Budget Act authorizes the increase in expenditures for a program, category, or project by transfer from any other program, category, or project within the same schedule. A separate section of the Budget Act authorizes the augmentation of scheduled amounts from other departments, and from the federal government to the extent such funds have not been taken into consideration in the appropriation schedules. Both control sections require the reporting of specified augmentations to the chairperson of the committee in each house which considers appropriations and to the Chairperson of the Joint Legislative Budget Committee.

## **Authorized Positions:**

Those ongoing positions approved in the final budget of the preceding year less positions abolished because of continued, extended va-

cancy. The detail of authorized positions by classification is published in the Salaries and Wages Supplement for each agency. Changes in authorized positions are listed following each department's budget presentation in the Governor's Budget. (See Proposed New Positions.)

## **Balance Available:**

Amount available for appropriation or encumbrance. It is the excess of cash and near-cash assets of a fund over its liabilities and reserves; or commonly called surplus available for appropriation. It is also the unobligated balance of an appropriation which may be encumbered for the purposes of the specific appropriation.

## **Baseline Budget:**

A baseline budget reflects the anticipated costs of carrying out the current level of service or activities as authorized by the Legislature. It includes adjustment for cost increases, but does not include changes in level of service over that authorized by the Legislature.

## **Budget, Program/Traditional:**

A plan of operation for a specific period of time expressed in financial terms. A *program budget* expresses the operating plan in terms of the costs of activities to be undertaken to achieve specific goals and objectives. A *traditional budget* expresses the plan in terms of the costs of the goods or services to be used to perform specific functions.

The Governor's Budget is primarily a program budget. However, a summary of proposed expenditures for goods and services (Summary by Object) is included for State Operations, Local Assistance and Capital Outlay for each department, as well.

**Budget Bill/Act:**

The Budget Bill is prepared by the Department of Finance and is submitted to the Legislature in January accompanying the Governor's Budget. The Budget Bill is the Governor's proposal for spending authorization for the subsequent fiscal year for on-going programs authorized by the Legislature. The Constitution requires the Legislature to pass the Budget Bill and send it by June 15 each year to the Governor for signature. After signature by the Governor, the Budget Bill becomes the Budget Act.

**Budget Change Proposal (BCP):**

A proposal to change the level of service or funding sources for activities authorized by the Legislature, or propose new program activities not currently authorized.

**Budget Year (BY):**

The next fiscal year beginning July 1 and ending June 30 for which the Governor's Budget is submitted. The year following the current fiscal year.

**Capital Outlay:**

Expenditures which result in the acquisition of or addition to major fixed assets (e.g., land, buildings and equipment related to construction).

**Carryover Appropriations:**

Appropriations with balances available for expenditure in years subsequent to the year of enactment.

**Category:**

A grouping of related objects of expenditure (goods or services). Such groupings are primarily Personal Services, Operating Expenses and Equipment, and Special Items of Expense.

**Category Transfer:**

A control section of the Budget Act provides that the Department of Finance is authorized to augment any category by transfer from any

other category within the same appropriation item schedule.

Augmentations of personal services and operating expenses and equipment categories generally cannot exceed, in the aggregate, 20 percent of the amount scheduled. Lower limits exist for support appropriations which exceed \$2,000,000. (See Category.)

**Changes in Authorized Positions:**

A schedule included in each budget presentation in the Governor's Budget which reflects personnel staffing changes made subsequent to the adoption of the current year budget (transfers, positions established and reclassifications). It also includes proposed new positions for the budget year.

**Character of Expenditure:**

A classification of expenditures. (See State Operations, Local Assistance or Capital Outlay.)

**Codes, Uniform:**

A set of codes, used in all major fiscal systems of California State government, which has been established to identify organizations, programs, funds, appropriation structures, receipts and line-item objects of expenditure. The Uniform Codes Manual, published by the Department of Finance, lists all such uniform codes. (See Section 1.50 of the Budget Act for an explanation of the codes used for Budget Act appropriation items.)

**Continuing Appropriation:**

Amount, actual or estimated, available each year under a permanent constitutional or statutory expenditure authorization which is automatically renewed each year without further legislative action. The amount available may be a specific, recurring sum each year; all or a specified portion of the proceeds of specified revenues which have been dedicated permanently to a certain purpose; or it may be whatever amount is required for the purpose

as determined by formula—such as school apportionments.

**Control Sections, Budget Act:**

The Budget Act is divided into sections. Section 1.00 establishes a citation for the legislation. Section 1.50 provides a description of the format of the act. Section 2.00 contains the itemized appropriations for support of the State of California. Sections 4.00 through 36.00 are general sections, also referred to as control sections, which place additional restrictions on one or more of the itemized appropriations contained in Section 2.00.

**Cost-of-Living Adjustments (COLAs). Statutory/Discretionary:**

Increases provided in state-funded programs which include periodic adjustments predetermined in state law (statutory), e.g., K-12 education apportionments; and adjustments which may be established at optional levels (discretionary) by the Legislature each year, e.g., Urban Impact Aid.

**Current Year (CY):**

The fiscal year beginning July 1 and ending June 30. The time period we are in now.

**Encumbrance:**

A limitation or reserve placed on an appropriation to pay for goods or services which have been ordered by means of contracts, salary commitments, etc., but not yet received.

**Expenditure:**

Generally, this term designates the amount of an appropriation used for goods and services ordered and received whether paid or unpaid, including expenses, provisions for debt retirement not reported as a liability of the fund from which retired, and capital outlays where the accounts are kept on an accrual basis or a modified accrual basis. Where the accounts are kept on a cash basis, the term designates only actual cash disbursements.

**Federal Funds:**

In state budget usage, this term describes all funds received directly from an agency of the federal government but not those received through another state department. State departments must initially deposit such federal funds in the Federal Trust Fund, a fund in the State Treasury.

**Final Budget:**

The final budget is the Governor's Budget as amended by action taken on the Budget Bill. A Final Change Book is published by the Department of Finance after enactment of the Budget Act to reflect the changes made by the Legislature in their review of the Budget Bill and by the Governor by power of item veto. It includes a detailed list of changes by item number.

**Finance Letters:**

Proposals made by the Director of Finance to the chairpersons of the committees in each house which consider appropriations to amend the Budget Bill and Governor's Budget from that submitted January 10 to reflect a revised plan of expenditure for the Budget Year.

**Fiscal Year (FY):**

A 12-month state accounting period which varies from the calendar year and the federal fiscal year. In California State government, the fiscal year runs from July 1 through the following June 30. It is the period during which obligations are incurred, encumbrances are made and appropriations are expended. The Governor's Budget presents three years of detailed fiscal data for the past, current and budget years.

The state fiscal year is often referenced by the first calendar year of the fiscal year, e.g., "90" or "1990" means the 1990-91 fiscal year. By contrast, the federal 1990-91 fiscal year is often referenced as "91" or "1991," and lasts from October 1 through September 30.

**Fund Balance:**

Excess of the assets of a fund over its liabilities and reserves. (See Balance Available, Special Fund for Economic Uncertainties and Surplus.)

**Fund Condition Statement:**

A statement included in the Governor's Budget for each special fund, special accounts in the General Fund, selected bond funds and Governmental Cost funds to disclose the fund assets, liabilities, reserves and surplus.

**Funds:**

A legal entity that provides for the segregation of moneys or other resources in the State Treasury for specific activities or obligations in accordance with specific restrictions or limitations. A separate set of accounts must be maintained for each fund to show its assets, liabilities, reserves and surplus (fund balance), as well as its income and expenditures. The assets of a fund may also be placed into separate accounts to provide for limitations on specified fund income or expenditures. (See "Description of Fund Classifications in State Treasury.")

**General Fund:**

The General Fund is the predominant fund for financing State operations. It is used to account for revenues which are not specifically designated to be accounted for by any other fund. The primary sources of revenue for the General Fund are the personal income tax, sales tax and bank and corporation taxes. A complete itemization of the revenue sources are listed in Schedule 8. The General Fund is used as the major funding source for education (K-12 and higher education), health and welfare programs, youth and adult correctional programs and tax relief. Schedule 9 provides a listing of expenditures for the General Fund.

**Item:**

(See Appropriation.)

**Governmental Cost Funds:**

(See Special Funds.)

**Limited-Term Positions:**

A limited-term position is any position which has been authorized for a specific length of time with a set termination date. Limited-term positions may be authorized during the budget enactment process or in transactions approved by the Department of Finance.

**Line Item:**

(See Objects.)

**Local Assistance:**

Expenditures made for the support of local government activities.

**Local Mandates:**

(See State-Mandated Local Program.)

**Merit Salary Adjustment:**

A cost factor resulting from the periodic increase in salaries paid to personnel occupying authorized positions. Personnel generally receive a salary adjustment of 5 percent per year to recognize proficiency in the work performed up to the upper salary limit of the work classification.

**Minor Capital Outlay:**

Minor Capital Outlay consists of construction projects or equipment acquired to complete a construction project estimated to cost less than \$250,000.

**Objects (line items):**

A subclassification of expenditures based on type of goods or services. For example, the Personal Services category includes the objects of Salaries and Wages and Staff Benefits. These may be further subdivided into line items as State Employees' Retirement, Workers' Compensation, etc. Objects do not reflect a function or purpose to be served by the expenditure. A Summary by Object is provided for each department's budget in the Governor's Budget for State Operations, Local Assistance and Capital Outlay ex-

penditures. The Department of Finance publishes a Uniform Codes Manual which reflects the standard line-item objects of expenditure.

**Past Year (PY):**

The fiscal year just completed. (See Fiscal Year.)

**Personnel Years:**

The actual or estimated portion of a position expended for the performance of work. For example, a full-time position which was filled by an employee for half of a year would result in an expenditure of 0.5 personnel years.

**Positions:**

(See Authorized Positions.)

**Programs:**

The activities of an organization grouped on the basis of common objectives. Programs are comprised of elements, which can be further divided into components and tasks (the lowest defined program activity).

**Proposed New Positions:**

A request for an authorization to expend funds for the employment of additional people for the performance of work. Proposed new positions may be for limited-time periods (limited term) and for full or less than full-time. Proposed new positions may be for an authorization sufficient to employ one person, or for a sum of funds (blanket) from which several people may be employed.

**Reappropriation:**

The extension of the availability of an appropriation for expenditure beyond its set termination date and/or for a new purpose. Reappropriations are usually authorized by the Legislature for one year extensions at a time.

**Receipts:**

Describes an increase in the assets of a fund including revenues as well

as transfers from other funds, federal receipts and fund reimbursements.

**Reconciliation With Appropriations:**

A statement in each budget presentation which sets forth the source and amount of appropriations, by fund, available to the department and the disposition of such appropriated funds. Statements are presented by fund for each character of expenditure, i.e., State Operations, Local Assistance and Capital Outlay.

**Reimbursements:**

Amount received as a repayment of the cost of work, or service performed, or of other expenditures made for or on behalf of another governmental unit or department. Reimbursements represent the recovery of an expenditure. Reimbursements are available for expenditure in accordance with the budgeted amount (scheduled in an appropriation).

**Special Fund for Economic Uncertainties:**

Statutes and the control sections of the Budget Act provide for the establishment of a Special Fund for Economic Uncertainties and a reserve in each special fund to provide for emergency situations. The appropriation of such funds from the reserves are not subject to the appropriation limits imposed on other appropriations. (See Appropriations Limit.)

**Reserve:**

An amount set aside in a fund to provide for expenditures from the unencumbered balances of continuing appropriations, economic uncertainties, future apportionments, for pending salary or price increase appropriations and appropriation for capital outlay projects.

**Revenue:**

The addition to cash or other current assets of governmental funds

(receipts) which do not increase any liability or reserve and do not represent the recovery of an expenditure, i.e., reimbursements. Generally, revenue is derived from taxes, licenses and fees or investment earnings.

**Reversion:**

The return of the unused portion of an appropriation to the fund from which the appropriation was made. The undisbursed portion of an appropriation reverts two years after the last day of availability for encumbrance. The Budget Act often provides for the reversion of unused portions of appropriations when such reversion is to be made prior to the statutory limit.

**Salary Savings:**

Salary savings reflect personnel cost savings resulting from vacancies and downward reclassifications as a result of turnover of employees. The amount of budgeted salary savings is an estimate generally based on past year experience.

**Special Funds:**

Special funds is a generic term used for "governmental cost funds" other than the General Fund. Governmental cost funds generally are commonly defined as those funds used to account for revenues from taxes, licenses and fees where the use of such revenues is restricted by law for particular functions or activities of government. Examples of special funds are the transportation funds, fish and game funds and the professions and vocation funds. Revenues and expenditures of special funds are summarized in Schedules 8, 9 and 10.

**Staff Benefits:**

The staff benefits object represents the state costs of contributions for employees' retirement, OASDI, health and welfare benefits, workers' compensation, unemployment insurance, industrial disability leave benefits and nonindustrial disability leave benefits.

**State-Mandated Local Program:**

State reimbursements to local governments for the cost of activities required by legislative and executive acts. This requirement was established by Chapter 1406, Statutes of 1972 (SB 90) and further ratified by the adoption of Proposition 4 (a constitutional amendment) at the November 6, 1979 general election. (See Governor's Budget: 8885 Commission on State Mandates.)

**State Operations:**

Expenditures for the support of State government, exclusive of capital investments and expenditures for local government activities.

**Summary by Object:**

A summary of actual past year and estimated current and budget year expenditures for goods and services for each organization presented for State Operations, Capital Outlay and Local Assistance expenditures.

**Summary of Program Requirements:**

At the front of each departmental budget is a Summary of Program Requirements. It presents the various departmental programs by title, dollar totals and source of funds for the past, current and budget years.

**Summary Schedules:**

The Governor's Budget includes schedules which summarize state revenues, expenditures and other fiscal and personnel data for the past, current and budget years. (See Schedules 1-14.)

**Tax Expenditures:**

Subsidies provided through the taxation systems.

**Transfers:**

As reflected in fund condition statements, reflects the movement of resources from one fund to another based on statutory authorization or specific legislative transfer appropriation authority.

# Description of Key Schedules

The Budget includes summary information in various schedules. The following schedules are those which may be the most useful for the public, private sector, or other levels of government.

**SCHEDULE 1. *General Budget Summary***—Provides for a fund condition statement for the General Fund and the total of the Special funds plus expenditure totals for the Selected Bond funds.

**SCHEDULE 2. *Total State Spending Plan***—Provides in a single schedule the State's total spending plan. In addition to the General Fund, Special funds, and Selected Bond funds, expenditures from Nongovernmental Cost funds and Federal funds are shown.

**SCHEDULE 3A. *Total State Spending Plan by Generally Accepted Accounting Principles (GAAP) Fund Classifications***—Provides in a single schedule the State's Total Spending Plan (Schedule 2) rearranged into GAAP Fund Classifications.

**SCHEDULE 3B. *Comparison of California's Current Fund Structure to Recommended GAAP Fund Classifications***—Provides a comparison of California's Current Fund Structure to recommended GAAP Fund Classifications.

**SCHEDULE 4A. *Personnel Years and Salary Cost Estimates***—Provides personnel year data and corresponding dollar amounts by functional breakdown and position classifications. This schedule reflects net data after salary savings.

**SCHEDULE 4B. *Positions and Salary Cost Estimates***—Provides position and personnel year data and corresponding dollar amounts by functional breakdown. This schedule reflects both gross data before salary savings and net totals, salaries and wages.

**SCHEDULE 5. *Summary of State Population, Employees, and Expenditures***—Provides historical data of State population, employees and expenditures.

**SCHEDULE 6. *General Fund—Analysis of Change in Reserves***—Provides a comparison of the General Fund amounts presented in the previous Governor's Budget to the amounts presented in this Governor's Budget.

**SCHEDULE 7. *General Fund: Statement of Financial Condition***—Provides the financial condition of the General Fund as of June 30, 1988 from the most recently available information from the State Controller.

**SCHEDULE 8. *Comparative Statement of Revenues***—Provides General Fund and Special fund revenue detailed amounts within three main breakdowns of: (1) major taxes and licenses, (2) other revenues, and (3) transfers.

**SCHEDULE 9. *Comparative Statement of Expenditures***—Provides a listing of expenditures in the order of printing of individual budgets from the General Fund, Special funds, Selected Bond funds and Federal funds for State operations, local assistance and capital outlay.

**SCHEDULE 9A. *Proposition 98 General Fund Guarantee***—Provides a listing of appropriations for Education programs for grades K-14 and other state agencies providing direct elementary and secondary level instructional services which are subject to Proposition 98 passed by the electorate in November of 1988.

**SCHEDULE 10. *Summary of Fund Condition Statements***—Provides for the General Fund and each Special fund the beginning reserve, income, expenditures, transfers, and ending reserve for

each of the three fiscal years displayed in the Governor's Budget.

**SCHEDULE 11. *Statement of Cash and Securities***—Provides a listing of cash, securities and amounts due from the Surplus Money Investment Fund for all funds maintained in the State Treasury.

**SCHEDULE 12. *Comparative Statement of Expenditures as Required by Law***—Provides a listing of expenditures authorized by constitutional or statutory appropriation authority.

**SCHEDULE 13. *Statement of Bonded Debt***—Provides a listing of all general obligation bonds as of December 31, 1988 including maturity dates, authorized amount of bond issues, unsold issues, redemptions and outstanding issues.

**SCHEDULE 14A. *Revenues to Excluded Funds***—Provides a listing of revenues to special funds that are not included in the calculation of total appropriations subject to the State Appropriations Limit.

**SCHEDULE 14B. *Non-tax Revenues in Funds Subject to Limit***—Provides a total of non-tax revenues for General and Special funds deposited in funds that are included in the calculation of total appropriations subject to the State Appropriations Limit.

**SCHEDULE 14C. *Transfers from Excluded Funds to Included Funds***—Provides a listing of transfers between funds that are included in calculating the appropriations subject to the Limit.

**SCHEDULE 14D. *Expenditures Excluded from Limit by Agency***—Provides a distribution of actual gross appropriations that are excluded from appropriations subject to the limit.

# Description of Fund Classifications in the State Treasury

Revenues and expenditures in the program budget and the summary schedules reflect the activities of many separate funds. Schedules 10 and 11 provide a complete list of these funds. The Index lists those funds for which Fund Conditions are included in the budget and references the page number. General Fund and Special Fund expenditures represent the cost of government and are included in budget totals, and along with selected Bond Funds, are included in the overall expenditure totals. In 1981-82 the State of California began to change classification of funds in the state treasury to conform to Generally Accepted Accounting Principles as set forth by the National Council on Governmental Accounting. Schedule 3 includes a description of these changes and shows their effect on the 1990-91 budget totals.

**General Fund.** Used to account for all revenues and activities financed therefrom which are not required by law to be accounted by any other fund. Most state expenditures are financed from the General Fund. Normally, the only difference between the General Fund and the other governmental costs funds is the restriction placed on the use of the other governmental cost funds.

**Special Funds.** Consists of governmental cost funds used to account for taxes and revenues which are restricted by law for particular functions or activities of govern-

ment. The funds included in these classifications are primarily for the regulation of businesses, professions and vocations; transportation; law enforcement and capital outlay.

**General Fund Special Accounts.** Legislatively created accounts or dedicated revenues within the General Fund. Moneys credited to such accounts may be used only for the purposes specified in the legislation. As a result of Chapter 942, Statutes of 1977, these special accounts are treated as special funds and revenues and expenditures are included in the special funds totals in the summary schedules of the budget. They are therefore excluded from the General Fund unrestricted revenues, expenditures and reserves.

**Other Funds.** See Schedule 11 for a list of funds which do not represent a cost of government. Expenditures from these funds are not included in the budget totals. They consist of moneys which were derived from sources other than general or special taxes, licenses, fees or other state revenues. Included are receipts from the Federal Government, funds created for accounting purposes, receipts from sale of lands, or moneys held in trust. These funds are segregated into the following classifications:

**Working Capital and Revolving Funds.** Funds created to finance internal service activities rendered by a state agency to other state

agencies or to local governments for which charges are made at cost. The charges are reflected as expenditures in the budget of the agency receiving the commodity or service.

**Public Service Enterprise Funds.** Self supporting activities operated by the State for the benefit of the public. Funds are derived from charges to those who use the service and no support is derived from taxes, licenses or other state revenues.

**Bond Funds.** Used to account for the receipt and disbursement of proceeds from the sale of bonds and to finance projects for which the bonds were authorized. Expenditures are considered a cost of government at the time interest payments are made and as the bonds are redeemed.

**Retirement Funds.** Moneys held in trust by the State for retirement benefit payments.

**Trust and Agency Funds.** Funds holding moneys in trust pending disbursements to trustors, moneys received from the Federal Government to be expended for specific purposes, and other funds which do not derive their sources from taxes or other state revenues, or are in the nature of transitory funds created for the convenience of accounting receipts or disbursements which are not necessarily revenues or expenditures.

## Selected Bond Funds

Selected bond funds are General Obligation Bond funds which are non-self liquidating. Included in the overall expenditures totals of Schedules 1 and 9 for budget purposes are expenditures from the selected bond funds, the following page provides a complete listing of all selected bond funds.

<i>Fund No.</i>	<i>Fund Name</i>
788	California Earthquake Safety and Housing Rehabilitation Bond Account
794	California Library Construction and Renovation Fund
707	California Safe Drinking Water Fund
793	California Safe Drinking Water Fund of 1988
719	California School Finance Authority Fund
786	California Wildlife, Coastal and Park Land Conservation Fund of 1988
737	Clean Water and Water Conservation Fund
764	Clean Water and Water Reclamation Fund of 1988
734	Clean Water Fund
740	Clean Water Bond Fund of 1984
716	Community Parklands Fund
796	County Correctional Facility Capital Expenditure and Youth Facility Bond Fund of 1988
711	County Correctional Facility Capital Expenditure Fund of 1986
725	County Jail Capital Expenditure Fund, Bond Act of 1981
727	County Jail Capital Expenditure Fund, Bond Act of 1984
748	Fish and Wildlife Habitat Enhancement Fund
755	Flood Control Bond Fund
754	Forestry and Wildlife Fire Protection Bond Fund
718	Health Science Facilities Construction Program Fund
782	Higher Education Capital Outlay Bond Fund
785	Higher Education Capital Outlay Bond Fund of 1988
791	Higher Education Capital Outlay Bond Fund of 1990
714	Home Building and Rehabilitation Fund
720	Lake Tahoe Acquisitions Fund
723	New Prison Construction Fund
781	New Prison Construction Revenue Fund
721	Parkland Fund of 1980
722	Parkland Fund of 1984
724	Prison Construction Fund of 1984
746	Prison Construction Fund of 1986
747	Prison Construction Fund of 1988
751	Prison Construction Bond Fund of 1990
728	Recreation and Fish and Wildlife Enhancement Fund
749	Refunding Escrow Fund
789	School Facilities June 1988 Bond Account, State School Building Lease-Purchase Fund
776	School Facilities November 1988 Bond Account, School Building Lease-Purchase Fund
715	SSC Development Fund
732	State Beach, Park, Recreational and Historical Facilities Fund of 1964
733	State Beach, Park, Recreational and Historical Facilities Fund of 1974
730	State Coastal Conservancy Fund of 1984
736	State Construction Program Fund

<sup>a</sup> The General Budget Summary includes the revenues and expenditures of all state funds that reflect the cost of State government and selected bond fund expenditures. The transactions involving other nongovernmental cost funds are excluded. The amounts included in this schedule for expenditures and revenues may not agree with those shown in Schedules 8, 9, 10 and 12 due to rounding.

<sup>b</sup> Due to lack of time for complete reconciliation to the State Controller's preliminary fiscal data for their annual report, the amounts reflected in the 1988-89 fiscal year do not agree with the data which will be included in the State Controller's Annual Report. See Schedule 7 which follows for a reconciliation of the Fund Balance as of June 30, 1988 between the State Controller's Preliminary Annual Report and the amount reported in this Schedule.

<sup>c</sup> The Special Fund for Economic Uncertainties and the Reserves for Economic Uncertainties provide sources of funds to meet State General Fund and Special Funds obligations in the event of a decline in revenues or an unanticipated increase in expenditures.

<sup>d</sup> The Reserve for Education (K-14) represents a contingency amount set aside to meet the State's obligation to conform to Article XVI, Section 8 of the State Constitution (Proposition 98) passed by the electorate in November 1988.

<sup>e</sup> The Reserve for Proposition 98 (Unspent Appropriations) represents the amounts which were not spent from appropriations available during the 1988-89 fiscal year to meet the State's obligation to conform to Proposition 98.

<sup>f</sup> The Reserve for Liquidation of Encumbrances represents an amount which will be expended in the future for state obligations for which goods and services have not been received. This Reserve treatment is consistent with accounting methodology recommended by Generally Accepted Accounting Principles (GAAP) and Chapter 1286, Statutes of 1984 (AB 3372) which requires the State to conform its fiscal management system to GAAP.

<sup>g</sup> The Fund Balance for the General Fund includes amounts for unencumbered balances of continuing appropriations at the end of the 1988-89, 1989-90 and 1990-91 fiscal years of \$92,159, \$64,648 and \$4,039 (in thousands) respectively.

## Schedule 2 TOTAL STATE SPENDING PLAN

This Schedule is included for informational purposes to show in one place the expenditures of all funds which are accounted for by the State.

A basic premise in a consolidation such as this is that the State is the financial unit and individual funds are subsidiary units to the State. This is similar to financial units in the private sector in which diversified commercial corporations with several subsidiaries report their operation on a consolidated basis—but is a contrast to traditional governmental accounting, which has held that the individual funds are the financial units and should not be consolidated with other funds or types of funds. A total consolidation presents both theoretical and practical problems because of the individual nature of each fund. In essence, each fund is a separate fiscal and legal entity that operates under the specific legal provisions that created it. Examples of problems which may arise from an unqualified consolidation are (1) funds are accounted for in a different manner, (2) duplication of expenditures result, (3) expenditures from non-state funds are included, and (4) expenditures are included for quasi-state operations such as Workers' Compensation and for payment of retirement benefits for other governmental units.

In order to minimize misinterpretations, this Schedule is displayed in two parts. Part A summarizes those expenditures from funds traditionally included in budget totals; Part B summarizes expenditures from the other funds which are collectively identified as nongovernmental cost funds. Schedule 2, in either part, does not include reimbursements received from the public or other levels of government, as these are deducted from State expenditures.

### Total State Spending Plan—Part A Governmental Cost, Selected Bond Funds and Federal Funds

As stated above, Part A summarizes expenditures from funds which are traditionally included as part of State expenditure summaries in the Governor's Budget and other State financial reports. The major portion of the expenditures shown in Part A is for the General Fund and the various special funds which are commonly referred to as "governmental cost funds." This term is used because these funds are used to account for moneys which are derived from general and special taxes, licenses, fees or other revenue sources to provide financing for State activities which are for the general purposes of State government.

The selected bond funds are included in Part A because of the historical legislative interest in showing these expenditures in budget totals. It should be noted that there is a duplication in showing these expenditure amounts from bond proceeds because the expenditures are included both when bond proceeds are spent and when debt service is paid.

The Federal funds have also been included in Part A because of increasing interest in the level of the State's expenditure of Federal funds. The detail of expenditures by department for the General Fund, special funds, selected bond funds and Federal funds is shown in Schedule 9.

<i>Funds</i>	<i>1988-89*</i>	<i>1989-90*</i>	<i>1990-91*</i>
<b>Governmental Cost Funds:</b>			
General Fund .....	\$35,897,298	\$40,069,922	\$42,612,736
Special Funds .....	6,222,892	7,761,596	7,911,649
Totals, Governmental Cost Funds.....	\$42,120,190	\$47,831,518	\$50,524,385
Selected Bond Funds.....	2,514,183	2,270,987	3,213,265
Totals, Governmental Cost Funds and Selected Bond Funds.....	\$44,634,373	\$50,102,505	\$53,737,650
Federal Funds .....	16,626,176	20,288,342	20,162,447
<b>TOTALS .....</b>	<b>\$61,260,549</b>	<b>\$70,390,847</b>	<b>\$73,900,097</b>

### Total State Spending Plan—Part B Nongovernmental Cost Funds

Nongovernmental cost funds are used to account for moneys which are derived from sources other than general or special taxes, licenses, fees or other state revenues. Although Federal funds and bond funds are classified as nongovernmental costs funds, they are included in Part A for reasons cited therein. The nongovernmental cost funds shown in Part B are segregated into the following classifications.

#### PUBLIC SERVICE ENTERPRISE FUNDS

Public Service Enterprise Funds are used to account for the transactions of self-supporting enterprises which render services for a charge primarily to the general public.

Activities which are accounted through Public Service Enterprise Funds include toll bridges, harbor facilities, disability insurance, college housing, and veterans farm and home loan financing. Bond funds and sinking funds related to a public service enterprise are included in this classification.

Public Service Enterprise Funds differ from Working Capital and Revolving Funds in that, in the latter, fees for services rendered are largely from other State agencies or local governments.

It should be noted that expenditures shown below from the Compensation Insurance Fund do not include benefit payments to State employees because the State is self-funded. The expenditures shown are benefits paid from funding provided through insurance premiums and therefore are not true State costs.

#### WORKING CAPITAL AND REVOLVING FUNDS

Working Capital and Revolving Funds are used to account for the internal service activities rendered by a State agency to other State agencies or to local governments. Activities which are accounted through Working Capital and Revolving Funds include centralized purchasing for stores, consolidated data center services, printing, architectural services, manufacturing, surplus money investment, payroll disbursement, automotive management, and building operations.

Working Capital and Revolving Funds differ from the Public Service Enterprise Funds, which render services primarily to the general public. To the extent that services are provided to other State agencies, expenditures shown in Working Capital and Revolving Funds are duplicative of expenditures shown in the agencies.

## BOND FUNDS

Bond Funds are used to account for the receipt and disbursement of bond proceeds. They do not account for bond retirement since the liability created by the sale of bonds is not a liability of these funds. Bonds are retired and the interest obligations thereon are paid through the provisions specified in the bond act.

Bond Funds related to a public service enterprise are included in the Public Service Enterprise Fund classification.

## RETIREMENT FUNDS

Retirement Funds are used to account for employer and member contributions received by various retirement systems, the investment of these moneys, annuity payments, refunds to members, and other receipts and disbursements. The amounts shown below reflect both administrative costs and benefits paid to annuitants. For the Public Employees' Retirement Fund and the Teachers' Retirement Fund, funding includes non-state sources and expenditures therefrom are not true State costs. Also, costs funded from amounts transferred into these funds from other State agencies are duplicative of expenditures shown in the agencies.

## OTHER NONGOVERNMENTAL COST FUNDS

For selected programs, the State budget has traditionally included funding provided by county funds and university funds for informational purposes. Because of inclusion in the budget, these expenditures are shown in Schedule 2. The balance of funds shown in this classification are for Trust and Agency Funds which are used to account for moneys and properties that are received from other than Federal sources and which are held and disbursed from the State Treasury by the State as trustee or custodian.

The following provides detail for the significant funds and amounts which comprise the various categories of Nongovernmental Cost Funds:

<i>Funds</i>	<i>1988-89* Amount</i>	<i>1989-90* Amount</i>	<i>1990-91* Amount</i>

## IMPLEMENTATION OF GENERALLY ACCEPTED ACCOUNTING PRINCIPLES

Implementation of Chapter 1286, Statutes of 1984, requires the state to conform its financial management system to Generally Accepted Accounting Principles (GAAP) to the extent that the Department of Finance deems it to be in the best interest of the State.

GAAP represents uniform minimum standards and guidelines for financial accounting and reporting. The goal of GAAP is to standardize the accounting and financial reporting of organizations regardless of jurisdictional legal provisions and customs. The purpose of "Governmental GAAP" is to provide a uniform set of rules so the presentation of governmental financial reports for taxpayers, bond rating companies, legislators and other readers are consistent from year to year, as well as comparable between governmental entities.

The Governmental Accounting Standards Board (GASB) establishes accounting and financial reporting standards for activities and transactions of state and local governmental entities. The State of California currently is a dues-paying member of the GASB organization and provides input for the various issues being studied by GASB.

An effort is currently underway within the Department of Finance to ensure that the budget and financial statements of the state are more understandable and are presented in a fair and consistent manner through the application of Generally Accepted Accounting Principles.

The Department of Finance has taken the following actions to implement GAAP:

1. A work group was established to review the changes required by GAAP and to establish priorities and task assignments.
2. In 1986-87, the Governor's Budget and Budget Act changed the classification of student fees in the California State University System to revenue rather than reimbursements.
3. In 1986-87, the Governor's Budget and Budget Act changed the classification of State Hospital Medical Care receipts to reimbursements rather than revenue.
4. In 1987-88, the Governor's Budget displayed the interest and redemption costs of general obligation bonds in the relevant program area for each bond.
5. The Financial and Performance Audits Unit (FPA) of the Department of Finance has done work on rewriting the sections of the State Administrative Manual covering proprietary funds to bring them into conformance with GAAP.
6. The "Fund Manual" for California has been rewritten to bring it into conformance with GAAP.
7. The 1989-90 Governor's Budget provides for the treatment of General Fund encumbrances as a reservation of fund balance rather than expenditures. This treatment is consistent with the GAAP standard that encumbrances are obligations for which goods and services have not been received and which therefor should not be shown as expenditures.

The State's fiscal system is highly complex with many interrelationships between budgeting and accounting. Consequently, some of the changes in accounting that are necessary to conform to GAAP impact the budget system and/or the Governor's Budget presentations. These interrelationships will result in the GAAP changes being accomplished over a number of years.

The following two charts illustrate the effect of conversion to GAAP fund classifications:

Schedule 3A shows the "Total State Spending Plan" data shown in Schedule 2 rearranged into the GAAP classifications.

Schedule 3B uses 1989-90 budget totals to show California's current fund structure compared to recommended GAAP classifications.

<sup>1</sup> State Appropriations Limit, Article XIII B.

<sup>2</sup> In 1988-89, the actual appropriations are slightly less than the currently estimated minimum guarantee. Final SAL and local revenues for 1988-89 and the actual guarantee will be recomputed in March 1990 and appropriations made accordingly before June 30, 1990 pursuant to Chapters 82 and 83, Statutes of 1989.

<sup>3</sup> In 1989-90, the estimated share of SAL revenues exceeds the minimum percentage share pursuant to the provisions of Proposition 98 which guarantee the greater of the percentage share or prior year adjusted for changes in ADA and cost-of-living.

# STANDARD FOOTNOTES

## FUND TITLES, SOURCES OR DESCRIPTIONS

- <sup>a</sup> From State Construction Program.
- <sup>b</sup> From General Fund.
- <sup>c</sup> Bond Fund expenditures that are included in overall expenditure totals.
- <sup>d</sup> Bond Fund expenditures that are not included in overall expenditure totals shown in Schedules 1 and 9, i.e. governmental cost fund totals.
- <sup>e</sup> Non-Governmental Cost Fund revenues and expenditures are not included in budget totals, i.e. governmental cost fund totals.
- <sup>f</sup> Federal Funds and expenditures therefrom are not included in budget totals, i.e. governmental cost fund totals.
- <sup>g</sup> Capital Outlay Fund for Public Higher Education Fund.
- <sup>h</sup> Energy and Resources Fund (Energy and Resources Accounts).
- <sup>i</sup> Non-State Funds and expenditures therefrom are not included in budget totals, i.e. governmental cost fund totals.
- <sup>j</sup> Departmental costs relating to budget year salary increase and employee benefits proposals had not been determined when this fund condition statement was prepared. Therefore, the budget year amount shown for reserve for economic uncertainties or fund balance has not been adjusted for such potential expenditures.
- <sup>k</sup> Special Account for Capital Outlay.

## PURPOSE OF EXPENDITURE (Capital Outlay)

- <sup>A</sup> Acquisition
- <sup>C</sup> Construction
- <sup>D</sup> Demolition
- <sup>E</sup> Equipment
- <sup>L</sup> Lease Purchase
- <sup>M</sup> Master Planning
- <sup>P</sup> Programming and/or Preliminary Plans
- <sup>R</sup> Relocation Cost
- <sup>W</sup> Working Drawings

# INDEX OF ORGANIZATIONS AND FUNDS

## 1990-91

### GOVERNOR'S BUDGET

This Index lists organizations and fund condition statements in alphabetical order. The four-digit organization code represents the number assigned to a department or budget entity in the State Uniform Codes Manual. For ease of reference, budgets are in numerical order in the Governor's Budget and the organization code appears at the top of each page. The fund condition statements reflect the organization code of the budget entity they are part of.
